SUPPLEMENTARY INFORMATION:

I. Abstract

The BIA owns, operates, and maintains three electric power utilities that provide a service to the end user. The BIA also owns, operates, and maintains 15 irrigation projects that provide a service to the end user. To be able to properly bill for the services provided, the BIA must collect customer information to identify the individual responsible for repaying the government the costs of delivering the service, and billing for those costs. Additional information necessary for providing the service is the location of the service delivery. The Debt Collection Improvement Act of 1996 (DCIA) requires that certain information be collected from individuals and businesses doing business with the government. This information includes the taxpayer identification number for possible future use to recover delinquent debt. To implement the DCIA requirement to collect customer information, the BIA has included a section concerning the collection of information in its regulations governing its electrical power utilities (25 CFR 175) and in its regulations governing its irrigation projects (25 CFR 171). This authority is provided by 25 U.S.C. 381 and 385.

The Paperwork Reduction Act of 1995 provides an opportunity for interested parties to comment on proposed information collection requests. The BIA Division of Irrigation, Power, and Safety of Dams is proceeding with this public comment period as the first step in obtaining a normal information collection clearance from the Office of Management and Budget (OMB). Each request contains (1) type of review, (2) title, (3) summary of the collection, (4) respondents, (5) frequency of collection, (6) reporting and record keeping requirements.

II. Request for Comments

The BIA requests your comments on this collection concerning: (a) The necessity of this information collection for the proper performance of the functions of the agency, including

whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used; (c) ways we could enhance the quality, utility and clarity of the information to be collected; and (d) ways we could minimize the burden of the collection of the information on the respondents, such as through the use of automated collection techniques or other forms of information technology.

Please note that an agency may not sponsor or request, and an individual need not respond to, a collection of information unless it has a valid OMB Control Number.

It is our policy to make all comments available to the public for review at the location listed in the **ADDRESSES** section, room 4655, during the hours of 8 a.m. to 4 p.m. EST, Monday through Friday, except for legal holidays. Please note that all comments received will be available for public review for two weeks after comment period closes. Before including your address, phone number, e-mail address or other personally identifiable information, be advised that your entire comment—including your personally identifiable information—may be made public at any time. While you may request that we withhold your personally identifiable information, we cannot guarantee that we will be able to do so. We do not consider anonymous comments. All comments from representatives of businesses or organizations will be made public in their entirety. We may withhold comments from review for other reasons.
