SUPPLEMENTARY INFORMATION:

Proposed Project

Clinical Decision Support (CDS) for Chronic Pain Management

Prescription opioid pain medication overuse, misuse, and abuse have been a significant contributing factor in the opioid epidemic. The goal of this project is to develop, implement, disseminate, and evaluate clinical decision support (CDS) tools for both patients and providers in the management of chronic pain. The CDS tools are intended to be interoperable and publicly-shareable and will be designed to meet the needs of patients and providers through both patient-facing and provider-facing channels and formats.

The development and deployment of CDS tools designed to optimize opioid dose reduction is intended to support
