BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority, Comments Requested

March 21, 2011.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, 44 U.S.C. 3501-3520. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology, and (e) ways to further reduce the information collection burden for small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a currently valid OMB control number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before May 24, 2011. If you anticipate that you will be submitting PRA comments, but find it

difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to the Office of Management and Budget, via fax at 202-395-5167 or via the Internet at *Nicholas_A_Fraser@omb.eop.gov* and to the Federal Communications Commission via e-mail to *PRA@fcc.gov*.

FOR FURTHER INFORMATION CONTACT: Judith B. Herman, Office of Managing Director, (202) 418-0214. For additional information, contact Judith B. Herman, OMD, 202-418-0214 or e-mail *judith-b.herman@fcc.gov*.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0526.

Title: Section 69.123, Density Pricing Zone Plans, Expanded Interconnection with Local Telephone Company Facilities.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and

Responses: 17 respondents; 17 responses.

Estimated Time per Response: 48 hours.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. sections 151, 154(i), 154(j), 201-205, 303(r), and 403.

Total Annual Burden: 816 hours.

Total Annual Cost: \$13,855.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: No information of a confidential nature is being sought. However, respondents may request materials or information submitted to the Commission be withheld from public inspection under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission will submit this expiring information collection to the Office of Management and Budget (OMB) after this comment period to obtain the three year clearance from them. There is no change in the Commission's estimated number of respondents, responses and burden hours. However, there is a \$680 increase in annual cost which is due to an increase in the filing fee of \$815.

The Commission requires Tier 1 local exchange carriers (LECs) to provide expanded opportunities for third party interconnection with their interstate special access facilities. The LECs are permitted to establish a number of rate zones within study areas in which

expanded interconnection are operational. In a previous rulemaking, *Fifth Report and Order*, CC Docket No. 96-262, the Commission allowed price cap LECs to define the scope and number of zones within a study area. These LECs must file and obtain approval of their pricing plans which will be used by FCC staff to ensure that the rates are just, reasonable and nondiscriminatory.

Federal Communications Commission.

Marlene H. Dortch,

Secretary, Office of the Secretary, Office of Managing Director.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Submitted for Review and Approval to the Office of Management and Budget (OMB), Comments Requested

March 16, 2011.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, 44 U.S.C. 3501-3520. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and (e) ways to further reduce the information collection burden for small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a currently valid OMB control number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before April 25, 2011.

If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, Office of Management and Budget, via fax at 202-395-5167 or via the Internet at Nicholas_A_Fraser@omb.eop.gov and to the Federal Communications Commission via e-mail to PRA@fcc.gov. To view a copy of this information collection request (ICR) submitted to OMB: (1) Go to the Web page <http://reginfo.gov/public/do/PRAMain>, (2) look for the section of the Web page called "Currently Under Review", (3) click on the downward-pointing arrow in the "Select Agency" box below the "Currently Under Review" heading, (4) select "Federal Communications Commission" from the list of agencies presented in the "Select Agency" box, (5) click the "Submit" button to the right of the "Select Agency" box, and (6) when the list of FCC ICRs currently under review appears, look for the title of this ICR (or its OMB Control Number, if there is one) and then click on the ICR Reference Number to view detailed information about this ICR.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Cathy Williams on (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0433.

Title: Basic Signal Leakage Performance Report.

Form Number: FCC Form 320.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 5,920 respondents and 5,920 responses.

Frequency of Response: Recordkeeping requirement, Annual reporting requirement.

Estimated Time per Hours: 20 hours.

Total Annual Burden: 118,400 hours.

Total Annual Cost: None.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in Sections 4(i), 302 and 303 of the Communications Act of 1934, as amended.

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Privacy Impact Assessment(s): No impact(s).

Needs and Uses: Cable television system operators and Multichannel

Video Programming Distributors (MPVDs) who use frequencies in the bands 108-137 and 225-400 MHz (aeronautical frequencies) are required to file a Cumulative Signal Leakage Index (CLI) derived under 47 CFR 76.611(a)(1) or the results of airspace measurements derived under 47 CFR 76.611(a)(2). This filing must include a description of the method by which compliance with basic signal leakage criteria is achieved and the method of calibrating the measurement equipment. This yearly filing of FCC Form 320 is done in accordance with 47 CFR 76.1803.

OMB Control Number: 3060-0289.

Title: Section 76.76.601(a)

Performance Tests, Section 76.1704(a)(b) Proof of Performance Test Data, Section 76.1705 Performance Tests (Channels Delivered) and Section 76.1717, Compliance with Technical Standards.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities and State, local or tribal government.

