

FOR FURTHER INFORMATION CONTACT: Ms. Kathy Dakon, Code IC, National Aeronautics and Space Administration, Washington, DC 20546-0001, 202/358-0732.

SUPPLEMENTARY INFORMATION: The meeting will be open to the public up to the seating capacity of the room. Proceedings of the NAC will be shown live via video feed in the overflow Room 107, Building 1100. The agenda for the meeting is as follows:

- Flight of Columbia.
- NASA Planning for Orbital Space Plane.
- NASA's Earth Science Program.
- NASA's Education Initiative.
- ISS communications strategy.
- Committee Reports.
- Discussion of Findings and Recommendations.

Attendees should report to Building 3101, South Reception Center, Stennis Space Center, where they will be asked to comply with NASA security requirements, including the presentation of a valid picture ID before receiving an access badge. Foreign nationals attending this meeting will be required to provide the following information: full name; gender; date/place of birth; citizenship; greencard/visa information (number, type, expiration date); passport information (number, country, expiration date); employer/affiliation information (name of institution, address, country, phone); title/position of visitor. To expedite admittance, attendees can provide identifying information in advance by contacting NASA Stennis Space Center Security Office via e-mail at SSC.Security.Office@ssc.nasa.gov or by telephone at 228-688-3580. Visitors will not be permitted to drive on Stennis Space Center; however, NASA will provide attendees with transportation from the South Reception Center to the NAC meeting. Visitors will be escorted at all times. The remote location of Stennis Space Center makes leaving the Center for lunch impractical, so visitors are encouraged to bring their lunch. It is imperative that the meeting be held on these dates to accommodate the scheduling priorities of the key participants.

June W. Edwards

*Advisory Committee Management Officer,
National Aeronautics and Space Administration.*

NATIONAL LABOR RELATIONS BOARD

Announcement of Meeting of Board Members; Announcement No. 09-2003

March 5, 2003.

Meeting No: 09-2003.

Time of Meeting: 11 a.m.

Place of Meeting: 11th Floor, 1099 Fourteenth St., NW., Washington, DC 20570.

Status of Meeting: Closed to public observation pursuant to 5 U.S.C. Section 552b(c)(2) (internal personnel rules and practices; and 9(B)) (Disclosure would significantly frustrate implementation of a proposed Agency action * * *).

Meeting Agenda: Internal Administrative Matters.

Inquiries concerning this matter should be directed to: Lester A. Heltzer, Acting Executive Secretary, Washington, DC 20570, *Telephone:* (202) 273-1067.

Lester A. Heltzer,

Acting Executive Secretary.

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. *Type of submission, new, revision, or extension:* New collection.

2. *The title of the information collection:* Requests to Non-Agreement States for Information, as authorized by section 274(a) of the Atomic Energy Act.

3. *The form number if applicable:* Not applicable.

4. *How often the collection is required:* One-time or as needed.

5. *Who will be required or asked to report:* The 18 States that have not

signed section 274(b) Agreements with NRC (Non-Agreement States).

6. *An estimate of the number of annual responses:* NRC expects to receive no more than 18 responses per occasional request or approximately 18 responses per year.

7. *The estimated number of annual respondents:* 18 Non-Agreement States.

8. *An estimate of the total number of hours needed annually to complete the requirement or request:* 135 hours (18 responses per year × 7.5 hours) per response.

9. *An indication of whether section 3507(d), Pub. L. 104-13 applies:* Not applicable.

10. *Abstract:* Occasionally, requests will be made of the Non-Agreement States for information similar to that requested from the Agreement States. Requests will be made on a one-time or as-needed basis, e.g., to respond to a specific incident, to gather information on licensing and inspection practices and other technical statistical information. These information requests will primarily refer to naturally occurring and accelerator-produced radioactive materials which may be subject to State regulations since they do not come under the purview of the Atomic Energy Act, as amended. The reason for requesting such information is that the information can assist the Commission in its considerations and decisions involving Atomic Energy Act materials programs in an effort to make the national nuclear materials programs more uniform and consistent.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by April 9, 2003. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

Bryon Allen, Office of Information and Regulatory Affairs (3150-XXXX), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be submitted by telephone at (202) 395-3087.

