Title: Importation Bond Structure.

OMB Number: 1651-0050.

Form Numbers: 301 and 5297.

Abstract: Bonds are used to assure that duties, taxes, charges, penalties, and reimbursable expenses owed to the Government are paid; to facilitate the movement of cargo and conveyances through CBP processing; and to provide legal recourse for the Government for noncompliance with laws and regulations. Any person who is required to post a bond to secure a customs transaction usually submits the bond on CBP Form 301, Customs Bond, to CBP.

CBP proposes to revise CBP Form 301 in order to accurately reflect the changes that have occurred with regard to CBP bonds. Specifically, the revised Form 301 will capture the new types of bonds which have been authorized by law and regulation, as well as better harmonize this form with current and future automation system requirements.
