SUPPLEMENTARY INFORMATION:

Title: Walnuts Grown in California, Marketing Order No. 984.

OMB Number: 0581-NEW.

Expiration Date of Approval: This is a NEW Collection.

Type of Request: Approval of New Information Collection.

Abstract: The Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the "Act," authorizes the Secretary of Agriculture to issue marketing orders that regulate the handling of any agricultural commodity specified in the Act, and to consider recommendations submitted by the administrative committees that manage the operations of such marketing orders. The individuals serving on an administrative committee are nominated by each commodity industry, are familiar with the handling of such commodity in their local area and are thus in a position to make recommendations to the Secretary.

The information requirements in this notice are essential to administer the Federal marketing order for walnuts grown in California, as amended, (7 CFR part 984), hereinafter referred to as the

“Order”. The Order authorizes quality regulations, research and promotion, and provides for the establishment of the Board, which locally administers the Order.

On October 28, 2021, the Board recommended multiple proposed amendments to the Secretary, including the elimination of mandatory inspection and certification of walnuts and the creation of a new mechanism for determining and collecting handler assessments. After reviewing the proposals and other information submitted by the Board, USDA concluded the Board’s proposals will tend to effectuate the declared policy of the Act and conducted a public hearing on April 19–20, 2022. During the hearing, USDA proposed that § 984.67 be amended to include exemptions that were inadvertently omitted in a previous revision. On August 21, 2023, the Final Rule published in the **Federal Register** [88 FR 56745], with an effective date September 20, 2023.

Under the Order handler assessment obligations are incurred at the time of certification, and provisions under § 984.67 exempt certain walnut sales from assessments and quality regulations. Therefore, walnuts considered exempt are not inspected, certified, and assessed. Under the new mechanism of determining and collecting assessments, handler assessments would be based on walnuts received rather than walnuts certified. Accordingly, effective September 20, 2023, walnut receipts for deliveries that previously would have been exempt, as those walnuts would not be inspected and certified, may now be subject to assessment. To ensure that those walnuts continue to be exempt from assessment and/or that handlers can receive a refund against their current year assessments for walnut deliveries exempt under § 984.67, the Board recommended the establishment of the new information collection form described below. The form designated as OMB No. 0581–NEW is voluntary and is titled (CWB Form No. 2) Report of Walnuts Exempt from Assessments. Depending on when handlers submit the form, submission would either ensure that walnuts that are exempt from assessment are not assessed or if they are assessed, handlers would be able to receive a refund. Once approved by OMB, USDA will request permission to merge the form into OMB No. 0581–0178 Vegetable and Specialty Crops collection that includes other forms related to the Order.
