### Federal Energy Regulatory Commission

[Docket No. RM98-1-000]

#### Regulations Governing Off-the-Record Communications; Public Notice

August 16, 2002.

This constitutes notice, in accordance with 18 CFR 385.2201(h), of the receipt of exempt and prohibited off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive an exempt or a prohibited off-the-record

communication relevant to the merits of a contested on-the-record proceeding, to deliver a copy of the communication, if written, or a summary of the substance of any oral communication, to the Secretary.

Prohibited communications will be included in a public, non-decisional file associated with, but not part of, the decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any responses thereto should become part of the decisional record, the prohibited off-the-record communication will not be considered by the Commission in

reaching its decision. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication, and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such requests only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication should serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications will be included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).

The following is a list of exempt and prohibited off-the-record communications recently received in the Office of the Secretary. Copies of these filings are on file with the Commission and are available for public inspection. The documents may be viewed on the web at <http://www.ferc.gov> using the "FERRIS" link. ### D. What Information is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collections of information are necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.
2. Evaluate the accuracy of the Agency's estimates of the burdens of the proposed collections of information.
3. Enhance the quality, utility, and clarity of the information to be collected.
4. Minimize the burden of the collections of information on those who are to respond, including through the use of appropriate automated or electronic collection technologies or other forms of information technology,

e.g., permitting electronic submission of responses.

#### IV. What Information Collection Activity or ICR Does this Action Apply to?

EPA is seeking comments on the following ICR:

*Title:* Substantial Risk Information Reporting under Section 8(e) of the Toxic Substances Control Act (TSCA).

*ICR numbers:* EPA ICR No. 0794.10, OMB No. 2070-0046.

*ICR status:* This ICR is currently scheduled to expire on January 31, 2003. An Agency may not conduct or sponsor, and a person is not required to respond to a collection of information that is subject to approval under PRA, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's information collections appear on the collection instruments or instructions, in the **Federal Register** notices for related rulemakings and ICR notices, and, if the collection is contained in a regulation, in a table of OMB approval numbers in 40 CFR part 9.

*Abstract:* TSCA section 8(e) requires that any person who manufactures, imports, processes, or distributes in commerce a chemical substance or mixture and which obtains information that reasonably supports the conclusion that such substance or mixture presents a substantial risk of injury to health or the environment must immediately inform EPA of such information. EPA routinely disseminates TSCA section 8(e) data it receives to other Federal agencies to provide information about newly discovered chemical hazards and risks.

Responses to the collection of information are mandatory (see 15 U.S.C. 2607(e)). Respondents may claim all or part of a notice confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

#### V. What are EPA's Burden and Cost Estimates for this ICR?

Under the PRA, "burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal Agency. For this collection it includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the

existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of this estimate, which is only briefly summarized in this notice. The annual public burden for this collection of information is estimated to range between 5.0 hours and 27.0 hours per response, depending upon the nature of the response. The following is a summary of the estimates taken from the ICR:

*Respondents/affected entities:* 218.

*Frequency of response:* On occasion.

*Estimated average number of responses for each respondent:* 1.

*Estimated total annual burden hours:* 6,431.

*Estimated total annual burden costs:* \$675,255.

#### VI. Are There Changes in the Estimates from the Last Approval?

There is a decrease of 1,778 hours (from 8,209 hours to 6,431 hours) in the total estimated respondent burden compared with that identified in the information collection request most recently approved by OMB. This change results from an overall decrease in section 8(e) reporting, primarily from a reduction in the number of follow-up/supplemental section 8(e) notices received. In previous ICR renewals, EPA used an historical average of 2.2 follow-up notices per each initial submission. This figure was based on EPA's experience and system for reviewing section 8(e) notices in place pre-1990. During that time EPA received fewer than 100 initial notices per year and was able to perform a much more detailed review of each notice received. The consequence of that review was that there was much more interaction with the submitting companies generating numerous follow-up notices and information submissions. However, during and since the 1991 Compliance Audit Program, because of the increase in initial notices submitted, EPA has contacted submitters for additional information only for those initial notices that are identified during the preliminary screening evaluation as needing additional information from the submitters. Consequently, the number of follow-up notices has fallen due to the changed nature of EPA's review of initial notices. Over the last 3 fiscal years, EPA has received 341 follow-up notices versus 653 initial notices, or

approximately 0.5 follow-up notices per initial notice.

#### VII. What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.
