## DEPARTMENT OF HOMELAND SECURITY

### U.S. Citizenship and Immigration Services

[OMB Control Number 1615-0105]

#### Agency Information Collection Activities; Revision of a Currently Approved Collection: Notice of Entry of Appearance as Attorney or Accredited Representative

**AGENCY:** U.S. Citizenship and Immigration Services, Department of Homeland Security.

**ACTION:** 60-Day notice.

**SUMMARY:** The Department of Homeland Security (DHS), U.S. Citizenship and Immigration Services (USCIS) invites the general public and other Federal agencies to comment upon this proposed revision of a currently approved collection of information. In accordance with the Paperwork Reduction Act (PRA) of 1995, the information collection notice is published in the **Federal Register** to obtain comments regarding the nature of the information collection, the categories of respondents, the estimated burden (*i.e.* the time, effort, and resources used by the respondents to respond), the estimated cost to the respondent, and the actual information collection instruments.

**DATES:** Comments are encouraged and will be accepted for 60 days until September 10, 2021.

**ADDRESSES:** All submissions received must include the OMB Control Number 1615-0105 in the body of the letter, the agency name and Docket ID USCIS-2008-0037. Submit comments via the Federal eRulemaking Portal website at

<https://www.regulations.gov> under e-Docket ID number USCIS-2008-0037.

**FOR FURTHER INFORMATION CONTACT:** USCIS, Office of Policy and Strategy, Regulatory Coordination Division, Samantha Deshommes, Chief, telephone number (240) 721-3000 (This is not a toll-free number. Comments are not accepted via telephone message). Please note contact information provided here is solely for questions regarding this notice. It is not for individual case status inquiries. Applicants seeking information about the status of their individual cases can check Case Status Online, available at the USCIS website at <https://www.uscis.gov>, or call the USCIS Contact Center at 800-375-5283 (TTY 800-767-1833).

#### SUPPLEMENTARY INFORMATION:

##### Comments

You may access the information collection instrument with instructions or additional information by visiting the Federal eRulemaking Portal site at: <https://www.regulations.gov> and entering USCIS-2008-0037 in the search box. All submissions will be posted, without change, to the Federal eRulemaking Portal at <https://www.regulations.gov>, and will include any personal information you provide. Therefore, submitting this information makes it public. You may wish to consider limiting the amount of personal information that you provide in any voluntary submission you make to DHS. DHS may withhold information provided in comments from public viewing that it determines may impact the privacy of an individual or is offensive. For additional information, please read the Privacy Act notice that is available via the link in the footer of <https://www.regulations.gov>.

Written comments and suggestions from the public and affected agencies should address one or more of the following four points:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated,

electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

#### Overview of This Information Collection

(1) *Type of Information Collection:* Revision of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Notice of Entry of Appearance as Attorney or Accredited Representative.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* G-28; G-28I; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* **Primary:** Business or other for-profit. The data collected via the G-28 and G-28I is used by DHS to determine eligibility of the individual to appear as a representative. Form G-28 is used by attorneys admitted to practice in the United States and accredited representatives of certain non-profit organizations recognized by the Department of Justice. Form G-28I is used by attorneys admitted to the practice of law in countries other than the United States and only in matters in DHS offices outside the geographical confines of the United States. If the representative is eligible, the form is filed with the case and the information is entered into DHS systems.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection G-28 is 3,429,825 and the estimated hour burden per response is 0.833 hours. The estimated total number of respondents for the information collection G-28 online filing is 281,950 and the estimated hour burden per response is 0.667 hours. The estimated total number of respondents for the information collection G-28I is 25,057 and the estimated hour burden per response is 0.700 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 3,062,645 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is \$0. Any costs associated with this collection of information are included in the cost of the primary forms with which Form G-28 (paper or online) or Form G-28I is filed.

Dated: July 6, 2021.

**Jerry L Rigdon,**

Deputy Chief, Regulatory Coordination  
Division, Office of Policy and Strategy, U.S.  
Citizenship and Immigration Services,  
Department of Homeland Security.

BILLING CODE 9111-97-P

## DEPARTMENT OF THE INTERIOR

### Fish and Wildlife Service

[Docket No. FWS-R2-ES-2020-0040;  
FXES11130200000-201-FF02ENEH00]

### Endangered and Threatened Wildlife and Plants; Draft Revised Recovery Plan for Gila Trout

**AGENCY:** Fish and Wildlife Service,  
Interior.

**ACTION:** Notice of availability; request  
for comment.

**SUMMARY:** We, the U.S. Fish and  
Wildlife Service, announce the  
availability of our draft revised recovery  
plan for the Gila trout, listed as  
threatened under the Endangered  
Species Act. This fish species is  
endemic to mountain streams within the  
upper Gila River basin in New Mexico  
and Arizona. We provide this notice to  
seek comments from the public and  
Federal, Tribal, State, and local  
governments.

**DATES:** We must receive written  
comments on or before September 10,  
2021.

#### ADDRESSES:

*Reviewing Documents:* You may  
obtain a copy of the draft revised  
recovery plan and recovery  
implementation strategy in Docket No.  
FWS-R2-ES-2020-0040 at <http://www.regulations.gov>.

*Submitting Comments:* You may  
submit comments by one of the  
following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the  
instructions for submitting comments  
on Docket No. FWS-R2-ES-2020-0040.

