

perimeter of existing oak trees and/or groups of oaks.

Close approximately 53 miles of system roads and 4 miles of motorized trails previously determined to not be open to the public motorized use with barricades or gates. These roads would continue to be used for FS administrative traffic for follow-up prescribed burning and other activities.

Decommission approximately 5 miles of non-system roads and trails previously determined to not be open to public motorized use by obliterating, ripping, or hiding with woody debris.

Use a combination of ground based and skyline logging systems to conduct commercial thinning on approximately 4,653 acres (274 acres of skyline and 4,124 acres of ground based in natural stands, and 274 acres ground based in plantations). Ground-based mechanized equipment (low-impact feller-buncher, hand felling, and whole tree yarding with conventional skidding equipment) would be restricted to slopes generally less than 40%.

Where necessary during initial harvest, small trees and brush would be mechanically thinned to facilitate sawtimber and biomass removal. Skyline logging systems would be restricted to slopes generally over 40%.

Conduct pre-commercial thinning and mastication of competing brush on 184 acres of conifer plantations, of which, 19 acres are located in California spotted owl Protected Activity Centers (PACs) and 164 acres located outside of PACs.

Reconstruct approximately 73 miles of system roads and maintain approximately 30 miles of system roads. Reconstruction activities would involve the repair or replacement of inadequate drainage culverts, elimination of ruts, ditch repair, installation of waterbars and dips with inadequate water runoff control, gate installation to control seasonal use or replacement of existing non-functional gates or barricades, and removal of brush and small trees encroaching on roads.

Perform follow-up machine piling, and cutting small trees and brush with pile burning on approximately 2,000 acres in natural stands to reduce ground fuels and ladder fuels. Machine piling would occur only on slopes less than

40%. Piling locations would be determined after harvest activities are complete.

Reuse about 3 miles of existing temporary roads. After the temporary roads have served their use, they would be barricaded, obliterated and ripped to alleviate soil compaction, restore infiltration, and discourage unauthorized motor vehicle use.

Approximately 70 existing landings and any new landings constructed in this project would be ripped to minimize erosion problems, restore infiltration, and discourage unauthorized motor vehicle use.

Remove approximately 26 miles of barbed wire fencing, primarily from the vacant Caldor and Steely Creek Range Allotments. Materials that could be salvaged would be incorporated into future projects on the Forest and the remainder would be recycled.

Boulders would be placed to protect the Pleasant Valley Mariposa lily occurrence along Big Mountain Road from vehicle traffic.

Rehabilitate several dispersed camping areas and associated spur roads adjacent to Dogtown Creek and the Steely Fork Consumnes River. Activities would include, but not limited to, one or more of the following: Placement of boulders to define the foot print of the camping areas and close unnecessary spur roads; ripping of compacted areas and spur roads; construction of waterbars and/or other runoff control structures; placement of organic material on the ground surface of denuded areas, and planting of native vegetation.

Responsible Official

Forest Supervisor, Eldorado National Forest.

Nature of Decision To Be Made

The decision to be made is whether to adopt and implement the proposed action, an alternative to the proposed action, or take no action to improve forest health.

Scoping Process

This notice of intent initiates the scoping process, which guides the development of the environmental impact statement. To facilitate public

participation, information about the proposed action will be mailed to all who express interest in the proposed action. It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions. Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered, however.

Dated: February 25, 2013.

Kathryn D. Hardy,

Forest Supervisor.

BILLING CODE 3410-11-P

DEPARTMENT OF COMMERCE

Economic Development Administration

Notice of Petitions by Firms for Determination of Eligibility To Apply for Trade Adjustment Assistance

AGENCY: Economic Development Administration, Department of Commerce.

ACTION: Notice and opportunity for public comment.

Pursuant to Section 251 of the Trade Act 1974, as amended (19 U.S.C. 2341 et seq.), the Economic Development Administration (EDA) has received petitions for certification of eligibility to apply for Trade Adjustment Assistance from the firms listed below. Accordingly, EDA has initiated investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each of these firms contributed importantly to the total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of each petitioning firm.

LIST OF PETITIONS RECEIVED BY EDA FOR CERTIFICATION ELIGIBILITY TO APPLY FOR TRADE ADJUSTMENT ASSISTANCE [2/23/2013 through 2/26/2013]

Firm name	Firm address	Date accepted for investigation	Product(s)
Tesko Welding & Manufacturing Company, Inc.	7350 W Montrose Avenue, Norridge, IL 60706.	2/25/2013	The firm manufactures metal forms for sidewalk and curb concrete pouring in the construction industry.