The NRC Clearance Officer is Brenda Jo Shelton, (301) 415-7233.

Dated in Rockville, Maryland, this 3rd day of March, 2003.

For the Nuclear Regulatory Commission.

Brenda Jo Shelton,

NRC Clearance Officer, Office of the Chief Information Officer.

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. *Type of submission, new, revision, or extension:* Extension.
2. *The title of the information collection:* Application for License to Export Nuclear Equipment and Material.
3. *The form number if applicable:* NRC Form 7.
4. *How often the collection is required:* On occasion; for each separate request for a specific export license and for exports of incidental radioactive material using existing general licenses.
5. *Who will be required or asked to report:* Any person in the U.S. who wishes to export: (a) Nuclear equipment and material subject to the requirements of a specific license, (b) radioactive waste subject to the requirements of a specific license, and (c) incidental radioactive material that is a contaminant of shipments of more than 100 kilograms of non-waste material using existing NRC general licenses.
6. *An estimate of the number of annual responses:* 70.
7. *The estimated number of annual respondents:* 70.
8. *An estimate of the total number of hours needed annually to complete the requirement or request:* 190.8 rounded to 191 hours.
9. *An indication of whether section 3507(d), Pub. L. 104-13 applies:* Not applicable.

10. *Abstract:* Any person in the U.S. wishing to export nuclear material and equipment requiring a specific authorization or radioactive waste requiring a specific authorization ordinarily should file an application for a license on NRC Form 7, except that certain submittals should be filed by letter. The application will be reviewed by the NRC and by the Executive Branch, and if applicable statutory, regulatory, and policy considerations are satisfied, the NRC will issue a license authorizing the export.

A completed NRC Form 7 must also be filed by any person in the U.S. wishing to use existing NRC general licenses for the export of incidental radioactive material before the export takes place (if the total amount of the shipment containing the incidental radioactive material exceeds 100 kilograms). The form is reviewed by the NRC to ensure that the Agency is informed before the fact of these kinds of shipments and to allow NRC to inform other interested parties, as appropriate, including import control authorities in interested foreign countries.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-438 and 50-439]

In the Matters of Tennessee Valley Authority (Bellefonte Nuclear Plant, Units 1 and 2); Order

I

The Tennessee Valley Authority (TVA, or the applicant) is the current holder of Construction Permit Nos. CPPR-122 and CPPR-123, issued by the Atomic Energy Commission on December 12, 1974, for construction of the Bellefonte Nuclear Plant, Units 1 and 2. These facilities are currently in deferral status as described in the U.S. Nuclear Regulatory Commission's (NRC's) Generic Letter 87-15 at the applicant's site in Jackson County, Alabama, on a peninsula at Tennessee River Mile 392 on the west shore of Guntersville Reservoir, about 6 miles east-northeast of Scottsboro, Alabama.

On July 11, 2001, TVA filed a request pursuant to 10 CFR 50.55(b) for extensions of the expiration dates for Construction Permit Nos. CPPR-122 AND CPPR-123. Construction activities at the Bellefonte site had been deferred in 1988 due, in part, to a lower-than-expected electrical load forecast within the TVA service area. At the present time, Bellefonte Unit 1 is about 88 percent complete and Bellefonte Unit 2 is about 58 percent complete. On March 23, 1993, TVA notified the NRC that it planned to resume completion activities 120 days from the date of their letter. However, as a result of the delay from the inactivity during the construction deferral and a need to conduct an Integrated Resource Planning process to consider the lowest cost options for providing an adequate supply of electricity to TVA's customers pursuant to the provisions of the Energy Policy Act of 1992, TVA was unable to complete the construction of the two units before the original expiration dates, July 1, 1994, for Unit 1 and July 1, 1996, for Unit 2. In response to a request from TVA dated April 19, 1994, the NRC extended the construction permit expiration dates for Bellefonte Units 1 and 2 to October 1, 2001, and October 1, 2004, respectively, in a letter dated June 27, 1994. That letter transmitted an Order signed by William T. Russell and a Safety Evaluation prepared by the NRC staff.

In the current July 11, 2001, TVA request for extending the Bellefonte construction permit expiration dates, TVA stated that the extension of the Bellefonte construction permits will help TVA to maintain a full scope of
