

application form. We also do not plan to make changes to the annual report forms contained in this collection. However, we do anticipate proposing the following changes to certain permit application forms contained in this collection, to include:

- Applicants will be able to select the type of business they manage (for-profit, small business, farm, not-for-profit, or government entity).
- Requesting businesses using ePermits provide email addresses for both the principal officer and the business.
- The signature block will be replaced by with electronic submission of the online applications.
- The ePermits system will also:
 - Allow users to apply on behalf of another individual or business as a new way to identify if a consultant is applying for a client.
 - Ask for the name of the authorized individual to include on the permit and will allow a business to nickname their applications.
 - Ask the applicant to identify the location where the majority of the authorized activities will occur.
 - Ask the applicant to identify the physical address of the preparer of application.
 - Ask the applicants to identify if they are tax exempt.
 - Prompt applicants to provide their preferred contact method.
 - Prompt the applicant to describe changes associated with amendments or renewals (with changes) of their permit.
 - Prompt applicants to opt in or out to release their information for all applications except migratory bird rehabilitation permits (businesses are automatically opted in).
 - Prompt the applicant to provide a parent permit number, which allows the ePermits System to direct the user to the correct version of their permit for renewals or amendments to a permit.

Falconry Program

We propose to modify FWS Form 3–186A to update the field “USFWS Band Number” to say “USFWS/State/Tribe/Territory band number” and “USFWS Permit Number” to “USFWS/State/Tribe/Territory permit number.”

Migratory Bird Permit Program Service Manual Chapters

With this submission, we will seek OMB approval of the Migratory Bird Permit Program Handbook and associated Service Manual chapters at 724 FW 1 (“Migratory Bird Permits”) and 724 FW 2 (“Migratory Bird

Management”), all of which contain information collections. The Handbook provides detailed procedures and other operational information to implement the Service Manual chapters in part 724 and more generally in part 720.

New and existing information collections contained in the Handbook requiring OMB approval include the following:

- Renewal procedures associated with the reauthorization of an existing permit (with or without changes to the conditions);
 - Reinstatement procedures associated with the reauthorization of an existing permit (with or without changes to the conditions);
 - Discontinuance procedures at the permittee’s request to discontinue a valid permit;
 - Solicitation of appropriate documentation from entities authorized to act on behalf of State, local, Tribal, and Federal government agencies to verify their exempt status for fee exemption purposes;
 - Fee waiver request process as outlined in 50 CFR 13.11(d)(3)(iii);
 - Requests for reconsideration of a denial, partial denial, suspension, or revocation of a permit (requiring submission of a written request with the required information in 50 CFR 13.29(b) within 45 days after the permit decision); and
 - Appeals of reconsideration request decisions (requiring the permittee submit a written request to the Regional Director (see 50 CFR 13.29(e)) within 45 days of the reconsideration decision).
- The public may request copies of any form or document contained in this information collection by sending a request to the Service Information Collection Clearance Officer in

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Caribou Video Data Scoring

AGENCY: U.S. Geological Survey, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the U.S. Geological Survey (USGS) is proposing a new information collection.

DATES: Interested persons are invited to submit comments on or before June 16, 2022.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Comments may also be sent by mail to the U.S. Geological Survey, Information Collections Officer, 12201 Sunrise Valley Drive MS 159,

Reston, VA 20192; or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028–NEW in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this Information Collection Request (ICR), contact Heather Johnson by email at heatherjohnson@usgs.gov, or by telephone at (907) 786–7155. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the PRA and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on November 8, 2021 (86 FR 61780). No comments were received.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How the agency might minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic,

mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: We have developed an online application for project collaborators and volunteers to watch video clips that were collected from caribou collars (animal-borne video collars) and enter information about the behaviors and habitats observed in the clips. Information collected from the participants will be analyzed (scored) to describe caribou foraging behavior, how it varies across the summer, and the factors that influence it. This information is being collected as part of a long-term project to understand how climate variability influences caribou forage conditions, behaviors, distributions, and population dynamics. Results of the analyses will be published in peer-reviewed scientific publications that will be available to the public.