Number of Respondents and Responses: 8,250 respondents; 12,185 responses.

Estimated Time per Response: 0.5-70 hours.

Frequency of Response: Record keeping requirement, Semi-annual and Triennial reporting requirements; Third party disclosure requirement.

Total Annual Burden: 276,125 hours.

Total Annual Costs: None.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection of information is contained in Sections 4(i) and 624(e) of the Communications Act of 1934, as amended.

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Privacy Impact Assessment: No impact(s).

Needs and Uses: 47 CFR 76.601(b) requires the operator of each cable television system shall conduct complete performance tests of that system at least twice each calendar year (at intervals not to exceed seven months), unless otherwise noted below. The performance tests shall be directed at determining the extent to which the system complies with all the technical standards set forth in § 76.605(a) and shall be as follows:

(1) For cable television systems with 1,000 or more subscribers but with 12,500 or fewer subscribers, proof-of-performance tests conducted pursuant

to this section shall include measurements taken at six (6) widely separated points. However, within each cable system, one additional test point shall be added for every additional 12,500 subscribers or fraction thereof (e.g., 7 test points if 12,501 to 25,000 subscribers; 8 test points if 25,001 to 37,500 subscribers, etc.). In addition, for technically integrated portions of cable systems that are not mechanically continuous (i.e., employing microwave connections), at least one test point will be required for each portion of the cable system served by a technically integrated microwave hub. The proof-of-performance test points chosen shall be balanced to represent all geographic areas served by the cable system. At least one-third of the test points shall be representative of subscriber terminals most distant from the system input and from each microwave receiver (if microwave transmissions are employed), in terms of cable length. The measurements may be taken at convenient monitoring points in the cable network: provided, that data shall be included to relate the measured performance of the system as would be viewed from a nearby subscriber terminal. An identification of the instruments, including the makes, model numbers, and the most recent date of calibration, a description of the procedures utilized, and a statement of the qualifications of the person performing the tests shall also be included.

(2) Proof-of-performance tests to determine the extent to which a cable television system complies with the standards set forth in § 76.605(a) (3), (4), and (5) shall be made on each of the NTSC or similar video channels of that system. Unless otherwise as noted, proof-of-performance tests for all other standards in § 76.605(a) shall be made on a minimum of four (4) channels plus one additional channel for every 100 MHz, or fraction thereof, of cable distribution system upper frequency limit (e.g., 5 channels for cable television systems with a cable distribution system upper frequency limit of 101 to 216 MHz; 6 channels for cable television systems with a cable distribution system upper frequency limit of 217-300 MHz; 7 channels for cable television systems with a cable distribution upper frequency limit of 300 to 400 MHz, etc.). The channels selected for testing must be representative of all the channels within the cable television system.

(3) The operator of each cable television system shall conduct semi-annual proof-of-performance tests of that system, to determine the extent to

which the system complies with the technical standards set forth in § 76.605(a)(4) as follows. The visual signal level on each channel shall be measured and recorded, along with the date and time of the measurement, once every six hours (at intervals of not less than five hours or no more than seven hours after the previous measurement), to include the warmest and the coldest times, during a 24-hour period in January or February and in July or August.

(4) The operator of each cable television system shall conduct triennial proof-of-performance tests of its system to determine the extent to which the system complies with the technical standards set forth in § 76.605(a)(11).

47 CFR 76.601 the local franchising authority shall notify the cable operator, who will then be allowed thirty days to come into compliance with any perceived signal quality problems which need to be corrected.

47 CFR 76.1704 requires that proof-of-performance tests required by 47 CFR 76.601 shall be maintained on file at the operator's local business office for at least five years. The test data shall be made available for inspection by the Commission or the local franchiser, upon request. If a signal leakage log is being used to meet proof-of-performance test recordkeeping requirements in accordance with Section 76.601, such a log must be retained for the period specified in 47 CFR 76.601(d).

OMB Control Number: 3060-0920.

Title: Application for Construction Permit for a Low Power FM Broadcast Station; Report and Order in MM Docket No. 99-25 Creation of Low Power Radio Service; Sections 73.807, 73.809, 73.865, 73.870, 73.871, 73.872, 73.877, 73.878, 73.318, 73.1030, 73.1207, 73.1212, 73.1230, 73.1300, 73.1350, 73.1610, 73.1620, 73.1750, 73.1943, 73.3525, 73.3550, 73.3598, 11.61(ii), FCC Form 318.

Form Number: FCC Form 318.

