suggested methods for complying with the requirements in 9 CFR parts 55 and 81.

During the October 2012 U.S. Animal Health Association meeting, a resolution was passed asking APHIS to work with cervid industry stakeholders to revise the CWD Program Standards. Accordingly, we convened a group of State, laboratory, and industry representatives to receive their input on potential revisions. The group met from November 2012 to June 2013 to completely review the CWD Program Standards. The revised draft, which is based on those discussions, is intended to provide more detailed guidance to States and herd owners who are seeking to participate in the Federal CWD herd certification program. As we believe the collaborative process has been helpful in revising the CWD Program Standards, we plan to work with State, laboratory, and industry representatives to review the standards at least once a year.

The new draft of the CWD Program Standards can be viewed at the CWD Web site, http://www.aphis.usda.gov/animal\_health/animal\_diseases/cwd/, or on Regulations.gov (see the ADDRESSES section earlier in this document for instructions on how to access Regulations.gov).

We welcome public comment on this notice and the proposed revisions to the CWD Program Standards. After considering all comments, if no substantive changes to the CWD Program Standards are deemed necessary by the APHIS Administrator, the revised CWD Program Standards will be adopted as final 30 days after the close of the comment period for this notice. If substantive changes are deemed necessary, we will publish an additional document in the Federal Register to discuss them; otherwise, the final version of the revised CWD Program Standards will be announced and made available on the CWD Web
