BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Office of Commercial Space Transportation; Finding of No Significant Impact

AGENCY: The Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTIONS: Finding of No Significant Impact.

SUMMARY: The Federal Aviation Administration (FAA), in cooperation with the United States Air Force (USAF), prepared an Environmental Assessment (EA) to evaluate Space Florida's proposal to operate a commercial launch site at Launch Complex 46 (LC-46) at Cape Canaveral Air Force Station (CCAFS) in Florida. The EA evaluated the potential environmental impacts associated with the Proposed Action and alternatives regarding the issuance of a Launch Site Operator License to Space Florida for LC-46 at CCAFS. After reviewing and analyzing currently available data and information on existing conditions and project impacts, the FAA has determined that issuing a Launch Site Operator License to Space Florida for the operation of a commercial launch site at LC-46 would not significantly impact the quality of the human environment within the meaning of the National Environmental Policy Act. Therefore, the preparation of an Environmental Impact Statement is not required, and the FAA is issuing a Finding of No Significant Impact. The FAA made this determination in accordance with all applicable environmental laws.

For a Copy of the Environmental Assessment: Visit the following Internet address: http://www.faa.gov/about/office_org/headquarters_offices/ast/licenses_permits/launch_site/environmental/ or contact Ms. Stacey M. Zee, FAA Environmental Specialist, 800 Independence Avenue, SW., Room 331, Washington, DC 20591. You may also send e-mail requests to Stacey.Zee@faa.gov or via telephone to (202) 267-9305.

Purpose and Need: The purpose of the FAA's action in issuing the Launch Site Operator License is to ensure compliance with international obligations of the United States and to protect the public health and safety, safety of property, and national security and foreign policy interest of the United States during commercial launch or reentry activities; to encourage, facilitate, and promote commercial
