

8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

SUPPLEMENTARY INFORMATION: NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Title of Collection: Survey of Graduate Students and Postdoctorates in Science and Engineering.

OMB Control Number: 3145-0062.

Expiration Date of Current Approval: August 31, 2023.

Type of Request: Intent to seek approval to extend an information collection for three years.

The Survey of Graduate Students and Postdoctorates in Science and Engineering (GSS), sponsored by the NCSES within NSF and the National Institutes of Health, is designed to comply with legislative mandates by providing information on the characteristics of academic graduate

enrollments in science, engineering, and health fields. This request to extend the information collection for three years is to cover the 2023, 2024, and 2025 GSS survey cycles. The information collected by the GSS is solicited under the authority of the National Science Foundation Act of 1950, as amended and the America COMPETES Reauthorization Act of 2010. Data collection starts each fall in October and data are obtained primarily through a Web survey. Data are disseminated annually. All information will be used for statistical purposes only.

Participation in the survey is voluntary. To improve coverage of postdocs, the GSS periodically collects information on postdocs employed in Federally Funded Research and Development Centers (FFRDCs). This survey of postdocs at FFRDCs will be conducted as part of the 2023 and 2025 GSS survey cycles.

Additional details regarding this survey are provided in an earlier **Federal Register** Notice, at 88 FR 10386.

Use of the Information: The GSS data are routinely provided to Congress, other parts of NSF, other Federal agencies, the GSS institutions

themselves, and several professional societies. In addition, the National Institutes of Health (NIH) publish GSS data annually in the NIH Data Book <https://report.nih.gov/nihdatabook/>.

Expected Respondents: The GSS is an annual census of all eligible academic institutions in the U.S. with graduate programs in science, engineering, and health fields. The response rate is calculated based on the number of reporting units (departments, programs, research centers, and health care facilities) that respond to the survey. For reference, in 2021, the GSS population was 21,365 units reported from 787 schools at 699 academic institutions. Based on recent cycles NCSES expects the annual response rate to be around 96 percent.

Estimate of Burden: The total estimated respondent burden of the GSS, including 2,000 hours for potential methodological studies to improve the survey procedures, will be 60,367 hours over the three-cycle survey clearance period. NCSES may review and revise this burden estimate based on completion time data collected during the 2022 GSS survey cycle, which is ongoing.

TABLE 1—GSS ESTIMATED RESPONSE BURDEN

Category	Respondents (number of school coordinators)	Total burden (hours)
Total burden for 2023:		
GSS institutions	919	19,442
FFRDCs	876	19,352
Total burden for 2024	43	90
Total burden for 2025:	881	19,396
GSS institutions	929	19,529
FFRDCs	886	19,439
Potential future methodological studies (across all 3 survey cycles)	43	90
		2,000
Total estimated burden	2,729	60,367
Estimated average annual burden	910	20,123

Comments: As required by 5 CFR 1320.8(d), comments on the information collection activities as part of this study were solicited through publication of a 60-Day Notice in the **Federal Register** on February 17, 2023, at 88 FR 10386. NCSES received no comments.

Dated: July 27, 2023.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

NEIGHBORHOOD REINVESTMENT CORPORATION

Sunshine Act Meetings; Special Audit Committee Meeting

TIME AND DATE: 11:00 a.m., Thursday, August 3, 2023.

PLACE: Via ZOOM.

STATUS: Parts of this meeting will be open to the public. The rest of the meeting will be closed to the public.

MATTERS TO BE CONSIDERED: Audit Committee Meeting.

The General Counsel of the Corporation has certified that in his opinion, one or more of the exemptions

set forth in the Government in the Sunshine Act, 5 U.S.C. 552b (c)(2) and (4) permit closure of the following portion(s) of this meeting:

- Executive Session

Agenda

- I. Call to Order
- II. Approval Government in Sunshine Act Notice to Waiver for a Meeting of the Audit Committee of the Board of Directors
- III. Sunshine Act Approval of Executive (Closed) Session; Executive (Closed) Session
- IV. External Auditor Discussion/Review

V. Discussion with Chief Audit Executive

VI. Adjournment

CONTACT PERSON FOR MORE INFORMATION: Lakeyia Thompson, Special Assistant, (202) 524-9940; lthompson@nrc.gov.

Lakeyia Thompson,
Special Assistant.

NUCLEAR REGULATORY COMMISSION

[NRC-2023-0079]

Proposed Revision to Standard Review Plan Section 15.0, "Introduction—Transient and Accident Analyses"

AGENCY: Nuclear Regulatory Commission.

ACTION: Standard review plan-draft section revision; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is soliciting public comment on draft NUREG-0800, "Standard Review Plan for the Review of Safety Analysis Reports for Nuclear Power Plants: LWR Edition," Section 15.0, Revision 4, "Introduction—Transient and Accident Analyses." The NRC seeks comments on the proposed draft section revision of the Standard Review Plan (SRP), concerning the evaluation of the safety of a nuclear power plant that requires analyses of the plant's responses to postulated equipment failures or malfunctions. Such analyses help to determine the limiting conditions for operation, limiting safety system settings, and design specifications for components and systems to protect public health and safety.

DATES: Submit comments by October 2, 2023. Comments received after this date will be considered, if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

ADDRESSES: You may submit comments by any of the following methods; however, the NRC encourages electronic comment submission through the Federal rulemaking website:

- *Federal rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2023-0079. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301-415-0624; email: Stacy.Schumann@nrc.gov. For technical questions, contact the individuals listed in the "For Further Information Contact" section of this document.

- *Mail comments to:* Office of Administration, Mail Stop: TWFN-7-A60M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, ATTN: Program Management, Announcements and Editing Staff.

For additional direction on obtaining information and submitting comments, see "Obtaining Information and Submitting Comments" in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: Ekaterina Lenning, Office of Nuclear Reactor Regulation, telephone: 301-415-3151, email: Ekaterina.Lenning@nrc.gov and Brent Ballard, Office of Nuclear Reactor Regulation, telephone: 301-415-0680, email: Brent.Ballard@nrc.gov. Both are staff of the U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2023-0079 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2023-0079.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, at 301-415-4737, or by email to PDR.Resource@nrc.gov. The draft SRP Section 15.0, Revision 4, "Introduction—Transient and Accident Analyses" is available in ADAMS under Accession No. ML22319A149.

- *NRC's PDR:* You may examine and purchase copies of public documents, by appointment, at the NRC's PDR, Room P1 B35, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC-2023-0079 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Discussion

The NRC seeks public comment on the proposed draft section revision of SRP Section 15.0, "Introduction—Transient and Accident Analyses." This section has been developed to assist the NRC staff in the evaluation of the safety of a nuclear power plant that requires analyses of the plant's responses to postulated equipment failures or malfunctions. The effects of anticipated process disturbances and postulated component failures are examined to determine their consequences and to evaluate the capability built into the plant to control or accommodate such failures and situations. Additionally, such analyses help determine the limiting conditions for operation, limiting safety system settings, and design specifications for components and systems to protect public health and safety under parts 50 and 52 of title 10 of the *Code of Federal Regulations* (10 CFR).

Following the NRC staff evaluation of public comments, the NRC intends to finalize SRP Section 15.0, Revision 4, "Introduction—Transient and Accident Analyses Review," in ADAMS and post it on the NRC's public website at <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr0800>. The SRP is guidance for the NRC staff. The SRP is not a substitute for the NRC
