

ADDRESSES:

Obtaining Documents: You may obtain copies of the documents online in Docket No. FWS-R4-ES-2021-0049 at <http://www.regulations.gov>.

Submitting Comments: If you wish to submit comments on any of the documents, you may do so in writing by any of the following methods:

- **Online:** <http://www.regulations.gov>. Follow the instructions for submitting comments on Docket No. FWS-R4-ES-2021-0049.

- **U.S. mail:** Public Comments Processing, Attn: Docket No. FWS-R4-ES-2021-0049; U.S. Fish and Wildlife Service, MS: PRB/3W, 5275 Leesburg Pike, Falls Church, VA 22041-3803.

FOR FURTHER INFORMATION CONTACT: Erin M. Gawera, by telephone at 904-731-3121 or via email at erin_gawera@fws.gov. Individuals who are hearing or speech impaired may call the Federal Relay Service at 1-800-877-8339 for TTY assistance.

SUPPLEMENTARY INFORMATION: We, the Fish and Wildlife Service, announce receipt of an application from Spring Grove, LLC (applicant) for an incidental take permit (ITP) under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The applicant requests the ITP to take the federally listed sand skink (*Neoseps reynoldsi*) incidental to the construction of a housing development (project) in Orange County, Florida. We request public comment on the application, which includes the applicant's proposed habitat conservation plan (HCP), and on the Service's preliminary determination that this HCP qualifies as "low-effect," categorically excluded, under the National Environmental Policy Act (NEPA; 42 U.S.C. 4231 *et seq.*). To make this determination, we used our environmental action statement and low-effect screening form.

Project

Spring Grove, LLC (Cross Property) requests a 5-year ITP to take sand skinks through the conversion of approximately 9.60 acres (ac) of occupied sand skink foraging and sheltering habitat incidental to the construction of a housing development in Orange County, Florida, on a 204-ac parcel located in Section 18 and 19, Township 24 South, Range 27 East on Parcel ID numbers 18-24-27-0000-00-003, 18-24-27-0000-00-004, 19-24-27-0000-00-001, 19-24-27-0000-00-017, 19-24-27-0000-00-018 and 19-24-27-0000-00-019. The applicant proposes to mitigate for take of the sand skinks by purchasing 19.20 credits from the Lake Wales Ridge Conservation

Bank or another Service-approved conservation bank. The Service would require the applicant to purchase the credits prior to engaging in activities associated with the project.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment, including your personal identifying information, may be made available to the public. While you may request that we withhold your personal identifying information, we cannot guarantee that we will be able to do so.

Our Preliminary Determination

The Service has made a preliminary determination that the applicant's project, including land clearing, infrastructure building, landscaping, and the proposed mitigation, would individually and cumulatively have a minor or negligible effect on sand skinks and the environment. Therefore, we have preliminarily concluded that the ITP for this project would qualify for categorical exclusion and that the HCP is low effect under our NEPA regulations at 43 CFR 419.2005 and 419.2010. A low-effect HCP is one that would result in (1) minor or negligible effects on federally listed, proposed, and candidate species and their habitats; (2) minor or negligible effects on other environmental values or resources; and, (3) impacts that, when considered together with the impacts of other past, present, and reasonably foreseeable similarly situated projects, would not result in significant cumulative effects to environmental values or resources over time.

Next Steps

The Service will evaluate the application and the comments received to determine whether to issue the requested permit. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the preceding findings, we will determine whether the permit issuance criteria of section 10(a)(1)(B) of the ESA have been met. If met, the Service will issue ITP number ESPER0007024 to Spring Grove, LLC.

Authority

The Service provides this notice under section 10(c) of the ESA (16 U.S.C. 1531 *et seq.*) and its implementing regulations (50 CFR 17.32) and NEPA (42 U.S.C. 4321 *et*

seq.) and its implementing regulations (40 CFR 1506.6 and 43 CFR 46.305).

Gianfranco Basili,

Action Field Supervisor, Jacksonville Field Office.

BILLING CODE 4333-15-P

DEPARTMENT OF THE INTERIOR**Geological Survey**

[GR21EG51TJ50200; OMB Control Number 1028-New]

Agency Information Collection Activities; National Digital Trails Project—Trails Data Portal

AGENCY: Geological Survey, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the U.S. Geological Survey (USGS) are proposing a new information collection.

DATES: Interested persons are invited to submit comments on or before August 2, 2021.

