

manufacturer's instruction manuals into their MSHA part 46 training plan and train affected miners in the process.

(d) Miners entering the booth shall examine valves and nozzles for damage or malfunction and will close the door fully before opening the air valve. Any defects shall be repaired prior to the booth being used.

(e) Miners entering the booth shall wear eye protection, ear plugs or muffs for hearing protection, and respiratory protection meaning a full-face or half-mask respirator that meets or exceeds the minimum requirements of an N95 filter to which the miner has been fit-tested. As an alternative, the use of a full-face respirator will also meet the requirement for eye protection. A sign will be conspicuously posted that states the above personal protective equipment is required when entering the booth.

(f) Air flow through the booth will be at least 2,000 cubic feet per minute (cfm) to maintain negative pressure during the use of the cleaning system in order to prevent contamination of the environment outside the booth. Airflow will be in a downward direction, thereby moving contaminants away from the miner's breathing zone.

(g) Air pressure through the spray manifold will be limited to 30 pounds per square inch or less. A lock box with a single, plant manager-controlled key will be used to prevent regulator tampering.

(h) The spray manifold will consist of a 2-inch square tube with ¼ inch wall thickness, capped at the base and actuated by an electrically controlled valve at the top.

(i) Air nozzles shall not exceed 30 pound(s) per square inch gauge.

(j) The uppermost spray of the spray manifold will be located below the booth user's breathing zone. Some type of mechanical device can be used to cover the upper air nozzles to meet the specific height of the user.

(k) Air nozzles shall be guarded to eliminate the possibility of incidental contact, which could create mechanical damage to the air nozzles during the clothes cleaning process.

(l) The petitioner shall conduct periodic maintenance checks of the booth in accordance with the recommendations contained in the manufacturer's instruction manual.

(m) The air receiver tank supplying air to the manifold system will be of sufficient volume to permit no less than 20 seconds of continuous cleaning time.

(n) An appropriate hazard warning sign will be posted on the booth to state, at a minimum, "Compressed Air" and "Respirable Dust."

(o) A pressure relief valve designed for the booth's air reservoir will be installed.

(p) The mine will exhaust dust-laden air from the booth into a local exhaust ventilation system or duct outside the facility while ensuring there is no re-entrainment back into the structure.

In support of the proposed alternative method, the petitioner submitted specifications of the dust booth; installation and operating instructions of the dust booth to be used; and The Dust Control Handbook for Industrial Minerals, Mining, and Processing.

The petitioner asserts that the alternate method proposed will at all times guarantee no less than the same measure of protection afforded the miners under the mandatory standard.

Song-ae Aromie Noe,

Director, Office of Standards, Regulations, and Variances.

BILLING CODE 4520-43-P

OFFICE OF THE DIRECTOR OF NATIONAL INTELLIGENCE

Notice of Meeting: National Intelligence University Board of Visitors

AGENCY: National Intelligence University (NIU), Office of the Director of National Intelligence (ODNI).

ACTION: Notice of federal advisory committee meeting.

SUMMARY: The ODNI is publishing this notice to announce that the following Federal Advisory Committee meeting of the National Intelligence University Board of Visitors will take place. This meeting is closed to the public.

DATES: Thursday June 8, 2023, 9:00 a.m. to 12:00 p.m., Bethesda, MD.

ADDRESSES: National Intelligence University, 4600 Sangamore Road, Bethesda, MD 20816.

FOR FURTHER INFORMATION CONTACT: Ms. Patricia "Patty" Larsen, Designated Federal Officer, (301) 243-2118 (Voice), excom@odni.gov (email). Mailing address is National Intelligence University, Roberdeau Hall, Washington, DC 20511. Website: <http://ni-u.edu/wp/about-niu/leadership-2/board-of-visitors/>.

SUPPLEMENTARY INFORMATION: This meeting is being held under the provisions of the Federal Advisory Committee Act (FACA) of 1972 (5 U.S.C. 1001-1014), the Government in the Sunshine Act of 1976 (5 U.S.C. 552b), and 41 CFR 102-3.140 and 102-3.150. The meeting includes the discussion of classified information and classified

materials regarding intelligence education issues and the Director of National Intelligence, or her designee, in consultation with the ODNI Office of General Counsel, has determined the meeting will be closed to the public under the exemptions set forth in 5 U.S.C. 552b(c)(1) and 552b(c)(2).