Type of Review: Extension of a currently approved collection.

Respondents: Not-for-profit institutions; State, local or tribal government.

Number of Respondents and Responses: 16,659 respondents, 23,377 responses.

Frequency of Response: Recordkeeping requirement; On occasion reporting requirement; Third party disclosure requirement.

Obligation to Respond: Required to obtain benefits. The statutory authority for this collection of information is contained in Sections 154(i), 303, 308 and 325(a) of the Communications Act of 1934, as amended.

Estimated Time per Response: 0.0025 minutes-12 hours.

Total Annual Burden: 34,396 hours.

Total Annual Costs: \$23,850.

Nature and Extent of Confidentiality: Confidentiality is not required for this collection of information.

Privacy Impact Assessment: No impact(s).

Needs and Uses: This information collection accounts for the following requirements:

47 CFR 73.807 sets forth minimum distance separation requirements for LPFM stations. The Third Report and Order allows LPFM stations to file second-adjacent channel waiver requests of this Rule by filing a Form 318 if it is at risk of displacement by an encroaching full-service station application.

47 CFR 73.809(b) states that an LPFM station will be provided an opportunity to demonstrate in connection with the processing of the commercial or NCE FM application that interference as described in paragraph (a) of this section is unlikely. If the LPFM station fails to so demonstrate, it will be required to cease operations upon the commencement of program tests by the commercial or NCE FM station.

47 CFR 809(c) states complaints of actual interference by an LPFM station subject to paragraphs (a) and (b) of this section must be served on the LPFM licensee and the Federal Communications Commission, attention Audio Services Division. The LPFM station must suspend operations within twenty-four hours of the receipt of such complaint unless the interference has been resolved to the satisfaction of the complainant on the basis of suitable techniques. An LPFM station may only resume operations at the direction of the Federal Communications Commission. If the Commission determines that the complainant has refused to permit the LPFM station to apply remedial techniques that demonstrably will eliminate the interference without impairment of the original reception, the licensee of the LPFM station is absolved of further responsibility for the complaint.

47 CFR 73.809(e) states that in each instance where suspension of operation is required, the licensee shall submit a full report to the FCC in Washington, DC, after operation is resumed, containing details of the nature of the interference, the source of the interfering signals, and the remedial steps taken to eliminate the interference.

47 CFR 73.865 allows a change in the name of an LPFM licensee where no change in ownership or control is involved to be accomplished by a

written notification by the licensee to the Commission. This section also prohibits assignment of an LPFM authorization or transfer of control of an LPFM permittee or licensee if (a) consideration exceeds the depreciated fair market value of the physical equipment and facilities, and/or (b) the transferee or assignee is incapable of satisfying all eligibility criteria that apply to a LPFM licensee. Transfers of control involving a sudden change of more than 50 percent of an LPFM's governing board shall not be deemed a substantial change in ownership or control, subject to the filing of an FCC Form 316.

47 CFR 73.870 and 73.871 allow licensees and permittees to file minor change applications and minor amendments to pending FCC Form 318 applications by requesting authority for transmitter site relocation of up to 5.6 kilometers for LP100 facilities and up to 3.2 kilometers for LP10 facilities. The Third Report and Order amended these Rules to also allow LPFM applicants with mutually exclusive applications to file minor amendments and minor changes that reflect changes to time-sharing agreements, including universal agreements that supersede involuntary arrangements.

47 CFR 73.870 and 73.871 allow voluntary time-share applicants to relocate an LPFM transmitter to a central location by filing amendments to their pending FCC Form 318 applications.

47 CFR 73.870(d) state petitions to deny such mutually exclusive LPFM applications may be filed within 30 days of such public notice and in accordance with the procedures set forth at § 73.3584. A copy of any petition to deny must be served on the applicant.

47 CFR 73.872(c) states if mutually exclusive applications have the same point total, any two or more of the tied applicants may propose to share use of the frequency by submitting, within 90 days of the release of a public notice announcing the tie, a time-share proposal. Such proposals shall be treated as minor amendments to the time-share proponents' applications, and shall become part of the terms of the station authorization. Where such proposals include all of the tied applications, all of the tied applications will be treated as tentative selectees; otherwise, time-share proponents points will be aggregated to determine the tentative selectees.

(1) Time-share proposals shall be in writing and signed by each time-share proponent, and shall satisfy the following requirements:

(i) The proposal must specify the proposed hours of operation of each time-share proponent;

(ii) The proposal must not include simultaneous operation of the time-share proponents; and

(iii) Each time-share proponent must propose to operate for at least 10 hours per week.

