

demand for recreation use of BLM-administered public lands.

3. Availability and Development of Mineral Materials for Construction

At present, there is a small, localized sand and gravel mining industry within the planning area. These mineral materials are needed primarily for maintenance of the flood control levees along the Snake River, and for road and building construction and maintenance around the Jackson Hole area. These mineral materials are not readily available from other Federal, State, or local government lands, nor are they readily available from private lands. Sand and gravel are often trucked in from outside the Jackson Hole area at a higher cost to users. Questions addressed in the Snake River RMP include whether sand and gravel mining from BLM-administered public lands would be appropriate, and what conditions would be necessary to protect recreation opportunities, watershed resources and important wildlife habitat.

4. Land Surface Ownership Adjustment

Because of the small acreage and irregular shape of each of the 23 BLM-administered parcels under consideration, their scattered nature, and their proximity to private real estate of high value, BLM is considering disposal or transfer of public ownership or administration of these parcels. Questions addressed in the Snake River RMP include whether the parcels should be retained in Federal ownership, how these lands should be administered, who should administer the lands, and under what criteria would the parcels be evaluated and deemed suitable for disposal, if appropriate administration could not be established.

The Snake River RMP Draft EIS alternative plans were developed in conformance with the BLM's National Fire Plan and the National Energy Policy (May 2001). The potential in the Snake River RMP planning area for development of energy resources such as oil and gas, coal, geothermal, and wind resources has been determined to be very low.

Notice of Disclaimer of Interest; Oregon

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: Dennis D. Ashenfelter, has filed an application on behalf of Progress Quarry, L.L.C., for a record disclaimer of interest from the United States pursuant to the authority of section 315 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1745), for the following described land:

Willamette Meridian, Oregon

T. 2 S., R. 1 W.,

Sec. 5, S½NE¼ and SE¼

The area described contains 240.00 acres in Washington County, Oregon.

FOR FURTHER INFORMATION CONTACT:

Jenny Liang, BLM Oregon/Washington State Office, P.O. Box 2965, Portland, Oregon 97208, 503-808-6299.

SUPPLEMENTARY INFORMATION: The above described land was granted by the United States to the Oregon and California Rail Road Company by patent No. 1, dated May 9, 1871, pursuant to the Act of July 25, 1866, and June 25, 1868. The patent contained the statement excluding and accepting from the transfer, all mineral lands should any such be found to exist, but this exception and exclusion according to the terms of the statute shall not be construed to include coal and iron lands. The Bureau of Land Management (BLM) will determine if the United States has any claim to the minerals in the land described above; whereby, issuance of the proposed recordable disclaimer of interest would remove a cloud on the title to the land. For a period of 90 days from the date of publication of this notice, all persons who wish to present comments, suggestions, or objections in connection with the proposed disclaimer may do so by writing to the Chief, Branch of Realty and Records Services, BLM Oregon State Office, P.O. Box 2965, Portland, Oregon 97208. If no objections are received, the disclaimer will be published shortly after the 90 days has lapsed.

Robert D. DeViney, Jr.,

Chief, Branch of Realty and Records Services.
