Animal and Plant Health Inspection Service

Title: On Farm Monitoring of Antimicrobial Use and Resistance in U.S. Broiler Production.

OMB Control Number: 0579–New.

Summary of Collection: 7 U.S.C. 391, the Animal Industry Act of 1884, directs USDA to collect and disseminate animal health data and information. 7 U.S.C. 8308 of the Animal Health Protection Act, "Detection, Control, and Eradication of Diseases and Pests," May 13, 2002, further directs USDA to examine and report on animal disease control methods. APHIS's mission is to protect and improve American agriculture's productivity and competitiveness. Realizing this mission relies, in large part, on collecting, analyzing, and disseminating livestock and poultry health information.

APHIS is making this submission to initiate the National Animal Health Monitoring System's (NAHMS') On-farm Monitoring of Antimicrobial Use and Resistance in U.S. Broiler Production study. This study is an information collection conducted by APHIS through a cooperative agreement with the University of Minnesota. This longitudinal study will monitor U.S. broiler chicken operations for antimicrobial use (AMU), antimicrobial resistance (AMR), animal health and production practices, and the relationship between them and changes over time.

Need and Use of the Information: This study provides U.S. poultry producers and animal health professionals information about the relationship between AMU, AMR, animal health and production, and changes in each over time. This information is essential for effectively responding to the global health threat posed to animals and humans of increasing antimicrobial resistance. APHIS will use NAHMS 470 and NAHMS 471 to collect the information for the study. Without this survey, APHIS will have limited information by which to make decisions related to AMU and AMR as they relate to the U.S. poultry industry.

Description of Respondents: Businesses or other for-profits.

Number of Respondents: 30.

Frequency of Responses: Reporting; On occasion; Quarterly.

Total Burden Hours: 866.

Farm Service Agency

Title: Representations for CCC and FSA Loans and Authorization to File a Financing Statement and Related Documents Under the Revised Article 9 of the Uniform Commercial Code.

OMB Control Number: 0560–0215.

Summary of Collection: Commodity Credit Corporation and the Farm Service Agency (FSA) programs require loans be secured with collateral. The security interest is created and attaches to the collateral when: (1) Value has been given, (2) the debtor has rights in the collateral or the power to transfer rights in the collateral, and (3) the debtor has authenticated a security agreement that provides a description of the collateral. In order to perfect the security interest in collateral, a financing statement must be filed according to a State's Uniform Commercial Code. The revised Article 9 of the Uniform Commercial Code deals with secured transaction for personal property. The revised Article 9 affects the way the CCC and FSA, as well as any other creditor, perfect and liquidate security interests in collateral.

Need and Use of the Information: FSA will collect information using form CCC–10, Representations for Commodity Credit Corporation or Farm Service Agency Loans and Authorization to File a Financing Statement and Related Documents. The information obtained on CCC–10 is needed to not only obtain authorization from loan applicants to file a financing statement without their signature, but also to verify the exact legal name and location of the debtor. If this information is not collected, CCC and FSA will not be able to disburse loans because a security interest would not be perfected.

Description of Respondents: Farms; Individuals or households; Business or other for-profit.

Number of Respondents: 4,634.

Frequency of Responses: Reporting; On occasion.

Total Burden Hours: 385.
