#### **Public Meeting To Discuss the International Harmonization of Chemical Hazard Classification and Labeling Systems**

**SUMMARY:** The United States Government, through an interagency working group, has been participating in the international effort to develop a globally harmonized system (GHS) of chemical hazard classification and labeling. The Department of State will hold a public meeting for interested parties, including industry representatives and public interest groups, on Wednesday, November 28, 2001, from 11:30 AM to 1 PM in Room 6200-6204 of the Nassif Building, at the U.S. Department of Transportation, 400 Seventh Street SW, Washington, DC. Attendees should bring picture identification with them; no advance registration is necessary. #### **SUPPLEMENTARY INFORMATION:**

The globally harmonized system for chemical hazard classification and labeling (GHS) is a voluntary system that provides a common and coherent approach to define and classify hazards, and communicate this information on labels and safety data sheets. The GHS will promote the sound management of chemicals by ensuring that coherent information is provided on all imported and exported chemicals, and facilitate trade by eliminating the need to comply with multiple classification and labeling systems.

The public meeting will provide an update on GHS activities since the previous meeting on May 8, 2001. (See Department of State Public Notice 3651 on page 21430 of the **Federal Register** of April 30, 2001.) The meeting will also preview the key topics of the Second Session of the United Nations Subcommittee of Experts on the Globally Harmonized System of Classification and Labeling of Chemicals, that will take place in Geneva, December 12-14, 2001.

Agencies participating in the interagency group include the Department of State, Occupational Safety and Health Administration,
