

information is limited to (1) the name, address, taxpayer identification number, and other information necessary to establish the identity of the individual responsible for the claim; (2) the amount, status, and history of the claim; and (3) the program under which the claim arose. The Department may disclose the information specified in this paragraph under 5 U.S.C. 552a(b)(12) and the procedures contained in 31 U.S.C. 3711(e). A consumer reporting agency to which these disclosures may be made is defined at 15 U.S.C. 1681a(f) and 31 U.S.C. 3701(a)(3).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The Department electronically stores origination and disbursement records on hard disk at TSYS in Columbus, Georgia. It stores electronic master promissory notes on hard disk at the Dell Perot Systems Data Center in Plano, Texas. Paper Direct Loan promissory notes are stored in locked vaults in Montgomery, Alabama and at a Federal Records Center near Atlanta, Georgia. Data obtained from the paper promissory notes are stored on hard disks at TSYS in Columbus, Georgia. This data is referred to as metadata and is used by the system to link promissory notes to borrower data. The Department also creates electronic images of the paper promissory notes at the HP facility in Montgomery, AL and stores the images at the HP facility in Plano, Texas.

RETRIEVABILITY:

Records in the system are retrieved by the individual's SSN or name, or by the institution's Office of Postsecondary Education identification number (OPEID).

SAFEGUARDS:

All physical access to the sites of the Department's contractors where this system of records is maintained, is controlled and monitored by security personnel who check each individual entering the buildings for his or her employee or visitor badge.

In accordance with the Department's Administrative Communications System Directive OM: 5-101 entitled "Contractor Employee Personnel Security Screenings," all contract and Department personnel who have facility access and system access must undergo a security clearance investigation. Individuals requiring access to Privacy Act data are required to hold, at a minimum, a moderate-risk security

clearance level. These individuals are required to undergo periodic screening at five-year intervals.

In addition to undergoing security clearances, contract and Department employees are required to complete security awareness training on an annual basis. Annual security awareness training is required to ensure that contract and Department users are appropriately trained in safeguarding Privacy Act data in accordance with OMB Circular No. A-130, Appendix III.

The computer system employed by the Department offers a high degree of resistance to tampering and circumvention. This security system limits data access to Department and contract staff on a "need-to-know" basis and controls individual users' ability to access and alter records within the system. All users of this system of records are given a unique user identification. The Department's Federal Student Aid (FSA) Information Security and Privacy Policy requires the enforcement of a complex password policy. In addition to the enforcement of the complex password policy, users are required to change their password at least every 90 days in accordance with the Department's information technology standards.

Federal Direct Loan Records:

Records are maintained and disposed of in accordance with ED 072 FSA Application, Origination, and Disbursement Records, Item b.2. Records are destroyed 15 years after final repayment or audit, or after relevant data is transferred to an alternate recordkeeping system (i.e., National Student Loan Data System), whichever occurs first.
