#### **SUPPLEMENTARY INFORMATION:**

##### **I. Background**

In the **Federal Register** for June 13, 2018 (83 FR 27616), FDA announced the availability of a draft guidance for industry entitled "Limited Population Pathway for Antibacterial and Antifungal Drugs."<sup>1</sup> This draft guidance

provides information on the implementation of section 506(h) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 356(h), added by section 3042 of the 21st Century Cures Act, which established the limited population pathway for antibacterial and antifungal drugs (LPAD pathway). This draft guidance is intended to assist sponsors in the development of certain new antibacterial and antifungal drugs for approval under the LPAD pathway. This draft guidance also is intended to assist sponsors in developing labeling, including prescribing information, patient labeling, and carton/container labeling, that incorporates certain statements required by section 506(h) of the FD&C Act. The LPAD pathway is intended to encourage the development of certain antibacterial and antifungal drugs for limited and specific populations of patients to help address the critical public health and patient care concern that has resulted from the current decline in antibacterial and antifungal drug research and development as serious antibacterial and antifungal drug-resistant infections increase.

FDA received numerous comments on the draft guidance from a diverse group of stakeholders. FDA also received requests for listening meetings with FDA to provide feedback concerning the draft guidance on the LPAD pathway. In view of these requests and to promote transparency, FDA will hold a public meeting at which stakeholders may present or comment on the draft guidance.

The format of the meeting involves presentations from the public. The Agency will not be inviting specific presenters; rather, with this document, FDA is soliciting presentations from interested stakeholders. FDA also invites interested persons to submit written comments to the docket established with the publication of the draft guidance on the LPAD pathway. FDA is also reopening the comment period on this draft guidance for comments to be submitted for consideration before it finishes work on the final version of the guidance. Submit either electronic or written comments by August 12, 2019, to ensure that the Agency considers your comments on this draft before it finishes work on the final version of the guidance.

##### **II. Topics for Discussion at the Public Meeting**

FDA is holding a public meeting to receive information and comments concerning the draft guidance on the LPAD pathway from a broad group of

<sup>1</sup> <https://www.fda.gov/ucm/groups/fdagov-public/@fdagov-drugs-gen/documents/document/ucm610498.pdf>.

The Agency has determined that a public meeting is the most appropriate way to ensure public engagement on the draft guidance. FDA welcomes any relevant information that stakeholders wish to share.