(2) Where a station is authorized pursuant to a time-sharing proposal, a change of the regular schedule set forth therein will be permitted only where a written agreement signed by each time-sharing permittee or licensee and complying with requirements in paragraphs (c)(1)(i) through (iii) of this section is filed with the Commission, Attention: Audio Division, Media Bureau, prior to the date of the change.

47 CFR 73.872(d)(1) states if a tie among mutually exclusive applications is not resolved through voluntary time-sharing in accordance with paragraph (c) of this section, the tied applications will be reviewed for acceptability and applicants with tied, grantable applications will be eligible for equal, successive, non-renewable license terms of no less than one year each for a total combined term of eight years, in accordance with § 73.873. Eligible applications will be granted simultaneously, and the sequence of the applicants' license terms will be determined by the sequence in which they file applications for licenses to cover their construction permits based on the day of filing, except that eligible applicants proposing same-site facilities will be required, within 30 days of written notification by the Commission staff, to submit a written settlement agreement as to construction and license term sequence. Failure to submit such an agreement will result in the dismissal of the applications proposing same-site facilities and the grant of the remaining, eligible applications.

47 CFR 73.872(d)(2) states groups of more than eight tied, grantable applications will not be eligible for successive license terms under this section. Where such groups exist, the staff will dismiss all but the applications of the eight entities with the longest established community presences, as provided in paragraph (b)(1) of this section. If more than eight tied, grantable applications remain, the applicants must submit, within 30 days of written notification by the Commission staff, a written settlement agreement limiting the group to eight. Failure to do so will result in dismissal of the entire application group.

47 CFR 73.877 requires each LPFM station to maintain a station log. Each log entry must include the time and date

of observation and the name of the person making the entry. This log must contain entries of the information specified in this section.

47 CFR 73.878 requires licensees to make available to FCC representatives during regular business hours, the station records and logs. Upon request of the FCC, the licensee must mail (by either registered mail, return receipt requested, or certified mail, return receipt requested) the station records and logs. The licensee must retain the return receipt until such records are returned to the licensee.

Unattended operation. The Report and Order requires that LPFM stations that will operate unattended will be required to advise the Commission by letter of the unattended operation and provide an address and telephone number where a responsible party can be reached during such times.

47 CFR 73.318 requires LPFM stations to resolve all complaints received on blanketing interference occurring within the immediate vicinity of the antenna site for one year after commence of transmissions with new or modified facilities. Licensee shall provide technical information, notifications or assistance to complainants on remedies for blanketing interference.

47 CFR 73.1030 requires LPFM stations to coordinate, notify, and provide protection to the radio quiet zones at Green, West Virginia and at Boulder, Colorado. In addition, LPFM applicants in Puerto Rico will need to coordinate and notify Cornell University regarding the radio coordination zone on that island. This requirement is necessary to ensure that research work at these installations will not be disrupted.

47 CFR 73.1207 requires that licensees of broadcast stations obtain written permission from an originating station prior to retransmitting any program or any part thereof. A copy of the written consent must be kept in the station's files and made available to the FCC upon request. 47 CFR 73.1207 also requires stations that use the National Bureau of Standards ("NBS") time signals to notify the NBS semiannually of use of time signals.

47 CFR 73.1212 requires a broadcast station to identify the sponsor of any matter for which consideration is provided. For matter advertising commercial products or services, generally the mention of the name of the product or service constitutes sponsorship identification. In addition, when an entity rather than an individual sponsors the broadcast of matter that is of a political or controversial nature, licensee is

required to retain a list of the executive officers, or board of directors, or executive committee, *etc.*, of the organization paying for such matter. Sponsorship announcements are waived with respect to the broadcast of "want ads" sponsored by an individual but the licensee shall maintain a list showing the name, address and telephone number of each such advertiser. These lists shall be made available for public inspection.

47 CFR 73.1230 requires that the station license and any other instrument of station authorization be posted in a conspicuous place at the place the licensee considers to be the principal control point of the transmitter. 47 CFR 73.1300 allows broadcast stations to be operated either attended or unattended. Regardless of which method is employed, licensees must employ written procedures and have them in the station's files to ensure compliance with the rules governing the Emergency Alert System.

47 CFR 73.1350 requires licensees of LPFM broadcast stations operating by remote control points at places other than the main studio or transmitter site locations to send written notifications containing the remote locations to the FCC within three days after commencing remote control operations from such points.

47 CFR 73.1610 requires the permittee of a new broadcast station to notify the FCC of its plans to conduct equipment tests for the purpose of making adjustments and measurements as may be necessary to assure compliance with the terms of the construction permit and applicable engineering standards.

