SUPPLEMENTARY INFORMATION: Under the
 Virus-Serum-Toxin Act (21 U.S.C. 151
et seq.), a veterinary biological product
 must be shown to be pure, safe, potent,
 and efficacious before a veterinary
 biological product license may be
 issued. A field test is generally
 necessary to satisfy prelicensing
 requirements for veterinary biological
 products. Prior to conducting a field test
 on an unlicensed product, an applicant
 must obtain approval from the Animal
 and Plant Health Inspection Service
 (APHIS), as well as obtain APHIS'
 authorization to ship the product for
 field testing.

To determine whether to authorize
 shipment and grant approval for the
 field testing of the unlicensed product
 referenced in this notice, APHIS
 considers the potential effects of this
 product on the safety of animals, public
 health, and the environment. Using the
 risk analysis and other relevant data,
 APHIS has prepared an environmental
 assessment (EA) concerning the field
 testing of the following unlicensed
 veterinary biological product:

Requester: Merial, Inc.

Product: Canine Lymphoma Vaccine,
 DNA.

Possible Field Test Locations:

Arizona, Florida, Georgia, New York,
 North Carolina, Tennessee, and Texas.

The above-mentioned product is a
 replication-incompetent DNA vaccine
 consisting of a plasmid vector with an
 inserted therapeutic gene. The vaccine

is intended for the therapeutic
 immunization of dogs diagnosed with B-
 cell lymphoma concurrent with or
 following chemotherapy.

The EA has been prepared in
 accordance with: (1) The National
 Environmental Policy Act of 1969
 (NEPA), as amended (42 U.S.C. 4321 *et*
seq.), (2) regulations of the Council on
 Environmental Quality for
 implementing the procedural provisions
 of NEPA (40 CFR parts 1500-1508), (3)
 USDA regulations implementing NEPA
 (7 CFR part 1b), and (4) APHIS' NEPA
 Implementing Procedures (7 CFR part
 372).

Unless substantial issues with adverse
 environmental impacts are raised in
 response to this notice, APHIS intends
 to issue a finding of no significant
 impact (FONSI) based on the EA and
 authorize shipment of the above product
 for the initiation of field tests following
 the close of the comment period for this
 notice.

Because the issues raised by field
 testing and by issuance of a license are
 identical, APHIS has concluded that the
 EA that is generated for field testing
 would also be applicable to the
 proposed licensing action. Provided that
 the field test data support the
 conclusions of the original EA and the
 issuance of a FONSI, APHIS does not
 intend to issue a separate EA and FONSI
 to support the issuance of the product
 license, and would determine that an
 environmental impact statement need
 not be prepared. APHIS intends to issue
 a veterinary biological product license
 for this vaccine following completion of
 the field test provided no adverse
 impacts on the human environment are
 identified and provided the product
 meets all other requirements for
 licensing.

Authority: 21 U.S.C. 151-159.

Done in Washington, DC, this 15th day of
 May 2013.

*Acting Administrator, Animal and Plant
 Health Inspection Service.*

Polyethylene Terephthalate Film, Sheet, and Strip From the United Arab Emirates: Final Results of Antidumping Duty Administrative Review; 2010-2011

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On December 7, 2012, the Department of Commerce (the Department) published the preliminary results of administrative review of the antidumping duty order on polyethylene terephthalate film (PET Film) from the United Arab Emirates.¹ This review covers two producers/exporters of subject merchandise: JBF RAK LLC (JBF) and FLEX Middle East FZE (FLEX). Based on our analysis of the comments received, we have made changes to the preliminary results which are discussed below. The final weighted-average dumping margins are listed below in the section titled "Final Results of Review."

DATES: *Effective Date:* May 21, 2013.

FOR FURTHER INFORMATION CONTACT: Andrew Huston, or Gene Calvert, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of

Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-4261, or (202) 428-3586, respectively.

SUPPLEMENTARY INFORMATION:

Background

Since the preliminary results, the following events have taken place. The Department received timely case briefs from Mitsubishi Polyester Film, Inc., SKC, Inc., and Toray Plastics (America), Inc. (collectively, Petitioners) and JBF on January 14, 2013. Petitioners filed a timely rebuttal brief with the Department on January 22, 2013.

On March 8, 2013, the Department released a post-preliminary analysis memorandum of JBF which addressed Petitioners' targeted dumping allegation.² At that time, we invited interested parties to comment on the Post-Preliminary Analysis.³ JBF submitted comments on the Post-Preliminary Analysis on March 18, 2013, and Petitioners submitted rebuttal comments on March 25, 2013.

Period of Review

The period of review is November 1, 2010, through October 31, 2011.

Scope of the Order

The products covered by the order are all gauges of raw, pre-treated, or primed polyethylene terephthalate film (PET Film), whether extruded or co-extruded. Excluded are metallized films and other finished films that have had at least one of their surfaces modified by the application of a performance-enhancing resinous or inorganic layer more than 0.00001 inches thick. Also excluded is roller transport cleaning film which has at least one of its surfaces modified by application of 0.5 micrometers of SBR latex. Tracing and drafting film is also excluded. PET Film is classifiable under subheading 3920.62.00.90 of the Harmonized Tariff Schedule of the United States (HTSUS). While HTSUS subheadings are provided for convenience and customs purposes, our written description of the scope of the order is dispositive.

Analysis of Comments Received
