Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration

(SAMHSA) will publish a list of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

The Treatment Improvement Protocol (TIP) #35 Prospective Study—New—Since 1993, SAMHSA's Center for Substance Abuse Treatment has published 37 Treatment Improvement Protocols, which provide administrative and clinical practice guidance to the substance abuse treatment field. This is the third of three studies and is designed to assess readers' use of TIPs and the impact of TIPs on changing substance abuse treatment practices.

The TIP #35 Prospective Study seeks to determine the most cost effective level of support needed by substance abuse treatment providers to implement in practice the information contained in TIPs. Specifically, this study will examine the use of TIP #35, "Enhancing Motivation for Change in Substance Abuse Treatment," by treatment

professionals in four different areas of the country. The study will use a pretest/post-test experimental design in which treatment facilities will be randomly assigned to one of four conditions: (1) The control group (which will receive the TIP and no additional support); (2) a TIP-plus curriculum group; (3) a TIP-plus curriculum and training group; and (4) a TIP-plus curriculum, training, and ongoing support group.

Data will be collected at baseline and follow-up. Measures will include providers' awareness of TIP #35, their knowledge of the content contained in this TIP, their attitudes toward the TIP and its content, and their use of this TIP and its impact on practices within their facilities. Burden for State substance abuse (SSA) agency directors in the four areas of the country chosen will consist of information gathering by telephone. Burden for other respondents will consist of completing the pretest and post-test questionnaires. The total estimated burden for this project is summarized below.

Respondent	Number of respondents	Responses/respondent	Average hours/response	Total burden (hrs.)
SSA Directors	6	1	1.0	6
Pretest	577	1	.14	81
Facility Directors	577	1	.14	81
Clinical Supervisors	577	1	.14	81
Program Counselors	2,350	1	.14	329
Post-test	577	1	.19	110
Facility Directors	577	1	.19	110
Clinical Supervisors	577	1	.19	110
Program Counselors	2,350	1	.19	447
Total	3,510	1,164
