

Virtual Public Meeting*Next Steps*

After comments are received from the public and reviewing agencies, GSA may: (1) Give environmental approval to the Project by signing a ROD no sooner than 30 days after the FEIS is issued. In the ROD, GSA will explain all the factors that were considered in reaching its final decision, including the environmental factors. GSA will identify the environmentally preferable alternative or alternatives and may select one of the alternatives or a combination of alternatives analyzed in the EIS; (2) Undertake additional environmental studies, or (3) Abandon the Project. If the Project is given environmental approval and funding is appropriated, the GSA could design and construct all or part of the Project.

B. Need and Uses

Contracts must contain terms that delineate the appropriate rights and obligations of the Government and the contractor regarding the use, reproduction and disclosure of data. This clearance covers the information that offerors and contractors must submit to comply with the following Federal Acquisition Regulation (FAR) requirements:

- *FAR 52.227-15, Representation of Limited Rights Data and Restricted Computer Software.* This provision requires an offeror to state, in response to a solicitation, whether data proposed for fulfilling the data delivery requirements qualifies as limited rights data or restricted computer software. If the Government does not receive unlimited rights, the offeror must provide a list of the data that qualify as limited rights data or restricted computer software. The offeror would identify any proprietary data it would use during contract performance, in order that the contracting officer might ascertain if such proprietary data should be delivered.

- *FAR 52.227-16, Additional Data Requirements.* This clause requires contractors to keep, for possible delivery to the Government, any data, in addition to data already required to be delivered

under the contract, first produced or specifically used in performance of the contract for a period of three years from the final acceptance of all items delivered under the contract. The data delivered under this clause may be in the form of computations, preliminary data, records of experiments, etc. For any data to be delivered under this clause, the Government will pay the contractor for converting the data into a specific form, and for reproducing and delivering the data. The purpose of such recordkeeping requirements is to ensure that, if all data requirements are not known prior to contract award, the Government can fully evaluate the research in order to ascertain future activities and to insure that the research was completed and fully reported, as well as to give the public an opportunity to assess the research results and secure any additional information.

- *FAR 52.227-17, Rights in Data-Special Works.* This clause is included in solicitations and contracts primarily for production or compilation of data. It is used in rare and exceptional circumstances to permit the Government to limit the contractor's rights in data by preventing the release, distribution, and publication of any data first produced in the performance of the contract. This clause may also be limited to particular items and not the entire contract. This clause requires contractors to assign (with or without registration), or obtain the assignment of, the copyright to the Government or its designated assignee.

- *FAR 52.227-18, Rights in Data-Existing Works.* This clause is used when the Government is acquiring existing audiovisual or similar works, such as books, without modification. This clause requires contractors to obtain license for the Government to reproduce, prepare derivative works, and perform and display publicly the materials.

- *FAR 52.227-19, Commercial Computer Software License.* This clause requires contractors to affix a notice on any commercial software delivered under the contract that provides notice that the Government's rights regarding the data are set forth in the contract.

- *FAR 52.227-20, Rights in Data-SBIR Program.* This clause authorizes contractors under Small Business Innovation Research (SBIR) contracts to affix a notice to SBIR data delivered under the contract to limit the Government's rights to disclose data first produced under the contract. Contractors shall obtain from their subcontractors all data and rights necessary to fulfill the contractor's obligations to the Government under the

contract. If a subcontractor refuses to accept terms affording the Government those rights, the contractor shall notify the contracting officer of the refusal.

- *FAR 52.227–21, Technical Data Declaration, Revision, and Withholding of Payment–Major Systems.* This clause requires major systems contractors to certify that the data delivered under the contract is complete, accurate, and compliant with the requirements of the contract.

- *FAR 52.227–23, Rights to Proposal Data (Technical).* This clause allows the Government to identify pages of a proposal that would not be subject to unlimited rights in the technical data.

SUPPLEMENTARY INFORMATION: Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the

following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency’s functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Title of the Collection: Commissioned Corps of the U.S. Public Health Service Application.

Type of Collection: Revision.

OMB No. 0990–0025—Commissioned Corps Headquarters.

Abstract: The principal purpose of this revision is a result of the Coronavirus Aid, Relief, and Economic Security (CARES) Act that was signed into law on March 27, 2020. The Public Health Service Act was amended to provide for a Ready Reserve corps in times of public health emergencies, in addition to national emergencies. Collecting the information is to permit HHS to determine eligibility for appointment of applicants into the Regular Corps and Ready Reserve Corps of the Commissioned Corps of the U.S. Public Health Service Corps (Corps). The Corps is one of the seven Uniformed Services of the United States (37 U.S.C. 101(3)), and appointments in the Corps are made pursuant to 42 U.S.C. 204 *et seq.* and 42 CFR 21.58.

Type of respondent: Candidates/Applicants to the Regular and Ready Reserve Corps of the Commissioned Corps of the U.S. Public Health Service.
