DEPARTMENT OF STATE

[Public Notice 8416]

Preparations for the International Telecommunication Union Plenipotentiary Conference 2014

This notice announces a meeting of the Department of State's International Telecommunication Advisory Committee (ITAC) to initiate preparations for the International Telecommunication Union (ITU) Plenipotentiary Conference 2014 (PP14).

The ITAC will meet on September 10, 2013 at 2PM EDT to initiate preparations for the ITU Plenipotentiary Conference 2014 (PP14) and schedule additional follow-on PP14 preparatory meetings, as well as review the structure of all the ad hoc committees working within the ITAC committee, and review the work of these ad hoc committees. This meeting of the ITAC will be held at 1200 Wilson Boulevard, Arlington, VA 22209.

The review will also include an update on the preparations for the World Telecommunication Development Conference (WTDC–2014) in light of the Regional Preparatory Meeting (RPM) for the Americas region; as well as the World Summit on the Information Society+10 high level event in conjunction with WTDC–2014.

Details on these additional ITAC meetings for preparations for PP14 and other ITAC meetings will be announced on the Department of State's email list, ITAC@lmist.state.gov. Use of ITAC lists is limited to meeting announcements and confirmations, distribution of agendas and other meeting documents such as Contributions. Participation on the ITAC lists is open.

People wishing to participate in the ITAC list, desiring further information

on this or other preparatory meetings, including those wishing to request reasonable accommodation to attend the meeting, should contact the Secretariat at minardje@state.gov.

Attendance at these meetings is open to the public as seating capacity allows. The public will have an opportunity to provide comments at these meetings. A conference bridge will be provided to those people outside the Washington Metro area who request it from the secretariat.

Dated: July 31, 2013.

Marian Gordon,

Foreign Affairs Officer, International Communications & Information Policy, U.S. Department of State.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA–2013–0081]

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a document dated July 19, 2013, the Association of American Railroads (AAR) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain

provisions of the Federal railroad safety regulations contained at 49 CFR 231.33. FRA assigned the petition Docket Number FRA–2013–0081.

AAR, on behalf of itself and its member railroads, submitted a petition for special approval of existing industry safety appliance standards. AAR is requesting approval of the standards and specifications delineated in AAR Standard S–2044 and its detailed appendices. AAR Standard S–2044 establishes requirements for safety appliance arrangements applied to certain new railroad freight cars.

AAR Standard S–2044 was established by the AAR Safety Appliance Task Force (Task Force), which was created by AAR's Equipment Engineering Committee to develop industry standards for safety appliance arrangements on modern railcar types not explicitly covered by 49 CFR Part 231. The Task Force consists of representatives from Class I railroads, labor unions, car builders, private car owners, and shippers, along with ergonomics experts and government representatives from FRA and Transport Canada who participate as non-voting members. The Task Force drafted a base safety appliance standard for all car types, plus industry safety appliance standards for specific car types. These industry standards have been adopted by AAR's Engineering Equipment Committee and, with FRA's concurrence, will serve as the core criteria for safety appliance arrangements on railcars that are more specialized in design. With its petition, AAR submitted detailed appendices establishing the required safety appliance arrangements for individual car types. AAR also included deviation tables that show where the AAR standard differs from the regulatory text and provide the rationale for any deviations, along with analysis showing that the AAR standard provides an equal or greater level of safety in each instance. In addition, the tables describe the ergonomic suitability of many of the proposed arrangements in normal use, as the standards were developed by the Task Force to incorporate ergonomic design principles.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.
