

terminated by either party in accordance with regulations. In the event of termination of this agreement, payment will not be available for the ASC's services furnished to Medicare beneficiaries on or after the effective date of termination.

The CMS-377 form is used by ASCs to initiate both the initial and renewal survey by the State Survey Agency, which provides the certification required for an ASC to participate in the Medicare program. An ASC must complete the CMS-377 form and send it to the appropriate State Survey Agency prior to their scheduled accreditation renewal date. The CMS-377 form provides the State Survey Agency with information about the ASC facility's characteristics, such as, determining the size and the composition of the survey team on the basis of the number of ORs/procedure rooms and the types of surgical procedures performed in the ASC. *Form Numbers:* CMS-370 and CMS-377 (OMB control number: 0938-0266); *Frequency:* Occasionally; *Affected Public:* Private Sector—Business or other for-profit and Not-for-profit institutions; *Number of Respondents:* 1,567; *Total Annual Responses:* 1,567; *Total Annual Hours:* 1,012. (For policy questions regarding this collection contact Caroline Gallaher at 410-786-8705.)

5. Type of Information Collection
Request: Revision of a currently approved collection; *Title of Information Collection:* Home Health Agency Survey and Deficiencies Report; *Use:* In order to participate in the Medicare Program as a Home Health Agency (HHA) provider, the HHA must meet federal standards. This form is used to record information and patients' health and provider compliance with requirements and to report the information to the federal government. *Form Number:* CMS-1572 (OMB control number: 0938-0355); *Frequency:* Yearly; *Affected Public:* State, Local or Tribal Government; *Number of Respondents:* 3,833; *Total Annual Responses:* 3,833; *Total Annual Hours:* 1,917. (For policy questions regarding this collection contact Tara Lemons at 410-786-3030.)

6. Type of Information Collection
Request: Extension of a currently approved collection; *Title of Information Collection:* Disclosure Requirement for the In-Office Ancillary Services Exception; *Use:* Section 6003 of the Affordable Care Act (ACA) established a new disclosure requirement that a physician must perform for certain imaging services to meet the in-office ancillary services exception to the prohibition of the physician self-referral law. This section

of the ACA amended section 1877(b)(2) of the Act by adding a requirement that the referring physician informs the patient, at the time of the referral and in writing, that the patient may receive the imaging service from another supplier.

Physicians who provide certain imaging services (MRI, CT, and PET) under the in-office ancillary services exception to the physician self-referral prohibition are required to provide the disclosure notice as well as the list of other imaging suppliers to the patient. The patient will then be able to use the disclosure notice and list of suppliers in making an informed decision about his or her course of care for the imaging service.

CMS would use the collected information for enforcement purposes. Specifically, if we were investigating the referrals of a physician providing advanced imaging services under the in-office ancillary services exception, we would review the written disclosure in order to determine if it satisfied the requirement. *Form Number:* CMS-10332 (OMB control number: 0938-1133); *Frequency:* Occasionally; *Affected Public:* Private Sector, Business or other for-profits, Not-for-profits institutions; *Number of Respondents:* 2,239; *Total Annual Responses:* 989,971; *Total Annual Hours:* 18,694. (For questions regarding this collection contact Laura Dash at 410-786-8623.)
