information collection abstracted below to the Office of Management and Budget for review and clearance.

Collection of Information

Title: Rated Orders, Adjustments, Exceptions, or Appeals Under the Emergency Management Priorities and Allocations System (EMPAS).

Type of Information Collection: Revision of a currently approved information collection.

OMB Number: 1660–0150.

FEMA Forms: No forms.

Abstract: To help ensure the timely delivery of goods and services in support of approved emergency management programs, section 333.13 of the Emergency Management Priorities and Allocations System regulation requires suppliers to accept or reject priority rated orders for these goods and services within established time periods (10 working days for a “DX” rated order and 15 working days for a “DO” rated order). Rated orders may be placed directly by the Federal Government on a contractor or supplier, or they may “flow down” from a contractor to subsequent subcontractors or suppliers. Additionally, FEMA may facilitate sales to third parties. Section 333.13 also requires that certain emergency preparedness rated orders must be accepted or rejected within shorter time periods as specified in section 333.12(b). Section 333.13(d)(3) of the EMPAS regulation requires that, if after acceptance of a rated order the supplier discovers that shipment or performance against the order will be delayed, the supplier must notify the customer immediately in written electronic format, giving the reasons for the delay and advising the customer of a new shipment or performance date. This collection of information involves order communications between a Federal Government prime contractor and its subcontractors, unless FEMA is facilitating a sale to a third party. In those situations, FEMA would collect information on the customer as part of the sale facilitation.

Finally, under section 333.70 each request for adjustment or exception must be in writing and contain a complete statement of all the facts and circumstances related to 44 CFR part 333 or official action from which adjustment is sought and a full and precise statement of the reasons why relief should be provided. Under section 333.71, any person who has had a request for adjustment or exception denied by FEMA under section 333.70 may appeal to the Administrator. Each appeal must be in writing and contain a complete statement of all the facts and

circumstances related to the action appealed from a full and precise statement of the reasons the decision should be modified or reversed.
