An initial notice of the filing of the application-declaration was issued on October 4, 2000 (HCAR No. 27240) ("Initial Notice").

The Initial Notice described System Energy's Proposal to engage in certain financing transactions from time to time through December 31, 2005. Among other things, System Energy proposed: (1) To issue and sell one or more series of its first mortgage bonds ("Bonds"), and/or one or more series of its Debentures ("Debentures") in a combined aggregate principal amount of Bonds and Debentures not to exceed \$350 million; (2) to provide an insurance policy for the payment of the principal of and/or interest and/or premium on one or more series of Bonds or Debentures; (3) to enter into arrangements for the issuance and sale of tax-exempt revenue bonds in an aggregate principal amount not to exceed \$500 million ("Tax-Exempt Bonds"); (4) to provide for a more favorable rating, on the Tax-Exempt Bonds by arranging for letters of credit, an insurance policy, or additional first mortgage bonds up to an aggregate

amount not to exceed \$565 million; and (5) to enter into arrangements for the issuance of municipal securities in an aggregate principal amount not to exceed \$100 million ("Municipal Securities") to be issued in one or more series through a state or local municipal entity on behalf of System Energy.

Applicants now want to provide terms and conditions for the Municipal Securities. Each series of Municipal Securities will be sold at such price, will bear interest at such rate, either fixed or adjustable, and will mature on such date (not earlier than one year nor more than fifty years from the first day of the month of issuance) as will be determined at the time of sale. No series of Municipal Securities will be sold if the fixed interest rate or initial adjustable interest rate thereon would exceed 15% per annum. One or more series of Municipal Securities may include provisions for redemption or retirement prior to maturity, including restrictions on optional redemption for a given number of years.

In order to obtain a more favorable rating and thereby improve the marketability of the Municipal Securities, System Energy may (1) arrange for one or more letters of credit from one or more banks up to an aggregate amount of \$115 million, (2) provide an insurance policy for the payment of the principal, premium, if any, interest and purchase obligations in connection with one or more series of Municipal Securities, or (3) issue one or more series of new collateral bonds up to an aggregate amount of \$115 million. In addition, System Energy may grant a lien, subordinate to the lien of the Mortgage on certain assets of System Energy.

For the Commission, by the Division of Investment Management, under delegated authority.
