

communications networks or the communications supply chain.

Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs, WC Docket No. 18–89, Report and Order, Further Notice of Proposed Rulemaking, and Order, 34 FCC Rcd 11423, 11433, para. 26. *See also* 47 CFR 54.9. In June 2020, the Public Safety and Homeland Security Bureau issued final designations of Huawei Technologies Company (Huawei) and ZTE Corp. (ZTE) as covered companies for the purposes of this rule. *Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs—Huawei Designation*, WC Docket No. 19–351, Order, 35 FCC Rcd 6604 (PSHSB June 30, 2020) (*Huawei Designation Order*); *Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs—ZTE Designation*, WC Docket No. 19–352, Order, 35 FCC Rcd 6633 (PSHSB June 30, 2020) (*ZTE Designation Order*). Accordingly, USF recipients may not use USF funds to purchase, obtain, maintain, improve, modify, manage, or otherwise support Huawei or ZTE equipment or services in any way, including upgrades to existing Huawei or ZTE equipment and services. *Huawei Designation Order*, 35 FCC Rcd at 6608, para. 10; *ZTE Designation Order*, 35 FCC Rcd at 6637, para. 10. Moreover, USF recipients must certify that they are in compliance with this rule. *2019 Supply Chain Order*, 34 FCC Rcd at 11454, para. 79; *see also* 47 CFR 54.9.

Lastly, in the *CAF Phase II Auction Order*, in addition to rules requiring Connect America Phase II auction support recipients to report regarding support used for capital expenditures, certify regarding available funds, and certify that the Phase II-funded network meets performance requirements, the Commission also adopted rules requiring that Phase II auction support recipients must report information on served community anchor institutions and certify regarding bidding on FCC Form 470 postings for eligible schools and libraries in census blocks where the carrier receives auction support. *Connect America Fund, et al.*, WC Docket No. 10–90, et al., Report and Order and Further Notice of Proposed Rulemaking, 31 FCC Rcd 5949 (2016) (*CAF Phase II Auction Order*). Recipients of Uniendo a Puerto Rico Fund and Connect USVI Fund Stage 2 support must also observe these requirements in addition to the general requirements for high-cost support recipients and requirements specific to

the Uniendo a Puerto Rico Fund and Connect USVI Fund programs. *See Puerto Rico and USVI Stage 2 Order*, 34 FCC Rcd at 9150, para. 74.

The Commission therefore revises this information collection, as well as Form 481 and its accompanying instructions, to reflect these new and revised requirements. We also eliminated one requirement that is associated with obligations no longer in effect for certain carriers. Any increased burdens for reporting requirements account for the additional carriers that will be subject to those requirements as a condition for receiving high-cost support.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.

BILLING CODE 6712–01–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 622

[Docket No. 1710319998630–02]

RTID 0648–XB091

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Snapper-Grouper Resources of the South Atlantic; 2021 Red Snapper Commercial and Recreational Fishing Seasons

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; 2021 fishing seasons notice.

SUMMARY: NMFS announces the limited opening of commercial and recreational red snapper in the exclusive economic zone (EEZ) of the South Atlantic for the 2021 fishing year. This notice announces the 2021 red snapper commercial season opening date and the opening and closing dates for the red snapper recreational season, according to the accountability measures (AMs). This season announcement for South Atlantic red snapper allows fishers to maximize their opportunity to harvest the commercial and recreational annual catch limits (ACLs) while also managing harvest to protect the red snapper resource.

DATES: The 2021 commercial red snapper season opens at 12:01 a.m., local time, July 12, 2021. The 2021 recreational red snapper season opens at

12:01 a.m., local time, on July 9, 2021, and closes at 12:01 a.m., local time, on July 12, 2021, unless changed by subsequent notification in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT:

Mary Vara, NMFS Southeast Regional Office, telephone: 727–824–5305, email: mary.vara@noaa.gov.

SUPPLEMENTARY INFORMATION: The South Atlantic snapper-grouper fishery includes red snapper and is managed under the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region (FMP). The South Atlantic Fishery Management Council (Council) prepared the FMP, and the FMP is implemented by NMFS under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622.

For South Atlantic red snapper, the commercial AM requires the sector to close when commercial landings reach or are projected to reach the commercial ACL. The recreational AM is the length of the recreational season, with NMFS projecting the season length based on catch rate estimates from previous years.

The commercial ACL is 124,815 lb (56,615 kg), round weight, and in 2020, NMFS closed the commercial sector on September 5 as a result of the commercial ACL being projected to be met (85 FR 54943; September 3, 2020). Subsequent to the commercial closure it was determined that the commercial ACL was exceeded in 2020 by 9,650 lb (4,377 kg), round weight. The recreational ACL is 29,656 fish, and preliminary landings information show this ACL was exceeded in the 4-day fishing season in 2020 by 13,116 fish. For 2021, NMFS has determined that the landings from the recreational sector are expected to reach the recreational ACL in 3 days.

The commercial season for South Atlantic red snapper begins each year on the second Monday in July and closes when the commercial ACL is reached or is projected to be reached. Accordingly, the 2021 commercial season opens on July 12, 2021, and will remain open until 12:01 a.m., local time, on January 1, 2022, unless the commercial ACL is reached or projected to be reached prior to this date. During the commercial fishing season, the commercial trip limit is 75 lb (34 kg), gutted weight. NMFS will monitor commercial landings during the open season, and if commercial landings reach or are projected to reach the commercial ACL, then NMFS will file a notification with the Office of the Federal Register to close the commercial

sector for red snapper for the remainder of the fishing year.

The recreational season for South Atlantic red snapper begins on the second Friday in July. Accordingly, the 2021 recreational red snapper season opens at 12:01 a.m., local time, on July 9, 2021, and closes at 12:01 a.m., local time, on July 12, 2021. During the recreational season, the recreational bag limit is one red snapper per person, per day. After the recreational sector closure, the bag and possession limits for red snapper are zero.

There is not a red snapper minimum or maximum size limit for the commercial and recreational sectors during the open seasons.

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens

Act. This action is required by 50 CFR 622.183(b)(5)(i) and 622.193(y), which was issued pursuant to section 304(b), and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment would be unnecessary and contrary to the public interest. Such procedures are unnecessary because the rule establishing the red snapper ACLs and AMs has already been subject to notice and comment, and all that remains is to notify the public of the respective commercial and recreational fishing seasons. In addition, providing prior notice and an opportunity for public comment is contrary to the public interest because the seasons begin in early July and announcing the length of

the fishing seasons now allows each sector to prepare for the upcoming harvest, provides opportunity to for-hire fishing vessels to book trips that could increase their revenues and profits, and gives the South Atlantic states just enough time to prepare for their respective data collection needs for the season.

For the aforementioned reasons, the Acting Assistant Administrator for NMFS also finds good cause to waive the 30-day delay in the effectiveness of this action under 5 U.S.C. 553(d)(3).

Authority: 16 U.S.C. 1801 et seq.

Dated: June 3, 2021.

Jennifer M. Wallace,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
