Bishop Paiute Tribe; Notice of Competing Preliminary Permit Application Accepted for Filing and Soliting Comments and Motions To Intervene

April 21, 2010.

On November 3, 2008, the Bishop Paiute Tribe filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Bishop Paiute Hydroelectric Project to be located on a new penstock between the base of a mine and Morgan Creek in Inyo County, California. The proposed project would be located within the Inyo National Forest on lands of the U.S. Forest Service. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.
