

and other exchanges will be able to modify such incentives in order to compete with the Exchange.

With respect to the specific pricing resulting in the neutral net capture, the Exchange also notes that the proposed fee to remove liquidity is neither the lowest fee in the market today²⁹ nor is the proposed rebate provided to adding liquidity the highest rebate in the market today.³⁰ Accordingly, with respect to a participant deciding to either submit an order to add liquidity or seeking to remove liquidity, there are multiple exchanges that will continue to be competitively priced for such orders when compared to the Exchange's pricing. Further, while pricing incentives do cause shifts of liquidity between trading centers, market participants make determinations on where to provide liquidity or route orders to take liquidity based on factors other than pricing, including technology, functionality, and other considerations. Consequently, the Exchange believes that the degree to which its fees and rebates could impose any burden on competition is extremely limited, and does not believe that such fees would burden competition of Equity Members or competing venues in a manner that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe that the proposed rule change will impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act because the proposed fees and rebates apply equally to all Equity Members. The proposed pricing structure is intended to encourage market participants to add liquidity to the Exchange by providing rebates that are comparable to those offered by other exchanges as well as to provide a competitive rate charged for removing liquidity, which the Exchange believes will help to encourage Equity Members to send orders to the Exchange to the benefit of all Exchange participants. As the proposed rates are equally applicable to all market participants, the Exchange does not

believe there is any burden on intramarket competition.

October 7, 2020.

I. Introduction

On June 23, 2020, Cboe BZX Exchange, Inc. ("Exchange" or "BZX") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to list and trade shares ("Shares") of the 2x Long VIX Futures ETF ("Fund"), a Series of VS Trust

²⁹ For example, the Investors Exchange fee schedule on its public website reflects standard fees for matched liquidity of \$0.0009 for shares executed at or above \$1.00, which would apply to all orders removing liquidity; see <https://iextrading.com/trading/fees/>. (“Trust”). On June 26, 2020, the Exchange filed Amendment No. 1 to the proposed rule change. The proposed rule change, as modified by Amendment No. 1, was published for comment in the **Federal Register** on July 10, 2020.³ On August 13, 2020, pursuant to Section 19(b)(2) of the Act,⁴ the Commission designated a longer period within which to approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether to disapprove the proposed rule change.⁵ This order institutes proceedings pursuant to Section 19(b)(2)(B) of the Act⁶ to determine whether to approve or disapprove the proposed rule change, as modified by Amendment No. 1.

II. Description of and Comment on the Proposal⁷

A. Description of the Proposal

The Exchange proposes to list and trade the Shares pursuant to BZX Rule 14.11(f)(4), which governs the listing and trading of Trust Issued Receipts on the Exchange.

Volatility Shares LLC (“Sponsor”), a Delaware limited liability company, is the sponsor of the Trust.⁸ The Sponsor is a commodity pool operator.⁹ Tidal ETF Services LLC serves as the administrator, and U.S. Bank National Association serves as custodian of the Fund and its Shares. U.S. Bancorp Fund Services, LLC is the sub-administrator and transfer agent. Wilmington Trust

Company, a Delaware trust company, is the sole trustee of the Trust.

The Fund will seek to provide a return that is 200% of the return of its benchmark index for a single day. Therefore, if the Fund is successful in meeting its objective, its value (before fees and expenses) on a given day should gain approximately 200% of the return of its benchmark index for a single day; conversely, its value (before fees and expenses) should lose approximately 200% of the return of its benchmark index for a single day when it declines.

The benchmark index seeks to offer long exposure to market volatility through publicly traded futures markets. The benchmark for the Fund is the Long VIX Futures Index (“Index”), ticker symbol LONGVOL,¹⁰ which measures the daily performance of a theoretical portfolio of first- and second-month futures contracts on the Cboe Volatility Index (“VIX”).¹¹ The Index is comprised of, and the value of the Fund will be based on, VIX futures contracts traded on the Cboe Futures Exchange, Inc. (“VIX Futures Contracts”).¹²

The Fund would primarily invest in VIX Futures Contracts based on components of the Index to pursue its investment objective. In the event accountability rules, price limits, position limits, margin limits or other exposure limits are reached with respect to VIX Futures Contracts, the Sponsor might cause the Fund to obtain exposure to the Index through over-the-counter swaps referencing the Index or particular VIX Futures Contracts comprising the Index (“VIX Swap Agreements”).¹³ The VIX Swap

Agreements in which the Fund may invest may be cleared or non-cleared.

In addition to VIX Swap Agreements, if the Fund is unable to meet its investment objective through investments in VIX Futures Contracts, the Fund may also obtain exposure to the Index through listed VIX options contracts traded on the Cboe Exchange, Inc. (“VIX Options Contracts”).

The Fund may also invest in Cash and Cash Equivalents that may serve as collateral for the VIX Futures Contracts, VIX Swap Agreements, and VIX Options Contracts (collectively, the “VIX Derivative Products”).¹⁴

The Fund would seek to remain fully invested at all times in VIX Derivative Products (as well as the Cash and Cash Equivalents that may serve as collateral) that provide exposure to the Index consistent with its investment objective without regard to market conditions, trends or direction. The Sponsor would rely upon a pre-determined model to reposition the Fund’s investments in accordance with its investment objective.

