SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Safety Standard for Multi-Purpose Lighters.

OMB Number: 3041–0130.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers and importers of multi-purpose lighters.

Estimated Number of Respondents: Based on five years of CPSC data, there are an estimated 47 firms that import, distribute, or sell multi-purpose lighters in the United States. Based on past experience, CPSC expects that firms will conduct recordkeeping and reporting activities for an average of two multi-purpose lighter models each year.

Estimated Time per Response: The costs associated with the rule include reporting, recordkeeping, and other certification-related activities. CPSC estimates that the burden per model is: 10 hours to generate test data, record it, and enter the data into a computerized dataset; five hours for annual review and removal of records; and five hours for responding to CPSC records requests—for a total of 20 hours per model.

Total Estimated Annual Burden: CPSC estimates that 47 firms will each conduct recordkeeping and reporting activities for an average of two models per year, and that a total of 20 hours will be required per model. As a result, CPSC estimates that the total annual burden of this collection is 1,880 hours. The annualized cost to respondents for the information collection is \$63,318.40 (1,880 hours × \$33.68/hour), as estimated from total compensation data available from the U.S. Bureau of Labor Statistics.¹

General Description of Collection: The Commission's safety standard for multi-purpose lighters (16 CFR part 1212) and section 14(a)(1) of the Consumer Product Safety Act require that manufacturers, including importers, of multi-purpose lighters issue certificates of compliance based on a reasonable testing program. The standard also requires manufacturers and importers to establish and maintain records to demonstrate successful completion of all required tests to support the certificates of compliance that they issue. Respondents must comply with these testing, certification, and

recordkeeping requirements for multi-purpose lighters.

Secretary, Consumer Product Safety Commission.
