

country, or virtually. In addition to the meetings, the minimum expected workload for members is approximately 5–10 hours per month, and potentially more depending on the responsibilities members choose to take on. Members will serve on the subcommittee in a voluntary capacity; however, EPA may provide reimbursement for travel expenses associated with official government business.

II. Eligibility To Serve on Subcommittee

Because of the nature of the issues to be discussed, it is the intent of the Agency for subcommittee members to have significant experience with (1) CAFO production area practices, (2) CAFO land application practices, and (3) effective means to limit pollution from CAFOs.

Topics that the AAWQ will discuss include, but are not limited to:

- Agricultural technology adoption and economics (e.g., digesters, treat and discharge systems, nutrient management technologies).
- CWA NPDES program.
- Day-to-day operations of CAFOs, especially concerning land application, management, or off-site transport of manure, litter, and process wastewater.
- Development and implementation of agricultural conservation practices and technologies.
- Public health and environmental impacts of CAFOs.

EPA is seeking nominees for the AAWQ subcommittee who have demonstrated experience with the operations of animal agriculture practices and/or the impacts of animal feeding operations on public health and/or water quality. Nominations are sought from, but not limited to, AFO/CAFO operators; agricultural economists; agricultural producers, growers, and ranchers; nongovernmental organizations studying agricultural, public health, and environmental impacts; community members who reside adjacent to or near AFO/CAFO operations; academic researchers and/or extension agents; state, local, and tribal governments; and wastewater utilities. The membership of the AAWQ subcommittee will include a balanced representation of interested persons representing the geographic diversity of the United States. Individuals will be generally appointed to serve on the AAWQ subcommittee as “Representative” members and are thus expected to represent the points of view of a particular group (e.g., a community, organization, or industry), rather than provide independent judgment and expertise. Other Federal agencies, and members of other sectors, as warranted,

may be invited to attend, offer expertise, or provide presentations at committee meetings as non-members.

Nominees must be able to volunteer approximately 5–10 hours per month to the AAWQ subcommittee’s activities, including participation in virtual workgroup meetings and preparation of text for the subcommittee’s Final Report.

In accordance with Executive Order 14035 (June 25, 2021) and consistent with law, EPA values and welcomes opportunities to increase diversity, equity, inclusion, and accessibility on its Federal advisory committees. EPA’s Federal advisory committees have a workforce that reflects the diversity of the American people.

III. Nominations To Serve on Subcommittee

Any interested person or organization may submit the names of qualified persons, including themselves. Nominations must be submitted electronically with the subject line “AAWQ Membership 2023” to AAWQ@epa.gov. To be considered, all nominations should include the information requested below:

- Current contact information for the nominee, including the nominee’s name, organization (and position within that organization), business address, email address, and daytime telephone number(s).
- A brief statement describing the nominee’s interest, relevant experience, and availability in serving on the AAWQ subcommittee, as well as: (1) The nominee’s ability to serve as a “Representative” member and represent the point of view of a group (e.g., a community, organization, or industry) rather than provide independent judgment and expertise; and (2) whether the nominee has any prior/current service on Federal advisory committees, and, if so, the number of years.
- Résumé or curriculum vitae detailing the nominee’s background, experience, and qualifications, and any other relevant materials.

Other sources, in addition to this **Federal Register** notice, may be utilized in the solicitation of nominees. EPA expressly values diversity, equity, and inclusion, and encourages the nominations of interested individuals from diverse backgrounds. Individuals may self-nominate.