B. Comment on the Proposal

A commenter opposes the proposed rule change and states that 2x long volatility is not a profitable investment during bull markets. The commenter points to the predominantly negative annual returns of another exchange-traded product linked to long volatility, which the commenter characterizes as the predecessor to the Fund. The commenter also asserts that 2x long volatility does not make sense as a product, as volatility is already volatile.¹⁵

III. Proceedings To Determine Whether To Approve or Disapprove SR–CboeBZX–2020–053, as Modified by Amendment No. 1, and Grounds for Disapproval Under Consideration

The Commission is instituting proceedings pursuant to Section 19(b)(2)(B) of the Act¹⁶ to determine whether the proposed rule change, as modified by Amendment No. 1, should be approved or disapproved. Institution of such proceedings is appropriate at this time in view of the legal and policy

disaster, terrorist attack or an act of God) or disruptions (e.g., a trading halt or a flash crash) or in situations where the Sponsor deems it impractical or inadvisable to buy or sell VIX Futures Contracts (such as during periods of market volatility or illiquidity).

¹⁴ “Cash and Cash Equivalents” means the instruments defined in BZX Rule 14.11(i)(4)(C)(iii).

⁵ See Securities Exchange Act Release No. 89545, 85 FR 51124 (August 19, 2020). The Commission designated October 8, 2020 as the date by which the Commission shall approve or disapprove, or institute proceedings to determine whether to disapprove, the proposed rule change.

⁶ 15 U.S.C. 78s(b)(2)(B).

⁷ Additional information regarding the Fund, the Trust, and the Shares can be found in the Notice, *supra* note 3.

⁸ The Sponsor is not a broker-dealer or affiliated with a broker-dealer. In the event that (a) the Sponsor becomes a broker-dealer or newly affiliated with a broker-dealer, or (b) any new sponsor is a broker-dealer or becomes affiliated with a broker-dealer, it will implement and maintain a fire wall with respect to its relevant personnel or such broker-dealer affiliate, as applicable, regarding access to information concerning the composition and/or changes to the portfolio, and will be subject to procedures designed to prevent the use and dissemination of material non-public information regarding the portfolio.

⁹ The Exchange represents that the Fund will file a registration statement on Form S-1 under the Securities Act of 1933, and that the Shares will not be listed on the Exchange until there is an effective registration statement for the Shares.

¹⁰ The Index is sponsored by Cboe Global Indexes (“Index Sponsor”). The Index Sponsor is not a registered broker-dealer, but is affiliated with a broker-dealer. The Index Sponsor has implemented and will maintain a fire wall with respect to the broker-dealer affiliate regarding access to information concerning the composition and/or changes to the Index. In addition, the Index Sponsor has implemented and will maintain procedures that are designed to prevent the use and dissemination of material, non-public information regarding the Index.

¹¹ The VIX is an index designed to measure the implied volatility of the S&P 500 over 30 days in the future. The VIX is calculated based on the prices of certain put and call options on the S&P 500. The VIX is reflective of the premium paid by investors for certain options linked to the level of the S&P 500.

¹² VIX Futures Contracts are measures of the market’s expectation of the level of VIX at certain points in the future. While the VIX represents a measure of the current expected volatility of the S&P 500 over the next 30 days, the prices of VIX Futures Contracts are based on the current expectation of what the expected 30-day volatility will be on the contracts’ expiration date.

¹³ The Fund may also invest in VIX Swap Agreements if the market for a specific VIX Futures Contract experiences emergencies (e.g., natural

issues raised by the proposal. Institution of proceedings does not indicate that the Commission has reached any conclusions with respect to any of the issues involved. Rather, as described below, the Commission seeks and encourages interested persons to provide comments on the proposed rule change.

Pursuant to Section 19(b)(2)(B) of the Act,¹⁷ the Commission is providing notice of the grounds for disapproval under consideration. The Commission is instituting proceedings to allow for additional analysis of the proposal's consistency with Section 6(b)(5) of the Act, which requires, among other things, that the rules of a national securities exchange be "designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade," and "to protect investors and the public interest."¹⁸

IV. Procedure: Request for Written Comments

The Commission requests that interested persons provide written submissions of their views, data, and arguments with respect to the issues identified above, as well as any other concerns they may have with the proposal. In particular, the Commission invites the written views of interested persons concerning whether the proposed rule change, as modified by Amendment No. 1, is consistent with Section 6(b)(5) or any other provision of the Act, or the rules and regulations thereunder. Although there do not appear to be any issues relevant to approval or disapproval that would be facilitated by an oral presentation of views, data, and arguments, the Commission will consider, pursuant to Rule 19b-4, any request for an opportunity to make an oral presentation.¹⁹

Interested persons are invited to submit written data, views, and arguments regarding whether the proposed rule change, as modified by Amendment No. 1, should be approved or disapproved by November 3, 2020. Any person who wishes to file a rebuttal

to any other person's submission must file that rebuttal by November 17, 2020.

The Commission asks that commenters address the sufficiency of the Exchange's statements in support of the proposal, which are set forth in the Notice, in addition to any other comments they may wish to submit about the proposed rule change. In this regard, the Commission seeks commenters' views regarding whether the Exchange's proposal to list and trade the Shares, which seek to provide daily investment results that correspond to 200% of the return of an index designed to measure the daily performance of a theoretical portfolio of first- and second-month VIX Futures Contracts, is adequately designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and to protect investors and the public interest, and is consistent with the maintenance of a fair and orderly market under the Act. The Commission also seeks commenters' views regarding whether the Exchange has adequately described the potential impact of sudden fluctuations in market volatility on the Index and on the Fund's operation and performance for the Commission to make a determination under Section 6(b)(5) of the Act. In particular, the Commission seeks comment regarding the Fund's operation during periods with large percentage increases in volatility, and the potential market impact of the Fund's daily rebalance.
