

I. Post-2014 Pool Resources

Western will allocate up to 1 percent of the LAP long-term firm hydroelectric resource available as of October 1, 2014. The amount of the resource that will become available on October 1, 2014, is approximately 6.9 megawatts (MW) for the summer season and 6.1 MW for the winter season, and associated energy. This resource pool will be created by

reducing existing customers' allocations by up to 1 percent.

II. Proposed Power Allocation

In response to the call for applications, Western received seven applications for the Post-2014 LAP Resource Pool. Western determined that one applicant does not meet the Post-2014 LAP Resource Pool General Eligibility Criteria. The resource pool for

capacity and energy will be allocated proportionately by season to the six qualified applicants based on average seasonal loads for the period October 2009 through September 2010. The proposed allocations for the six qualified allottees are shown in the table below and are subject to the minimum (100 kilowatts) and maximum allocation (5,000 kilowatts) criteria.

Allottees	Proposed Post-2014 LAP Resource Pool Power Allocation			
	Summer kilowatt hours	Winter kilowatt hours	Summer kilowatts	Winter kilowatts
City of Jetmore, Kansas	458,186	301,817	280	201
City of Pomona, Kansas	355,544	254,622	217	169
City of Waterville, Kansas	257,578	191,505	157	127
Doniphan Electric Cooperative Association, Inc	859,388	839,671	526	558
Kaw Valley Electric Cooperative, Inc	7,156,517	5,561,057	4,374	3,697
Nemaha-Marshall Electric Cooperative Association, Inc	2,215,224	1,957,478	1,354	1,301
Total Resource Pool	11,302,437	9,106,150	6,908	6,053

By June 1, 2014, each allottee must have firm delivery arrangements in place, to be effective October 1, 2014, unless otherwise agreed to in writing by Western. Western must receive a letter of commitment from each allottee's serving utility or transmission provider by June 1, 2014, confirming that the allottee will be able to receive the benefit of Western's Post-2014 LAP Resource Pool Power Allocation. If Western does not receive the commitment letter by June 1, 2014, unless otherwise agreed in writing by Western, Western will withdraw its offer of an allocation.

Western does not own transmission in Kansas. Final allocation of the Post-2014 LAP Resource Pool is contingent upon Western's contractual arrangements for delivery of Federal power into Kansas.

The proposed allocations shown in the table above are based on the LAP marketable resource currently available. If the LAP marketable resource is adjusted in the future, all allocations may be adjusted accordingly.

III. Review Under the Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1980, 44 U.S.C. 3501–3520, Western received approval from the Office of Management and Budget to collect the Applicant Profile Data under control number 1910–5136, which was used to develop this Proposed Power Allocation.

IV. Review Under the National Environmental Policy Act

In compliance with the National Environmental Policy Act of 1969

(NEPA) (42 U.S.C. 4321, *et seq.*); Council on Environmental Quality Regulations (40 CFR parts 1500–1508); and DOE NEPA Regulations (10 CFR part 1021), Western has determined that this action is categorically excluded from preparing an environmental assessment or an environmental impact statement.