ADDRESSES: Send your comments on this information collection request (ICR) by mail to U.S. Geological Survey, Information Collections Officer, 12201 Sunrise Valley Drive, MS 159, Reston, VA 20192; or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028-New in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Tatyana DiMascio by email at tdimascio@usgs.gov, or by telephone at (303) 202-4206.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the USGS; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the USGS enhance the quality,

utility, and clarity of the information to be collected; and (5) how might the USGS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: A major component of the Department of the Interior's vision is to "Increase access to outdoor recreation opportunities for all Americans so that our people can be healthier, more fully enjoy the wonderful features of their federal lands, and take advantage of hunting, fishing, and other outdoor recreation pursuits that are the roots of the conservation movement." At the direction of DOI, the US Geological Survey is advancing that vision with the launch of the National Digital Trails Network (NDT) project. The two-year project consists of three major goals:

1. Develop a web-based geospatial analysis tool to assist Federal land managers in identifying and prioritizing candidate trails for the connection of existing trails and trail networks.
2. Aid in the creation of a robust nationwide geospatial trails dataset including, at a minimum, trails from key Federal agencies including the Bureau of Land Management, National Park Service, U.S. Fish and Wildlife Service, and U.S. Forest Service.

3. Develop a mobile responsive application that will assist trail stewards, land management agencies, and members of the public in the maintenance of trails information.

This information collection request focuses on Goal 2, the Nationwide Digital Trails Dataset. The National Digital Trails Portal will support development and maintenance of the robust USGS Nationwide Digital Trails Dataset (Goal 2). In turn, the Nationwide Digital Trails Dataset is a primary component of the TRAILS decision support tool (Goal 1) which provides DOI bureaus and trail managers a tool to improve trail connectivity throughout the Nation's public lands.

The National Digital Trails Portal will facilitate an efficient digital trails data submission process and communication between USGS and data providers. Authoritative trail managers will be able to login to submit their trails data, along with relevant information, for USGS review and integration into the Nationwide Trails Dataset. USGS staff will be able to login to download the submitted data, perform preliminary assessment, and provide status updates for every trail data submission. No data edits or integration will take place within the National Digital Trails Portal.

The following information will be collected for every authoritative data provider that submits trails data for USGS integration: name, email, and organization. This information will allow USGS to identify appropriate point of contact for every data source in the Nationwide Digital Trails Dataset. It may be necessary to reach out to a contact to provide status updates, or to clarify data discrepancies, or to obtain the latest trails data to perform updates to the Nationwide Digital Trails Dataset.

Title of Collection: National Digital Trails Project—Trails Data Portal.

OMB Control Number: 1028–NEW.

Form Number: None.

Type of Review: New.

Respondents/Affected Public: Federal, state or local government agencies; nonprofit organizations.

Total Estimated Number of Annual Respondents: 100.

Total Estimated Number of Annual Responses: 100.

Estimated Completion Time per Response: 25 minutes on average.

Total Estimated Number of Annual Burden Hours: 42 hours.

Respondent's Obligation: Voluntary.

Frequency of Collection: Occasional.

Total Estimated Annual Nonhour Burden Cost: None.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

David Brostuen,

Director, National Geospatial Technical Operations Center, U.S. Geological Survey.

BILLING CODE 4338–11–P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731–TA–1071 (Third Review)]

Magnesium From China; Institution of a Five-Year Review

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice that it has instituted a review pursuant to the Tariff Act of 1930 ("the Act"), as amended, to determine whether revocation of the antidumping duty order on magnesium from China would be likely to lead to continuation or recurrence of material injury. Pursuant to the Act, interested parties are requested to respond to this notice by submitting the information specified below to the Commission.

DATES: Instituted June 1, 2021. To be assured of consideration, the deadline for responses is July 1, 2021. Comments on the adequacy of responses may be filed with the Commission by August 13, 2021.

FOR FURTHER INFORMATION CONTACT: Lawrence Jones (202–205–3358), Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000. General information concerning the Commission may also be obtained by accessing its internet server (<https://www.usitc.gov>). The public record for this proceeding may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION:

Background.—On April 15, 2005, the Department of Commerce ("Commerce") issued an antidumping duty order on imports of magnesium from China (70 FR 19928). Following the five-year reviews by Commerce and the Commission, effective March 11, 2011, Commerce issued a continuation of the antidumping duty order on imports of magnesium metal from China (76 FR 13356). Following the second five-year reviews by Commerce and the Commission, effective July 21, 2016, Commerce issued a continuation of the antidumping duty order on imports of magnesium metal from China (81 FR 47351). The Commission is now
