

granted Lilly's motion as to false advertising as to respondents SHS, AustroPeptide, and Arctic Peptides, but denied the motion as to Total Compounding. The order additionally found that Lilly is entitled to summary determination as to the domestic industry requirement.

Order No. 26 also included a preliminary recommendation on remedy and bonding ("RD"), should a violation be found. The RD recommended: (1) as to Lilly's trademark infringement and false designation of origin allegations, a GEO directed to certain products containing tirzepatide and products purporting to contain tirzepatide imported, sold for importation, and/or sold after importation; (2) also as to Lilly's trademark infringement and false designation of origin allegations and in the alternative to a GEO, an LEO directed to certain products containing tirzepatide and products purporting to contain tirzepatide imported, sold for importation, and/or sold after importation by Audrey Beauty, Mew Mews, SHS, Triggered Brand, Strate Labs, and AustroPeptide; (3) as to Lilly's false advertising allegations, an LEO directed to certain products containing tirzepatide and products purporting to contain tirzepatide imported, sold for importation, and/or sold after importation by AustroPeptide and SHS; and (4) in addition to either a GEO order or LEOs, CDOs directed to Arctic Peptides, Triggered Brand, and Strate Labs. The RD also recommended that the Commission set the bond during the Presidential review period at one hundred percent (100%) of entered value.

On January 22, 2025, the Commission determined not to review Order No. 26. Comm'n Notice (Jan. 22, 2025).

Because Lilly's motion for summary determination was not granted as to all issues, the ALJ sought a submission from the parties regarding any further necessary proceedings. See Order No. 27 (Dec. 6, 2024), *unreviewed by* Comm'n Notice (Jan. 6, 2025). In response, the parties provided a joint submission in which Lilly indicated that it would seek to terminate all claims on which summary determination was not granted. Then, on December 19, 2024, Lilly moved to withdraw the allegations remaining before the ALJ as to GenX Peptides, Paradigm Peptides, Total Compounding, Biolabshop, and Strate Labs. On January 10, 2025, the ALJ issued an initial determination granting Lilly's motion. See Order No. 29 (Jan. 10, 2025), *unreviewed by* Comm'n Notice (Jan. 31, 2025).

The Commission issued a notice soliciting comments regarding any

public interest concerns raised by the recommend relief in the RD. See 89 FR 101048 (Dec. 13, 2024). The Commission's notice received two responses in support of the recommended relief. Additionally, Lilly filed a statement on public interest pursuant to Commission Rule 210.50(a)(4), 19 CFR 210.50(a)(4).

The Commission requested briefing on remedy, bonding, and the public interest. Comm'n Notice (Jan. 22, 2024). On February 5, 2025, Lilly and OUII filed opening submissions. On February 12, 2025, OUII filed a responsive submission. No other party filed a submission before the Commission.

Having reviewed the record of the investigation, including the RD and the parties' submissions, the Commission has determined that the appropriate remedy is: (1) a GEO prohibiting the importation of products containing tirzepatide and products purporting to contain tirzepatide that infringe U.S. Trademark No. 6,809,369 and/or include a false designation of origin; (2) an LEO prohibiting prohibiting the entry of falsely advertised products containing tirzepatide and products purporting to contain tirzepatide that are imported by or on behalf of SHS, AustroPeptide, and Arctic Peptides; and (3) CDOs directed to Arctic Peptides, Triggered Brand, and Strate Labs.

The Commission has further determined that the public interest factors enumerated in subsections (d)(l) and (g)(1) (19 U.S.C. 1337(d)(l), (g)(1)) do not preclude issuance of the above referenced remedial orders. Additionally, the Commission has determined to impose a bond of 100% of entered value of the covered products during the period of Presidential review (19 U.S.C. 1337(j)).

This investigation is terminated.

The Commission vote for this determination took place on April 9, 2025.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in Part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

Issued: April 9, 2025.

Lisa Barton,

Secretary to the Commission.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–255; NRC–2025–0074]

Holtec Palisades, LLC; Palisades Nuclear Plant; License Amendment Request

AGENCY: Nuclear Regulatory Commission.

ACTION: Opportunity to comment, request a hearing, and petition for leave

to intervene; order imposing procedures.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC, the Commission) is considering issuance of an amendment to Renewed Facility Operating License (RFOL) No. DPR–20, that was requested by Holtec Palisades, LLC for the Palisades Nuclear Plant (Palisades, PNP). The proposed license amendment would revise the technical specifications to allow for the use of Framatome Alloy 690 sleeves to repair the defective steam generator tubes as an alternative to removing the tubes from service by plugging. This will support the return to service of the steam generators as part of the potential resumption of power operations at the Palisades facility. For the amendment request, the NRC proposes to determine that it involves no significant hazards consideration (NSHC). Because this amendment request contains sensitive unclassified non-safeguards information (SUNSI), an order imposes procedures to obtain access to SUNSI for contention preparation.

DATES: Submit comments by May 15, 2025. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date. Requests for a hearing or petition for leave to intervene must be filed by June 16, 2025. Any potential party as defined in section 2.4 of title 10 of the *Code of Federal Regulations* (10 CFR) who believes access to SUNSI is necessary to respond to this notice must request document access by April 25, 2025.

ADDRESSES: You may submit comments by any of the following methods; however, the NRC encourages electronic comment submission through the Federal rulemaking website.

- *Federal rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC–2025–0074.
