

export and import of skin and blubber for the target species. Non-target seals and beluga whales may be unintentionally harassed, and seals may be incidentally captured during research activities. Up to three unintentional beluga mortalities may occur during captures over the duration of the permit. See the application for complete numbers of animals requested by species, life stage, and procedure. The permit is requested for 5 years.

File No. 24378: The University of Alaska Southeast, 1332 Seward Ave., Sitka, AK 99835 (Responsible Party: Jan Straley) proposes to conduct research on 18 species of cetaceans in Alaska, focusing on three species of large whales. The objective of the research is to further the biological understanding of Alaskan cetaceans by evaluating species abundance, population and stock structure, life history parameters, foraging behavior and prey specialization, social behavior, seasonal movements and migrations, and depredation interactions with longline fishing vessels. Research methods include close approach by vessels and UAS to conduct photo-identification, behavioral observations, underwater photography/video, active acoustic sonar for prey mapping, tagging (suction-cup and dart/barb), biological sampling (prey samples, exhaled air, sloughed skin, feces), and collection of water samples for environmental DNA (eDNA). Some marine mammal parts may be exported for analysis. See the application for complete numbers of animals requested by species, life stage, and procedure. The permit is requested for 5 years.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the proposed activities are categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: February 23, 2021.

Amy Sloan,

Acting Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

National Oceanic and Atmospheric Administration

[RTID 0648-XA878]

Marine Mammals; File No. 24365

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that Paul Ponganis, Ph.D., University of California San Diego, La Jolla, CA 92093-0204, has applied in due form for a permit to conduct research on California sea lions (*Zalophus californianus*).

DATES: Written, telefaxed, or email comments must be received on or before March 29, 2021.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the "Features" box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 24365 from the list of available applications. These documents are also available upon written request via email to NMFS.Pr1Comments@noaa.gov.

Written comments on this application should be submitted via email to NMFS.Pr1Comments@noaa.gov. Please include File No. 24365 in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request via email to NMFS.Pr1Comments@noaa.gov. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Sara Young or Dr. Shasta McClenahan, (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*) and the regulations governing the taking and importing of marine mammals (50 CFR part 216).

The purpose of this research is to determine the role of physiological responses, oxygen store depletion, and eventual anaerobic metabolism in dive behavior and foraging ecology of California sea lions. On an annual basis, up to 15 adult females will be captured and instrumented to measure physiological responses (heart rate, stroke rate, oxygen depletion,

temperature, inspired lung volumes and lactate accumulation) during dives. Two unintentional mortalities are requested annually. Up to 15 pups of the adult females used in the research, may also be marked with a neoprene patch. Take activities for adult animals include: Capture, restraint, anesthesia, internal and external instrumentation, blood sampling, flipper tagging, clipping vibrissae, and weighing, as well as necropsy and salvage of parts from any unintentional mortalities. Research will be conducted on San Nicolas Island, California. Re-captures for instrument removal will occur on San Nicolas Island. Takes of other species annually may include temporary disturbance of 100 harbor seals (*Phoca vitulina*), 200 northern elephant seals (*Mirounga angustirostris*), 4,000 California sea lions (*Zalophus californianus*), and 30 northern fur seals (*Callorhinus ursinus*) during captures. The permit would be valid for five years.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: February 22, 2021.

Those individuals requesting a public hearing should submit a written request via email to NMFS.Pr1Comments@noaa.gov. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT:

Jennifer Skidmore or Shasta McClenahan, Ph.D., (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

The applicant proposes to receive, import, and export pinniped parts to study the toxicology, ecology, and physiology of pinnipeds. An unlimited number of samples from up to 1,500 individual pinnipeds of each species, excluding walrus, may be received domestically and imported or exported world-wide on an annual basis. The requested duration of the permit is 5 years.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal

Commission and its Committee of Scientific Advisors.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

Patent and Trademark Office

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Admission To Practice and Roster of Registered Patent Attorneys and Agents Admitted To Practice Before the United States Patent and Trademark Office

The United States Patent and Trademark Office (USPTO) will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. The USPTO invites comment on this information collection renewal, which helps the USPTO assess the impact of its information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on December 23, 2020 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

AGENCY: United States Patent and Trademark Office, Department of Commerce.

Title: Admission to Practice and Roster of Registered Patent Attorneys and Agents Admitted to Practice Before the United States Patent and Trademark Office.

OMB Control Number: 0651-0012.

Form Numbers:

- PTO-107A (Data Sheet—Register of Patent Attorneys and Agents)
- PTO-107R (Reinstatement to the Register)
- PTO-107S (Registration Statement of Patent Attorneys and Agents)
- PTO-158 (Application for Registration to Practice Before the United States Patent and Trademark Office)
- PTO-158A (Application for Registration to Practice Before the United States Patent and Trademark Office Under 37 CFR 11.6(c) by a Foreign Resident)

- PTO 158RA (Reasonable Accommodation)
- PTO-158T (Application for Reciprocal Recognition to Practice in Trademark Matters Before the United States Patent and Trademark Office Under 37 CFR 11.14(c) by a Foreign Resident)
- PTO-1209 (Oath or Affirmation)

Type of Review: Extension and revision of a currently approved information collection.

Number of Respondents: 21,251 respondents per year.

Average Hour per Response: The USPTO estimates that it takes the public approximately 5 minutes (0.08 hours) to 7 hours to complete this information, depending upon the application. This includes the time to gather the necessary information, prepare and maintain the documents, and submit the items to the USPTO.

Estimated Total Annual Respondent Burden Hours: 18,188 hours.

Estimated Total Annual Non-Hour Cost Burden: \$875,706.

Needs and Uses: This collection of information is required by 35 U.S.C. 2(b)(2)(D), which permits the United States Patent and Trademark Office (USPTO) to establish regulations governing the recognition and conduct of agents, attorneys, or other persons representing applicants or other parties before the USPTO. This statute also permits the USPTO to require information from applicants that shows that they are of good moral character and reputation and have the necessary qualifications to assist applicants with the patent process and to represent them before the USPTO.

This information collection addresses submissions required by the regulations at 37 CFR 1.21, and 11.5-11.11, which set forth the requirements to apply for the examination for registration and to demonstrate eligibility to be a registered attorney or agent before the USPTO, including the fee requirements. The Office of Enrollment and Discipline (OED) collects this information to determine the qualifications of individuals entitled to represent applicants before the USPTO in the preparation and prosecution of applications for a patent. The OED also collects this information to administer and maintain the public roster of attorneys and agents registered to practice before the USPTO. The information in this information collection is used by the USPTO to review applications for the examination for registration and to determine whether an applicant may be added to, or an existing practitioner may remain
