

number P-1121-135. Comments emailed to Commission staff are not considered part of the Commission record.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. *Description of Request:* Pacific Gas and Electric Company (licensee or PG&E) is requesting that its license for the Battle Creek Hydroelectric Project be amended to support a new Phase 2 of the Battle Creek Salmon and Steelhead Restoration Project (Restoration Project). The Restoration Project is a collaborative effort to restore fish habitat on Battle Creek and some of its tributaries through modification of the project facilities and operations, including instream flow releases. This collaborative effort is between PG&E, the U.S. Department of the Interior, Bureau of Reclamation, the U.S. Fish and Wildlife Service, the National Oceanic and Atmospheric Administration National Marine Fisheries Service, and the California Department of Fish and Game. The new Phase 2 amendment requires the removal of the South Diversion Dam, Soap Creek Feeder Diversion Dam, Lower Ripley Creek Feeder Diversion Dam, and Coleman Diversion Dam.

The licensee has submitted the Battle Creek Salmon and Steelhead Restoration Project Final Environmental Impact Statement/Environmental Impact Report (EIS/EIR), prepared in July 2005, as part of its application. The referenced EIS/EIR was a collaborative effort between PG&E, the Bureau of Reclamation, California State Water Resources Control Board, California Bay-Delta Authority, and the Federal Energy Regulatory Commission (Commission), to fulfill National Environmental Policy Act (NEPA) and California Environmental Quality Act requirements. The Commission intends to use the EIS/EIR to meet the NEPA requirements under the proposed action to amend the Battle Creek Project. The EIS/EIR is available for review at the Restoration Projects website (link: http://www.usbr.gov/mp/nepa/nepa_projdetails.cfm?Project_ID=99).
