SUPPLEMENTARY INFORMATION:

I. Background: The Division of Coal Mine Workers' Compensation administers the Black Lung Benefits Act (30 U.S.C. 901 *et. seq.*) which provides benefits to coal miners totally disabled due to pneumoniosis, and their surviving dependents. When the Division of Coal Mine Workers' Compensation (DCMWC) makes an initial finding that an applicant is eligible for benefits, and, if a coal mine operator has been identified as potentially liable for payment of those benefits, the responsible operator is notified of the initial finding. The CM-970 gives the operator an opportunity to controvert the liability. The CM-970 is used for all claims filed before January 19, 2001. Regulations require that a coal mine operator be identified and notified of potential liability as early in the adjudication process as possible. The CM-970A is sent to the operator with the Notice of Claim notifying the operator of potential liability of payment for benefits. The CM-970A gives the operator an opportunity to agree or disagree with the identification. The CM-970A is used for all claims

filed before January 19, 2001. The CM-2970 and CM-2970A serve the same purposes as the CM-970 and CM-970A these forms will be used for all claims filed after January 19, 2001. Regulatory authority is found in 20 CFR 725.412 for the CM-970, 20 CFR 725.413 for the CM-970A, 20 CFR 725.410 for the CM-2970 and 20 CFR 725.408 for the CM-2970A.