LIST OF PETITIONS RECEIVED BY EDA FOR CERTIFICATION ELIGIBILITY TO APPLY FOR TRADE ADJUSTMENT ASSISTANCE—
Continued

[2/23/2013 through 2/26/2013]

Firm name	Firm address	Date accepted for investigation	Product(s)
Die-Tech, Inc.	295 Sipe Road, York Haven, PA 17370.	2/26/2013	Firm manufactures precision metal stampings used for terminals, edge clip connectors and contacts, pump and filter components.
Stacy Machine & Tooling, Inc.	2810 Industrial Lane, Broomfield, CO 80020.	2/26/2013	The company produces metal manufactured parts that are produced using CNC mills and lathes. Materials used include steel, aluminum, plastic and exotic metals.

Any party having a substantial interest in these proceedings may request a public hearing on the matter. A written request for a hearing must be submitted to the Trade Adjustment Assistance for Firms Division, Room 7106, Economic Development Administration, U.S. Department of Commerce, Washington, DC 20230, no later than ten (10) calendar days following publication of this notice.

Please follow the requirements set forth in EDA's regulations at 13 CFR 315.9 for procedures to request a public hearing. The Catalog of Federal Domestic Assistance official number and title for the program under which these petitions are submitted is 11.313, Trade Adjustment Assistance for Firms.

Dated: February 26, 2013.

Miriam Kearse,

Eligibility Examiner.

Foreign-Trade Zones Board

[B-19-2013]

Foreign-Trade Zone 189—Kent/Ottawa/Muskegon Counties, MI, Notification of Proposed Production Activity, Southern Lithoplate, Inc., (Aluminum Printing Plates), Grand Rapids, Michigan

Southern Lithoplate, Inc. (SLP) submitted a notification of proposed production activity for their facility in Grand Rapids, Michigan. The notification conforming to the requirements of the regulations of the Board (15 CFR 400.22) was received on February 22, 2013.

The SLP facility is located within Site 10 of FTZ 189. The facility is used for the production of aluminum offset printing plates for the printing industry. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials and components and specific finished products described

in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt SLP from customs duty payments on the foreign status components used in export production. On its domestic sales, SLP would be able to choose the duty rates during customs entry procedures that apply to aluminum printing plates (duty-free) for the foreign status inputs noted below. Customs duties also could possibly be deferred or reduced on foreign status production equipment.

The components and materials sourced from abroad include: Acrylate monomers, unsensitized emulsions and surfactants for photographic purposes; acrylic polymers; and aluminum coils (duty rate ranges from duty-free to 6.5%).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is April 15, 2013.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230-0002, and in the "Reading Room" section of the Board's Web site, which is accessible via www.trade.gov/ftz.

For further information, contact Elizabeth Whiteman at Elizabeth.Whiteman@trade.gov or (202) 482-0473.

Dated: February 26, 2013.

Andrew McGilvray,

Executive Secretary.

Bureau of Industry and Security

Regulations and Procedures Technical Advisory Committee; Notice of Partially Closed Meeting

The Regulations and Procedures Technical Advisory Committee (RPTAC) will meet March 19, 2013, 9:00 a.m., Room 4830, in the Herbert C. Hoover Building, 14th Street between Constitution and Pennsylvania Avenues NW., Washington, DC. The Committee advises the Office of the Assistant Secretary for Export Administration on implementation of the Export Administration Regulations (EAR) and provides for continuing review to update the EAR as needed.

Agenda

Public Session

1. Opening remarks by the Chairman.
2. Opening remarks by Bureau of Industry and Security.
3. Export Enforcement update.
4. Regulations update.
5. Working group reports.
6. Automated Export System (AES) update.
7. Presentation of papers or comments by the Public.

Closed Session

8. Discussion of matters determined to be exempt from the provisions relating to public meetings found in 5 U.S.C. app. 2 §§ 10(a)(1) and 10(a)(3).

The open session will be accessible via teleconference to 25 participants on a first come, first serve basis. To join the conference, submit inquiries to Ms. Yvette Springer at Yvette.Springer@bis.doc.gov no later than March 12, 2013.

A limited number of seats will be available for the public session. Reservations are not accepted. To the extent that time permits, members of the public may present oral statements to the Committee. The public may submit written statements at any time before or
