## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–89507; File No. SR–CBOE–2020–077]

### Self-Regulatory Organizations; Cboe Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Rule 5.34 (Order and Quote Price Protection Mechanisms and Risk Controls) in Connection With Sell Market Orders in No-Bid Series

August 7, 2020.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),<sup>1</sup> and Rule 19b–4 thereunder,<sup>2</sup> notice is hereby given that on August 5, 2020, Cboe Exchange, Inc. (the “Exchange” or “Cboe Options”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Exchange filed the proposal as a “non-controversial” proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act<sup>3</sup> and Rule 19b–4(f)(6) thereunder.<sup>4</sup> The Commission is publishing this notice to solicit

comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

Cboe Exchange, Inc. (the “Exchange” or “Cboe Options”) proposes to amend Rule 5.34 (Order and Quote Price Protection Mechanisms and Risk Controls) in connection with sell market orders in no-bid series. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange’s website (<http://www.cboe.com/AboutCBOE/CBOELegalRegulatoryHome.aspx>), at the Exchange’s Office of the Secretary, and at the Commission’s Public Reference Room.

#### II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

##### A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

###### 1. Purpose

The Exchange proposes to amend Rule 5.34(a)(1) in connection with the System’s handling of a sell market orders in no-bid series. Specifically, if the System receives a sell market order in a series after it is open for trading with a national best bid (“NBB”) of zero, current Rule 5.34(a)(1)(A)(ii) provides that if the NBO in the series is greater than \$0.50, then the System cancels or rejects the market order. The proposed rule change adds to Rule 5.34(a)(1)(A)(ii) that if the NBO in the series is greater than \$0.50, then the System cancels or rejects the market order or routes the market order to PAR for manual handling, subject to a User’s instructions. This proposed handling in consistent with order instructions a User may choose to apply to an order wherein, if the order is not eligible for electronic handling, the order routes to

PAR for manual handling.<sup>5</sup> Current Rule 5.34(a)(1)(A)(ii), as written, does not specifically consider the case in which a User’s order instructions would route an order to PAR when such order is not eligible for electronic processing because the NBO in the series is greater than \$0.50.

The System, however, currently handles orders under these circumstances in accordance with the User instruction to route such an order for manual handling.<sup>6</sup> The proposed rule change codifies this behavior. The Exchange notes that Rule 5.34 was recently revised in connection with a technology migration. The rule filing that revised Rule 5.34 consolidated all order and quote price protection mechanisms and risk controls provisions from the pre-migration Exchange Rulebook into one single rule (current Rule 5.34) as well as harmonized Rule 5.34 with the corresponding rules of the Exchange’s affiliated exchanges, Cboe EDGX Exchange, Inc. (“EDGX Options”) and Cboe C2 Exchange, Inc. (“C2”).<sup>7</sup> The Exchange’s former rule provision regarding market orders in no-bid (offer) series provided that if the Exchange’s best offer (*i.e.*, NBO) was greater than \$0.50, the order would route to PAR if so instructed by the submitting firm.<sup>8</sup> The Exchange inadvertently omitted this specific handling process when it amended current Rule 5.34 in connection with the technology migration.

###### 2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the “Act”) and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.<sup>9</sup> Specifically, the Exchange believes the proposed rule change is consistent with the Section

<sup>5</sup> See *e.g.* Rule 5.6(c), a “Default” order is an order a User designates for electronic processing, and which order (or unexecuted portion) routes to PAR for manual handling if not eligible for electronic processing.

<sup>7</sup> See Securities Exchange Release No. 86923 (September 10, 2019), 84 FR 48664 (September 16, 2019) (SR–CBOE–2019–057).

<sup>8</sup> Former Rule 6.13(b)(vi)(B) provided that if the Exchange best offer in a no-bid series is greater than \$0.50, then the order entry firm has the discretion to have the market order to sell via the order handling system pursuant to Rule 6.12 (which permitted a submitting firm to opt to route orders not eligible for electronic processing to a designated order management terminal or PAR Workstation).