- *U.S.:* Public Comments Processing;  
Attn: Docket No. FWS-R2-ES-2019-  
0040; U.S. Fish and Wildlife Service  
Headquarters, MS: PRB/3W; 5275  
Leesburg Pike, Falls Church, VA 22041-  
3803.

For additional information about  
submitting comments, see Request for  
Public Comments and Public  
Availability of Comments under

#### SUPPLEMENTARY INFORMATION.

#### FOR FURTHER INFORMATION CONTACT:

Shawn Sartorius, Field Supervisor, New  
Mexico Ecological Services Field Office,

by phone at 505-761-4781, by email at  
[nmesfo@fws.gov](mailto:nmesfo@fws.gov), or via the Federal  
Relay Service at 800-877-8339 for TTY  
service.

**SUPPLEMENTARY INFORMATION:** We, the  
U.S. Fish and Wildlife Service (Service),  
announce the availability of our draft  
revised recovery plan for the Gila trout  
(*Oncorhynchus gilae*), listed as  
threatened under the Endangered  
Species Act of 1973, as amended (ESA;  
16 U.S.C. 1531 *et seq.*). Gila trout are  
endemic to mountain streams in the  
Gila, San Francisco, Agua Fria, and  
Verde River drainages in New Mexico  
and Arizona. The draft revised recovery  
plan includes site-specific management  
actions and objective, measurable  
criteria that, when met, will enable us  
to remove the Gila trout from the list of  
endangered and threatened wildlife. We  
request review and comment on this  
plan from local, State, and Federal  
agencies; Tribes; and the public. We  
will also accept any new information on  
the status of the Gila trout throughout  
its range to assist in finalizing the  
recovery plan.

#### Background

Recovery of endangered or threatened  
animals and plants to the point where  
they are again secure, self-sustaining  
members of their ecosystems is a  
primary goal of our endangered species  
program and the ESA. Recovery means  
improvement of the status of listed  
species to the point at which listing is  
no longer appropriate under the criteria  
set out in section 4(a)(1) of the ESA. The  
ESA requires the development of  
recovery plans for listed species, unless  
such a plan would not promote the  
conservation of a particular species. The  
Service approved the original recovery  
plan for the Gila trout on January 12,  
1979 (Service 1979), with subsequent  
revisions approved on January 3, 1984  
(Service 1984), December 8, 1993  
(Service 1993), and August 19, 2003  
(Service 2003).

This draft revised recovery plan for  
the Gila trout represents the fourth  
revision and considers updated  
information on genetics, population  
status, and threats (principally wildfire  
effects and hybridization) in the  
development of revised recovery  
objectives, criteria, and actions. We  
used a streamlined approach to recovery  
planning and implementation for the  
Gila trout by preparing separate  
recovery plan and recovery  
implementation strategy documents.  
The information in the draft recovery  
plan provides the biological  
background, a threats assessment, a  
strategy for recovery of the Gila trout,

quantitative delisting criteria, a list of  
prioritized recovery actions, and the  
estimated time and cost to recovery  
(Service 2020a). The separate recovery  
implementation strategy document  
further describes in detail the specific  
activities needed to implement the  
recovery actions (Service 2020b).

#### Summary of Species Information

Gila trout are endemic to mountain  
streams within the Gila, San Francisco,  
Agua Fria, and Verde River drainages in  
New Mexico and Arizona. Although  
Gila trout were documented to occur in  
the upper Gila River basin since at least  
1885, the species was not described  
until 1950, by which time its  
distribution had been dramatically  
reduced. On March 11, 1967, we listed  
the Gila trout as endangered under the  
Federal Endangered Species  
Preservation Act of 1966 (32 FR 4001).  
The Gila trout's endangered status was  
continued under the Endangered  
Species Act of 1973, and we reclassified  
it as a threatened species on July 18,  
2006, with a special rule under section  
4(d) of the ESA (71 FR 40657).

Gila trout are readily identified by  
their iridescent gold sides, which blend  
to a darker shade of copper on the  
opercles (bony plates surrounding the  
gills). Spots on the body are small and  
profuse, generally occurring above the  
lateral line and extending onto the head,  
dorsal fin, and caudal fin. These spots  
are irregularly shaped on the sides and  
increase in size dorsally. A few  
scattered spots are sometimes present  
on the anal fin, and the adipose fin is  
typically large and well spotted. Dorsal,  
pelvic, and anal fins have a white to  
yellowish tip that may extend along the  
leading edge of the pelvic fins. A yellow  
cutthroat mark is present on most  
mature specimens. Parr marks (vertical  
bars present when trout are less than a  
year old) are commonly retained by  
adults, and a faint, salmon-pink band is  
also present on adults, particularly  
during spawning season, when the  
normally white belly may be streaked  
with yellow or reddish orange.  
Spawning of Gila trout occurs mainly in  
April and begins when water  
temperatures reach about 8 °C (46 °F),  
but day length may also be an important  
cue. Gila trout fry [20 to 25 millimeters  
(mm), or 0.8 to 1.0 inches (in) total  
length] emerge in 56 to 70 days. Females  
reach maturity between two to four  
years after hatching, and males typically  
reach maturity at two or three years.  
Most individuals are mature at a length  
of 150 mm (6 in) or greater, and live five  
years. Thus, the majority of adult female  
Gila trout spawn only twice before
