SUPPLEMENTARY INFORMATION: The Tribe has asked the BIA to take 79 acres of land into trust on behalf of the Tribe, on which the Tribe proposes to build a casino. The property is located along the south side of Interstate 94 (I-94) in Emmett Township, Calhoun County, Michigan, at the Eleven Mile Road exit. The gaming facility would be managed by Gaming Enterprises Michigan (GEM) on behalf of the Tribe, pursuant to the terms of the gaming management agreement between the Tribe and GEM. The NIGC is responsible for the review and approval of the gaming management contract.

The project design includes an approximately 136,000 square foot casino, designed to accommodate 2000 slot machines and 50 gaming tables. The site is also proposed to include parking for approximately 3600 cars for patrons and gaming facility employees, plus 20 visitor spaces for busses and other over-sized vehicles. The parking area would cover approximately 32 acres.

Alternatives to the proposed project that are considered and evaluated in detail in the FEIS are as follows: (1) Trust acquisition and casino construction and operation (the proposed action); (2) trust acquisition and construction and operation of a casino smaller than the casino described in the proposed action; (3) trust acquisition and construction and operation of a casino with reduced hours of operation; (4) trust acquisition and construction and operation of a casino at an alternate location from that in the proposed action; and (5) no

action. Alternatives considered and properly eliminated from detailed study in the FEIS include non-casino alternatives and the construction and operation of a larger casino than that described in the proposed action.

Environmental issues addressed in the FEIS include land and water resources, air quality, biological resources, cultural resources, socioeconomic conditions, resource use patterns, traffic and transportation networks, sound and noise, hazardous materials, public health and safety, public services, environmental justice, aesthetic resources and lighting, indirect and induced growth impacts, cumulative impacts and mitigation.

The BIA held a public scoping meeting July 28, 2004, in Battle Creek, Michigan, to identify issues and alternatives to be considered in the EIS. The BIA held a public hearing on the Draft Environmental Impact Statement August 24, 2005, in Battle Creek, Michigan.

The above districts have developed Plans, which Reclamation has evaluated and preliminarily determined to meet the requirements of these Criteria. SUPPLEMENTARY INFORMATION: We are inviting the public to comment on our preliminary (*i.e.*, draft) determination of Plan adequacy. Section 3405(e) of the CVPIA (Title 34 Pub. L. 102-575) requires the Secretary of the Interior to

establish and administer an office on Central Valley Project water conservation best management practices (BMPs) that shall * * * develop criteria for evaluating the adequacy of all water conservation plans developed by project contractors, including those plans required by section 210 of the Reclamation Reform Act of 1982." Also, according to section 3405(e)(1), these Criteria must be developed "* * * with the purpose of promoting the highest level of water use efficiency reasonably achievable by project contractors using best available cost-effective technology and best management practices." These Criteria state that all parties (Contractors) that contract with Reclamation for water supplies (municipal and industrial contracts over 2,000 acre-feet and agricultural contracts over 2,000 irrigable acres) must prepare Plans that contain the following information:

1. Description of the District.
2. Inventory of Water Resources.
3. BMPs for Agricultural Contractors.
4. BMPs for Urban Contractors.
5. BMP Plan Implementation.
6. BMP Exemption Justification.

Reclamation will evaluate Plans based on these Criteria. A copy of these Plans will be available for review at Reclamation's Mid-Pacific (MP) Regional Office located in Sacramento, California, and the local area office.

Our practice is to make comments, including names and home addresses of respondents, available for public review. Individual respondents may request that Reclamation withhold their home address from public disclosure, and we will honor such request to the extent allowable by law. There also may be circumstances in which Reclamation would elect to withhold a respondent's identity from public disclosure, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comments. We will make all submissions from organizations, businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses available for public disclosure in their entirety. If you wish to review a copy of these Plans, please contact Mr. White to find the office nearest you.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on April 28, 2006, based on a complaint filed by Cabot Microelectronics Corporation of Aurora, Illinois. A supplement to the complaint was filed on April 13, 2006. The complaint alleges violations of section 337 in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain chemical mechanical planarization slurries and precursors to same by reason of infringement of claims 20, 22, 38, and 48 of U.S. Patent

No. 5,958,288; claims 11, 18-19, and 25 of the U.S. Patent No. 5,980,773; and claims 8, 12, and 17 of U.S. Patent No. 6,068,787. The complaint named the respondent as Cheil Industries Inc. of Korea. By order of the Commission.
