### U. S. Energy Information Administration

#### Proposed Agency Information Collection

**AGENCY:** U.S. Energy Information Administration (EIA), Department of Energy (DOE).

**ACTION:** Agency information collection activities: Proposed information collection; notice and request for comments.

**SUMMARY:** The EIA invites public comment on a proposed collection of information that EIA is developing for submission to the Office of Management and Budget (OMB) pursuant to the Paperwork Reduction Act of 1995. The EIA is soliciting comments on two proposed actions (1) revisions to the Form EIA–923, “Power Plant Operations Report” and Form EIA–861, “Annual Electric Power Industry Report,” and (2) creation of the Form EIA–861S, Annual Electric Power Industry Report (Short Form).

The Federal Energy Administration Act of 1974, specifically 15 U.S.C. 790a, and the DOE Organization Act, specifically 42 U.S.C. 7135, require the EIA to carry out a centralized, comprehensive, and unified energy information program. This program collects, evaluates, assembles, analyzes, and disseminates information on energy resource reserves, production, demand, technology, and related economic and statistical information.

The EIA collects information about the electric power industry for use by government and private sector analysts. The survey information is disseminated in a variety of electronic products and files. For details on the EIA electric power information program, please visit the electricity page of the EIA Internet site at <http://www.eia.gov/electricity/>.
