#### **Modine Manufacturing Company, Pemberville, OH; Notice of Affirmative Determination Regarding Application for Reconsideration**

By application dated March 10, 2010, a petitioner requested administrative reconsideration of the negative determination regarding workers' eligibility to apply for Trade Adjustment Assistance (TAA) applicable to workers and former workers of the subject firm. The determination was issued on February 12, 2010. The Notice of Determination was published in the **Federal Register** on March 12, 2010 (75 FR 11925).

The initial investigation resulted in a negative determination based on the finding that imports of Class 8 heavy duty trucks did not contribute importantly to worker separations at the subject firm and no shift of production to a foreign source occurred.

In the request for reconsideration, the petitioner provided additional information pertaining to the articles manufactured at the subject firm and to customers of the subject firm.

The Department has carefully reviewed the request for reconsideration and the existing record and has determined that the Department will conduct further investigation to determine if the workers meet the eligibility requirements of the Trade Act of 1974.

#### **Conclusion**

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the U.S. Department of Labor's prior decision. The application is, therefore, granted.

Signed at Washington, DC, this 1st day of April, 2010.

#### **Innovion Corporation, Gresham, Oregon; Notice of Affirmative Determination Regarding Application for Reconsideration**

On March 16, 2010, the Department received the petitioner's application (dated March 2, 2010) requesting administrative reconsideration of the negative determination regarding workers' eligibility to apply for Trade Adjustment Assistance (TAA) applicable to workers and former workers of the subject firm. The determination was issued on December 15, 2009, and the Notice of Determination was published in the **Federal Register** on February 16, 2010 (75 FR 7034).

The initial investigation resulted in a negative determination based on the findings that there was no increase in imports or shift/acquisition of ion implantation services by the workers' firm or customers. The workers' separations were held to be attributable to a major customer cancelling a contract with the workers' firm in order to perform ion implantation services in-house.

In the request for reconsideration, the petitioner provided additional information regarding customers of the subject firm.

The Department has carefully reviewed the request for reconsideration and the existing record, and has determined that the Department will conduct further investigation to determine if the workers meet the eligibility requirements of the Trade Act of 1974.

#### **Conclusion**

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the U.S. Department of Labor's prior decision. The application is, therefore, granted.

#### **Chrysler LLC, St. Louis North Assembly Plant, Including On-Site Leased Workers From HAAS TCM, Inc., Logistics Services, Inc., Diversified Contract Service, Inc. #639, and Logistics Management Services, Inc., Fenton, MO; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance**

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273), and section 246 of the Trade Act of 1974 (26 U.S.C. 2813), as amended, the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance on April 14, 2008, applicable to workers of Chrysler LLC, St. Louis North Assembly Plant, Fenton, Missouri. The notice was published in the **Federal Register** on May 2, 2008 (73 FR 24317).

The certification was subsequently amended on November 18, 2008 to include on-site leased workers from HAAS TCM, amended on December 9, 2008 to include on-site leased workers from Logistics Services, Inc., and amended on October 30, 2009 to include on-site leased workers from Diversified Contract Service, Inc., #639.

Based on information provided by a representative of the State of Missouri Department of Economic Development, Division of Workforce Development, in a Trade Adjustment Assistance petition (TA-W-72,679) that workers of Logistics Management Services, Inc. worked on-site at the Chrysler LLC, Fenton, Missouri plant (Logistics Management Services, Inc. workers "sequenced the Dodge Ram pickup truck frames to be the first item loaded onto the assembly line") and that the workers' schedules were "under the direct control of the production scheduling department" at the North Assembly Plant, the Department reviewed the certification for workers of the subject firm.

Based on the new information provided by the State of Missouri, the Department is amending this certification to include workers leased from Logistics Management Services, Inc. working on-site at the Fenton, Missouri location of Chrysler LLC.

The intent of the Department's certification is to include all workers
