NUCLEAR REGULATORY COMMISSION

[NRC-2010-0302]

Evaluation of the Groundwater Task Force Report: Public Meeting

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of public meeting; solicitation of public comments.

SUMMARY: In response to incidents involving radioactive contamination of groundwater wells and soils at nuclear power plants, the Nuclear Regulatory Commission (NRC) convened a Groundwater Task Force (GTF) in March 2010 to determine whether past, current, and planned actions should be augmented. The GTF, in its final report dated June 2010, determined that the NRC is meeting its mission of protecting public health, safety, and the environment. However, in view of stakeholder concerns, the GTF recommended that the NRC consider changes to its oversight of licensed material outside of its designed

confinement. The NRC established a senior management review group to evaluate the GTF report, identify next steps, and make recommendations to the Commission about potential policy changes. The NRC will host a meeting with the public to discuss and solicit input on the potential policy changes being considered. The meeting will serve as a forum for members of the public to provide oral comments. The NRC is also requesting written comments on the potential policy issues, particularly for those members of the public unable to attend the meeting. The potential policy issues can be found in Section C, "Topics for Discussion: Potential Policy Issues," in the **SUPPLEMENTARY INFORMATION** section of this notice.

DATES: *Public Meeting Date:* Monday, October 4, 2010, from 9 a.m. to 5 p.m.

Comment Dates: For individuals who wish to provide written comments on the potential policy issues, the comments are requested by October 15, 2010. Comments received after this date will be considered if it is practical to do so, but the NRC is able to assure consideration only for comments received on or before this date.

ADDRESSES: The public meeting will be held in the Commission Hearing Room at the NRC Headquarters building, 11555 Rockville Pike, Rockville, Maryland 20852. The NRC Headquarters building is located across the street from the White Flint metro station. For most attendees, the metro system is likely the most convenient mode of transportation, as there is very limited parking available. Please also allow time to register with building security. Individuals unable to travel to the NRC Headquarters building may participate by teleconference or observe by live Webcast. Please contact the individual listed below to get details for participating in this manner.

You may submit comments by any one of the following methods. Please include Docket ID NRC-2010-0302 in the subject line of your comments. Comments submitted in writing or in electronic form will be posted on the NRC Web site and on the Federal rulemaking Web site Regulations.gov. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed.

The NRC requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their