47 CFR 73.1620 requires that upon completion of construction of a LPFM station, the licensee may begin program tests upon notification to the Commission.

47 CFR 73.1750 requires a broadcast licensee to notify the FCC of permanent discontinuance of operation and to forward the station license and other instruments of authorization immediately after discontinuance of operation.

47 CFR 73.1943 requires licensees of broadcast stations to keep and permit public inspection of a complete record of all requests for broadcast time, together with an appropriate notation showing the disposition made by the licensee of such request.

47 CFR 73.3525 requires applicants for a construction permit for a broadcast station to obtain approval from the FCC to withdraw, dismiss or amend its application pursuant to a settlement agreement when that application is in conflict with another application

pending before the FCC. This request for approval to withdraw, dismiss or amend an application should contain a copy of the agreement and an affidavit of each party to the agreement. In the event that the proposed withdrawal of a conflicting application would unduly impede achievement of a fair, efficient and equitable distribution of radio service, the FCC must issue an order providing further opportunity to apply for the facilities specified in the application(s) withdrawn.

47 CFR 73.3550 requests for call sign assignment for a LPFM station must be made using the Commission's electronic call sign system.

47 CFR 73.3598 allows an LPFM permittee unable to complete construction within the timeframe specified in the original construction permit may apply for an eighteen month extension upon a showing of good cause.

47 CFR 11.61(ii) states DBS providers, analog and digital class D non-commercial educational FM stations, and analog and digital LPTV stations are required to log the receipt of emergency alert system transmissions.

This submission also contains FCC Form 318, Application for Construction Permit for a Low Power FM Broadcast Station and its accompanying instructions and worksheets.

BILLING CODE 6712-01-P

FEDERAL RESERVE SYSTEM

Change in Bank Control Notices; Acquisitions of Shares of a Bank or Bank Holding Company

The notificants listed below have applied under the Change in Bank Control Act (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire shares of a bank or bank holding company. The factors that are considered in acting on the notices are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The notices are available for immediate inspection at the Federal Reserve Bank indicated. The notices also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank indicated for that notice or to the offices of the Board of Governors. Comments must be received not later than April 11, 2011.

A. Federal Reserve Bank of Minneapolis (Jacqueline G. King, Community Affairs Officer) 90 Hennepin Avenue, Minneapolis, Minnesota 55480-0291:

1. *Gerald John Baack, individually, and in concert with Sherri Lynn Baack*, both of Apple Valley, Minnesota; to acquire voting shares of Bridgewater Bancshares, Inc., and thereby indirectly acquire voting shares of Bridgewater Bank, both of Bloomington, Minnesota.

2. *Najib G. Schlosstein*, Arcadia, Wisconsin; to acquire voting shares of GEBSCO, and thereby indirectly acquire voting shares of Alliance Bank, both of Mondovi, Wisconsin.

In connection with the above application, Castlerock Museum, Inc., Alma, Wisconsin, as a member of the Schlosstein Family Group, has applied to retain voting shares of GEBSCO, and thereby indirectly retain voting shares of Alliance Bank, both of Mondovi, Wisconsin.

B. Federal Reserve Bank of Kansas City (Dennis Denney, Assistant Vice President) 1 Memorial Drive, Kansas City, Missouri 64198-0001:

1. *James E. Landen*, as trustee of the Mary M. Huerter Irrevocable Trust; the Megan L. Huerter Irrevocable Trust; The James V. Huerter III Irrevocable Trust; The Rebecca F. Huerter Irrevocable Trust; The Thomas L. Huerter Irrevocable Trust; The Mary C. Landen Irrevocable Trust; The Clarence L. Landen IV Irrevocable Trust; The Kelly A. Landen Irrevocable Trust; The Elizabeth L. Kerr Irrevocable Trust; The Jordan M. Kerr Irrevocable Trust; and The J. Michael Kerr Jr. Irrevocable Trust, all of Omaha, Nebraska; to retain voting shares of Security National Corporation, and thereby indirectly retain voting shares of Security National Bank of Omaha, both of Omaha, Nebraska.

Board of Governors of the Federal Reserve System, March 22, 2011.

Robert deV. Frierson,

Deputy Secretary of the Board.

BILLING CODE 6210-01-P

FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or

the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than April 21, 2011.

A. Federal Reserve Bank of Richmond (A. Linwood Gill, III, Vice President) 701 East Byrd Street, Richmond, Virginia 23261-4528:
