

submitted for the NSPS for Flexible Vinyl and Urethane Coating and Printing (40 CFR Part 60, Subpart FFF) (Renewal), which were proposed on January 18, 1983 and promulgated on June 29, 1984. These standards apply to the following facilities in subpart FFF: Each rotogravure printing line used to print or coat flexible vinyl or urethane products, and for which construction, modification or reconstruction commenced after the proposed date of the rule. The affected entities are subject to the General Provisions of the NSPS at 40 CFR part 60 subpart A and any changes, or additions to the Provisions specified at 40 CFR part 60, subpart FFF.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 15 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Initially, occasionally, and semi-annually.

Estimated Number of Respondents: 20.

Frequency of Response: Initially, occasionally, and semi-annually.

Estimated Total Annual Hour Burden: 594.

Estimated Total Annual Cost: \$242,431 which includes \$55,831 in labor costs, \$6,600 in capital/startup costs, and \$180,000 in operation and maintenance (O&M) costs.

Changes in the Estimates: The regulations have not changed over the past three years and are not anticipated to change over the next three years. However, a slight increase in labor hours for respondents and small decrease in labor hours for the Agency occurred due to an incorrect calculation of the number of hours in the previous ICR. There was also an increase in O&M costs due to an error in the number of affected facilities in the previous ICR.

Title: NESHAP for Magnetic Tape Manufacturing Operations (Renewal).

ICR Numbers: EPA ICR Number 1678.07, OMB Control Number 2060-0326.

ICR Status: This ICR is scheduled to expire on June 30, 2010. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control

numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, subpart EE. Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 200 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Magnetic tape manufacturing operations.

Estimated Number of Respondents: 6.

Frequency of Response: Initially, occasionally, quarterly, semiannually and annually.

Estimated Total Annual Hour Burden: 3,396.

Estimated Total Annual Cost: \$366,607, which includes \$319,607 in labor costs, \$11,000 in capital/startup costs, and \$36,000 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is no change in the estimation methodology of labor hours in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the industry is very low, negative or non-existent. Therefore, the

labor hours in the previous ICR reflect the current burden to the respondents and are reiterated in this ICR. Because this ICR carries two decimal places in calculations within Table 1, there is an apparent increase of one labor hour in this ICR compared to the previous ICR which presented calculation results rounded to a whole number.

The increase in cost to respondents and the Agency is due to labor rate adjustments to reflect rates for fiscal year 2009. This increase is not due to any program changes. Labor rates reflected in the previous ICR were based on fiscal year 2003.
