

regarding a country's performance on MCC programs, as relevant. The Board also considered a country's commitment to further sector reform, as well as evidence of improved scorecard policy performance.

Countries Newly Selected for Compact Assistance

Using the criteria described above, one candidate country under section 606(a) of the Act (22 U.S.C. 7705(a)) was newly selected as eligible for assistance under section 607 of the Act (22 U.S.C. 7706): *Liberia*. Liberia is invited by MCC to develop a compact.

Liberia: A prior compact partner, Liberia passes the scorecard for the third consecutive year in FY 2025. One of the world's poorest countries, Liberia is a politically stable democracy that has seen two decades of peace since the second civil war ended in 2003. General elections held in late 2023 were free, fair, competitive, and peaceful, and the new government has committed to prioritize reforms to boost the economy, advance national reconciliation efforts, and strengthen the fight against corruption. MCC's Board selected Liberia as eligible to develop a subsequent compact in recognition of the progress the country has made to strengthen its scorecard performance and pursue economic and democratic governance reforms. The selection provides MCC the opportunity to develop a program that could significantly impact the lives of the Liberian people through a committed and engaged former MCC partner.

Countries Selected To Continue Compact Development

Three of the countries selected as eligible for compact assistance for FY 2025 were previously selected for FY 2024. *Cabo Verde* (regional), *Senegal* (regional), and *The Gambia* were selected to continue developing compacts. Selection of these countries for FY 2025 was based on an assessment of their policy performance since their prior selection and their progress in developing programs with MCC. The Board deferred a vote on the selection of *Togo* to continue developing a compact to provide the Government of Togo additional time to strengthen the protection of democratic rights and fundamental freedoms as it implements its new constitution and transitions to a new system of government next year. In making its decision to defer a vote, the Board discussed the importance of the Government of Togo taking meaningful action to address MCC's concerns regarding the country's constitutional change process and restrictions on

fundamental freedoms. The Board may revisit its decision over the course of 2025 as more information becomes available.

Country Selected To Receive Threshold Program Assistance

The Board did not newly select any countries to receive threshold program assistance for FY 2025.

Countries Selected To Continue Developing Threshold Programs

The Board selected *Philippines* and *Tanzania* to continue developing threshold programs.

Selection of Philippines for FY 2025 was based on its commitment to strengthening its policy performance, protections for human rights and fundamental freedoms, and anti-corruption efforts since its prior selection and its progress developing its threshold program.

Selection of Tanzania for FY 2025 recognized the progress that has been made in developing a threshold program. However, in making the selection the Board expressed concern that the November 27 local elections were a missed opportunity to open political space and advance democratic reforms. The Board also noted with concern reports of disappearances, political violence, and restrictions on peaceful assembly and press freedoms and urges the Government of Tanzania to protect democratic freedoms as the country prepares for national elections in 2025.

Ongoing Review of Partner Countries' Policy Performance

The Board emphasized the need for all partner countries to maintain or improve their policy performance. If it is determined during program implementation that a country has demonstrated a significant policy reversal, MCC can hold it accountable by applying MCC's Suspension and Termination Policy.⁴
