SUPPLEMENTARY INFORMATION: The applicant, West Butte Wind Power, LLC, has requested a ROW authorization to construct 3.9 miles of road and an adjacent power transmission line on public land. The ROW request is associated with a proposed wind farm development on adjacent private lands which would include up to 52 wind turbines and ancillary facilities. The project is 25 miles southeast of Bend, Oregon, located on the north side of U.S. Highway 20. The purpose of the public scoping process is to determine relevant issues that will influence the scope of the environmental analysis, including alternatives, and guide the process for developing the EIS. The BLM has identified the following preliminary issues: Vegetation, wildlife and wildlife habitat, visual resources, cultural and tribal resources, noise, socioeconomic impacts, and public safety impacts.

The BLM will use and coordinate the NEPA commenting process to satisfy the public involvement process for Section 106 of the National Historic Preservation Act (16 U.S.C. 470f) as provided for in 36 CFR 800.2(d)(3). Native American tribal consultations will be conducted and tribal concerns, including impacts on Indian trust assets, will be given due consideration. Federal, State, and local agencies, along with other stakeholders that may be interested or affected by the BLM's decision on this project, are invited to participate in the scoping process. Federal, State, local agencies, or Tribes, if eligible, may request, or be requested by the BLM, to participate as a cooperating agency.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