I. Purpose of the Meeting: The Board will discuss critical issues and advise the Director of National Intelligence on controlled unclassified or classified information as defined in 5 U.S.C. 552b(c)(1) and discuss matters related solely to the internal personnel rules and practices of NIU under 5 U.S.C. 552b(c)(2) and therefore will be closed to the public.

II. Agenda: Welcome and Call to Order, Presidential Update, Presidential Candidates (Personnel), and Governance Discussion.

III. Meeting Accessibility: The public or interested organizations may submit written statements to the National Intelligence University Board of Visitors about its mission and functions. Written statements may be submitted at any time or in response to the stated agenda of a planned meeting of the National Intelligence University Board of Visitors.

IV. Written Statements: All written statements shall be submitted to the Designated Federal Officer for the National Intelligence University Board of Visitors, and this individual will ensure that the written statements are provided to the membership for their consideration.

Robert A. Newton,

Committee Management Officer and Deputy Chief Operating Officer.

BILLING CODE P

NATIONAL TRANSPORTATION SAFETY BOARD

[Docket No.: NTSB-2023-0005]

Information Collection: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

AGENCY: National Transportation Safety Board (NTSB).

ACTION: Notice and request for comments for a new information collection.

SUMMARY: Under the Paperwork Reduction Act (PRA) of 1995, the NTSB invites public comment on the agency's intent to submit to the Office of Management and Budget (OMB) an Information Collection Request (ICR),

seeking Generic Clearance for a new collection. Specifically, the NTSB intends to seek OMB approval on generic clearance for qualitative feedback on agency service delivery.

DATES: Submit written comments regarding this proposed collection of information by July 31, 2023.

ADDRESSES: You may send comments, identified by Docket Number (No.) NTSB–2023–0005, by any of the following methods:

- *Federal e-Rulemaking Portal:* <https://www.regulations.gov>.
- *Email:* rulemaking@ntsb.gov.
- *Fax:* 202–314–6090.
- *Mail/Hand Delivery/Courier:* NTSB, Office of General Counsel, 490 L'Enfant Plaza East SW, Washington, DC 20594.

Instructions: All submissions in response to this Notice must include Docket No. NTSB–2023–0005. All comments received will be posted without change to <https://www.regulations.gov>, including any personal information provided.

Docket: For access to the docket, including comments received, go to <https://www.regulations.gov> and search under Docket No. NTSB–2023–0005.

FOR FURTHER INFORMATION CONTACT: Casey Blaine, Deputy General Counsel, (202) 314–6080, rulemaking@ntsb.gov.

SUPPLEMENTARY INFORMATION:

Title of Collection: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Form Number: To be determined by specific collections.

Type of Request: New Collection.

Type of Review: Regular.

Type of Review Requested: 3 years from the date of approval.

Summary of the Collection of Information: With the goal of ensuring that the Federal Government provided the highest quality service as possible, Executive Order (E.O.) 12862 (Setting Customer Service Standards) was issued to set customer service standards to a level that either matched or exceeded the best service available in the private sector. Accordingly, E.O. 12862 directed Federal agencies to create customer surveys to obtain information on customer satisfaction. E.O. 14058 (Transforming Federal Customer Experience and Service Delivery to Rebuild Trust in Government) was later issued and reiterated the Federal Government's commitment to improve a customer's experience in an agency's service delivery. E.O. 14058 defined service delivery as an action related to a Federal benefit or service provided to a customer.

To ensure that the NTSB's service delivery is effective and meets its

customer needs, the NTSB seeks OMB approval of a generic clearance to collect qualitative feedback on the agency's service delivery. This proposed IC provides a means to garner qualitative feedback in an efficient, timely manner in accordance with the commitment to improving service delivery.

Qualitative feedback is information that will provide insights into stakeholder perceptions, experiences, and expectations; provide an early warning of issues with service; or focus attention on areas where communication, training, or changes in operations might improve delivery of products and services. This feedback will allow for ongoing, collaborative, and actionable communications between the NTSB and its stakeholders. It will also allow for feedback to contribute directly to the improvement of program management.

The feedback solicited will target areas that include, but are not limited to: timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from stakeholders on the agency's services will be unavailable.

