SUPPLEMENTARY INFORMATION:

I. Abstract

Some of the world's most treasured and exotic animals are dangerously close to extinction. Destruction of natural habitat, illegal poaching, and pet-trade smuggling are devastating populations of tigers, rhinos, marine turtles, great apes, elephants, and many

other highly cherished species. The Division of International Conservation administers 11 competitive grant programs funded under the:

- African Elephant Conservation Act (16 U.S.C. 4201–4245).
- Asian Elephant Conservation Act of 1997 (16 U.S.C. 4261).
- Great Apes Conservation Act of 2000 (Pub. L. 106–411).
- Rhinoceros and Tiger Conservation Act of 1994 (16 U.S.C. 5306).
- Marine Turtle Conservation Act (Pub. L. 108–266).
- Endangered Species Act (16 U.S.C. 1531 *et seq.*) (Wildlife Without Borders Programs—Africa, Mexico, Latin America and the Caribbean, Russia, Critically Endangered Species, and Amphibians in Decline).

Currently, information that we collect for Critically Endangered Species grants is approved under OMB Control No. 1018–0142, which expires December 31, 2012. Information collection for Amphibians in Decline grants is approved under OMB Control No. 1018–0144, which expires September 30, 2013. We are proposing to consolidate all of our international conservation grants under OMB Control No. 1018–0123. If OMB approves this request, we will discontinue OMB Control Numbers 1018–0142 and 1018–0144.

Applicants submit proposals for funding in response to Notices of Funding Availability that we will publish on Grants.gov. We collect the following information:

- Cover page with basic project details (FWS Form 3–2338).
- Project summary and narrative.
- Letter of appropriate government endorsement.
- Brief curricula vitae for key project personnel.
- Complete Standard Forms 424 and 424b (nondomestic applicants do not submit the standard forms).

Proposals may also include, as appropriate, a copy of the organization's Negotiated Indirect Cost Rate Agreement (NIRCA) and any additional documentation supporting the proposed project.

The project summary and narrative are the basis for this information

collection request. A panel of technical experts reviews each proposal to assess how well the project addresses the priorities identified by each program's authorizing legislation. As all of the on-the-ground projects are conducted outside the United States, the letter of appropriate government endorsement ensures that the proposed activities will not meet with local resistance or work in opposition to locally identified priorities and needs. Brief curricula vitae for key project personnel allow the review panel to assess the qualifications of project staff to effectively carry out the project goals and objectives. As all Federal entities must honor the indirect cost rates an organization has negotiated with its cognizant agency, we require all organizations with a NICRA to submit the agreement paperwork with their proposals to verify how their rate is applied in their proposed budget. Applicants may provide any additional documentation that they believe best supports their proposal.

All assistance awards under these grant programs have a maximum reporting requirement of a:

- Mid-term report (performance report and a financial status report) due within 30 days of the conclusion of the first half of the project period, and
- Final report (performance and financial status report and copies of all deliverables, photographic documentation of the project and products resulting from the project) due within 90 days of the end of the performance period.
