

Multispecies Fishery Management Plan (FMP). FW 40 will identify opportunities to use regular and reserve Category B Days-At-Sea (DAS). In addition, it will consider changing 10 Category C DAS to 10 Category B (reserve) DAS for those vessels that will not receive Category A or Category B DAS under Amendment 13. FW 40 will also consider changes to the conservation tax applied in the DAS leasing and DAS transfer programs. The Committee will receive the report of the Groundfish Advisory Panel and will develop specific details of proposed measures that, subject to Council approval, will be included in FW 40. The Committee will also discuss other business, including receiving the report of the Advisory Panel on steaming time issues.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

At the November 2003 Council meeting, the SSC noted apparent deficiencies in the cabezon and lingcod stock assessments. The stock assessments had been developed to inform management decision making for the 2005-20 fishing years. However, because the SSC could not endorse the cabezon and lingcod stock assessments, the Council deferred full incorporation of these assessments until the SSC could review revised assessments prior to the March 2004 Council meeting. Since the November 2003 Council meeting, Stock Assessment Teams have prepared revised assessments for cabezon and lingcod. This new information will be reviewed and discussed by the groundfish subcommittee during the telephone conference call. Public comment will be accommodated during

the conference call. The initial recommendations of the groundfish subcommittee will be finalized by the SSC and presented to the Council at the March 2004 Council meeting in Tacoma, WA (March 7-12, 2004).

Entry to NMFS facilities requires identification with a photograph (such as a student ID, state drivers license, etc.) A security guard will review the identification and issue a Visitor's Badge valid for the date of the meeting.

Although non-emergency issues not contained in this notice may come before the SSC groundfish subcommittee for discussion, those issues may not be the subject of formal action during this meeting. SSC groundfish subcommittee action will be restricted to those issues specifically listed in this notice, and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the subcommittee's intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Ms. Carolyn Porter at 503-820-2280 at least 5 days prior to the meeting date.