The agency will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collection is voluntary;
- The collection is low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and is low-cost for both the respondents and the Federal Government;
- The collection is non-controversial and does not raise issues of concern to other Federal agencies;
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near-future;
- Personally identifiable information (PII) is collected only to the extent necessary and is not retained;
- Information gathered is intended to be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency (if released, the agency must indicate the qualitative nature of the information);
- Information gathered will not be used for the purpose of substantially

informing influential policy decisions; and

- Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study. The types of collections that this generic clearance covers include, but are not limited to:
 - Customer comment cards/ complaint forms;
 - Qualitative customer satisfaction surveys (e.g., post-meeting surveys; web surveys); and
 - In-person observation testing (e.g., website or software usability tests).

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population.

This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: the target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such as collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

As a general matter, information collections under this request will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

Current Actions: New collection of information.

Type of Review: New Collection.

Affected Public: Individuals and Households, Businesses and Organizations, and State, Local, or Tribal Government.

Total Estimated Annual Burden Hours: 1,250.

Estimated Average Burden Hours per Respondent: 30 minutes.

Frequency of Response: On occasion, per request.

Total Estimated No. of Annual Responses: 15,000.

The 1,250 annual burden hours requested are based on the number of collections the NTSB expects to conduct over the requested three-year period for this generic clearance.

Estimated Total Annual Burden Cost: \$0.

Participation in this collection is voluntary, and there are no costs to respondents beyond the time spent participating in the surveys.

Request for Comments: Prior to submitting the ICR to the Office of Information and Regulatory Affairs (OIRA), 5 CFR 1320.8(d)(1) requires agencies to provide a 60-day Notice in the **Federal Register** and otherwise consult with members of the public and affected agencies. Thus, through this Notice, the NTSB currently is soliciting public comments that include: (1) whether the proposed collection is necessary for the NTSB to perform its mission; (2) the accuracy of the estimated burden; (3) ways for the NTSB to enhance the quality, usefulness, and clarity of the IC; and (4) ways to minimize burden without reducing the quality of the IC. The NTSB will summarize and/or include comments received in the agency's request for OMB approval.

Jennifer Homendy,
Chair.

BILLING CODE 7710-12-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-97547; File No. SR-CboeEDGX-2023-036]

Self-Regulatory Organizations; Cboe EDGX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Its Fee Schedule

May 23, 2023.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on May 10, 2023, Cboe EDGX Exchange, Inc. (“Exchange” or “EDGX”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe EDGX Exchange, Inc. (the “Exchange” or “EDGX”) proposes to amend its Fee Schedule. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's website (http://markets.cboe.com/us/options/regulation/rule_filings/edgx/), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of

the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Fee Schedule applicable to its equities trading platform (“EDGX Equities”) as follows: (1) by modifying and introducing certain Add/Remove Volume Tiers; (2) by eliminating certain Growth Tiers; (3) by modifying the criteria of the Non-Displayed Add Volume Tiers; (4) by eliminating certain Non-Displayed Step-Up Tiers; (5) by eliminating certain Retail Growth Tiers; and (6) by introducing new fee code DX and modifying the description and fee associated with fee code DQ. The Exchange proposes to implement these changes effective May 1, 2023.³

The Exchange first notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient. More specifically, the Exchange is only one of 16 registered equities exchanges, as well as a number of alternative trading systems and other off-exchange venues that do not have similar self-regulatory responsibilities under the Securities Exchange Act of 1934 (the “Act”), to which market participants may direct their order flow. Based on publicly available information,⁴ no single registered equities exchange has more than 16% of the market share. Thus, in such a low-concentrated and highly competitive market, no single equities exchange possesses significant pricing power in the execution of order flow. The Exchange in particular operates a “Maker-Taker” model whereby it pays rebates to members that add liquidity and assesses fees to those that remove liquidity. The Exchange's Fee Schedule sets forth the standard rebates and rates applied per share for orders that provide and remove liquidity, respectively. Currently, for orders in securities priced at or above \$1.00, the Exchange provides a standard rebate of \$0.00160 per share for orders that add liquidity and assesses a fee of \$0.0030 per share

³ The Exchange initially filed the proposed fee changes on May 1, 2023 (SR-CboeEDGX-2023-034). On May 10, 2023, the Exchange withdrew that filing and submitted this proposal.

⁴ See Cboe Global Markets, U.S. Equities Market Volume Summary, Month-to-Date (April 21, 2023), available at https://www.cboe.com/us/equities/market_statistics/.
