Background

At the 5th Special Meeting of the IWC held in October, 2002 the Commission approved a 5-year aboriginal subsistence quota for the take of Western arctic bowhead whales. The quota allows for a combined total of up to 280 whales to be landed in the years 2003 through 2007 by Alaskan Eskimos and Russian natives. For each of these years, the number of bowhead whales struck shall not exceed 67, except that any unused portion of a strike quota from any year shall be carried forward and added to the strike quota of any subsequent year, provided that no more than 15 strikes shall be added to the strike quota for any one year.

The basis for the quota was a joint request by the Russian Federation and the United States for 280 whales (255 for Alaska Eskimos and 25 for Russian natives) over a 5-year period. The annual strike limits and quotas for whales are determined at the beginning of each year after consultation with the Russian government.

At the 54th annual meeting of the IWC, held in May, 2002 the Scientific Committee reiterated its previous advice for the Bering-Chukchi-Beaufort Seas stock of bowhead whales. That is, it is very likely that a catch limit of 102 whales or less would be consistent with the requirements under IWC regulation.

The International Convention for the Regulation of Whaling, under which the IWC operates, is implemented domestically through the Whaling Convention Act (WCA). Under the WCA, NMFS issues a share of the IWC bowhead quota to the AEWC.

Alaska Eskimos have been taking bowhead whales for at least 2,000 years. Alaska Native subsistence hunters take less than one percent of the population of bowhead whales per year. Since 1977, the number of takes has ranged between 14 and 75 per year.

NEPA requires that Federal agencies conduct an environmental analysis of the effect of their proposed actions on the environment. Although all quotas under the WCA are issued on an annual basis, NMFS evaluated the effects of issuing them over a 5-year period. A draft EA was distributed for public comment on December 9, 2002. The EA analyzed four alternatives:

Alternative 1 - Grant the AEWC a quota of 255 landed bowhead whales over 5 years (2003 through 2007), with an annual strike quota of 67 bowhead whales per year, where no unused strikes are added to the strike quota for any one year.

Alternative 2 - Grant the AEWC a quota of 255 landed bowhead whales over 5 years (2003 through 2007), with an annual strike quota of 67 bowhead whales per year, where no more than 15 unused strikes are added to the strike quota for any one year.

Alternative 3 - Grant the AEWC a quota of 255 landed bowhead whales over 5 years (2003 through 2007), with an annual strike quota of 67 bowhead whales per year, where, for unused strikes, up to 50 percent of the annual strike limit is added to the strike quota for any one year.

Alternative 4 (No Action) - Do not grant the AEWC a quota.

After reviewing and addressing the comments received, NMFS selected Alternative 2 as the preferred alternative. NMFS issued a final EA and Finding of No Significant Impact on February 23, 2003. The Final EA was prepared in accordance with NEPA, implementing regulations at 40 CFR parts 1500 through 1508, and NOAA guidelines concerning implementation of NEPA found in NOAA Administrative Order 216-6.

SUPPLEMENTARY INFORMATION: The Council and NMFS will hold a collaborative workshop from noon to 5 p.m. on March 18, 2003 to discuss the Council's RSA program.

The RSA program is carried out through the cooperation of the Council, NMFS, and the Atlantic States Marine Fisheries Commission. It provides a mechanism to fund research relevant to the Council's and Commission's fishery management plans and to compensate vessels through the sale of fish harvested under specially designated RSA quotas. Research projects have been funded through the RSA in 2002 and 2003, and a notice for solicitation of 2004 projects has recently been published in the **Federal Register** (68, FR 3864, 1/27/2003). The NMFS is currently soliciting proposals for research activities concerning the summer flounder, scup, black sea bass, *Loligo* squid, *Illex* squid, Atlantic mackerel, butterfish, and bluefish fisheries. While the tilefish fishery is part of the RSA program, the Council has voted to set the tilefish RSA quota to zero until a stock assessment has been completed. All research proposals

to be considered under this solicitation must be received by March 28, 2003.

The purpose of the workshop is to receive public input from RSA project participants and the general public on how to improve the RSA program, and to inform the public and potential RSA quota recipients about the opportunities and requirements of the RSA program. Main agenda items for the workshop will be:

(1) Welcome and Description of the RSA Program, (2) The RSA 2004 Request for Proposals (RFP) Solicitation, (3) The RSA Grants Review/Approval Process, (4) Overview and Discussion of the Exempted Fishing Permit Process Requirements RSA Recipients Must Comply With, (5) Public Input from RSA Project Participants and General Public with Suggestions on How to Improve the RSA Program, (6) Integration of RSA Projects with NMFS Northeast Fisheries Science Center Programs, (7) Integration of RSA Project Findings Into the Fisheries Management Process.

Additional agenda items for the Council's committees and the Council itself are: Conduct a scoping meeting for Amendment 1 to the Dogfish Fishery Management Plan (consider, among other management measures, the following items for inclusion in Amendment 1: define a rebuilding biomass target for Bmsy, establish rebuilding timeframe consistent with Section 304(e) of the Magnuson-Stevens Act (MSA), address bycatch/discard issues, and address different allocation processes; the Executive Committee will discuss potential Council actions regarding MSA and Marine Mammal Protection Act (MMPA) Reauthorizations; hear a presentation on the peer review and stock assessment workshop process; hear a NMFS presentation on initiative to change recreational fishing data collection (report on the new coastwide methodology to collect catch and effort data from the for-hire recreational fleet and discuss how new system would affect Marine Recreational Fishery Statistics Survey (MRFSS); review and discuss directions and priorities for 2003 and 2004 for summer flounder, scup, and black sea bass; receive and discuss organizational and committee reports including the New England Council's report regarding possible actions on herring, groundfish, monkfish, red crab, scallops, skates, and whiting; and, act on any continuing and/or new business.

Although non-emergency issues not contained in this agenda may come before the Council for discussion, these issues may not be the subject of formal

Council action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final actions to address such emergencies.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Joanna Davis at the Council (see **ADDRESSES**) at least 5 days prior to the meeting date.

Title: Rules Relating to Review of National Futures Association Decisions in Disciplinary, Membership Denial, Registration, and Member Responsibility Actions, OMB Control No. 3038-0043. This is a request for

extension of a currently approved information collection.

Abstract: 17 CFR part 171 rules require a registered futures association to provide fair and orderly procedures for membership and disciplinary actions. The Commission's review of decisions of registered futures associations in disciplinary, membership denial, registration, and member responsibility actions is governed by section 17(h)(2) of the Commodity Exchange Act, 7 U.S.C. section 21(h)(2). The rules establish procedures and standards for Commission review of such actions, and the reporting requirements included in the procedural rules are either directly required by section 17 of the Act or are necessary to the type of appellate review role Congress intended the Commission to undertake when it adopted that provision.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for the CFTC's regulations were published on December 30, 1981. See 46 FR 63035 (Dec. 30, 1981). The **Federal Register** notice with a 60-day comment period soliciting comments on this collection of information was published on November 14, 2002 (67 FR 68995).

Burden statement: The respondent burden for this collection is estimated to average 1.42 hours per response. This estimate includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; and transit or otherwise disclose the information.

Respondents/Affected Entities: 22.

Estimated number of responses: 89.

Estimates total annual burden on respondents: 126 hours.

Frequency of collection: on occasion.

Send comments regarding the burden estimated or any other aspect of the information collection, including suggestions for reducing the burden, to the addresses listed below. Please refer to OMB Control No. 3038-0043 in any correspondence.
