BILLING CODE 6450-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2010-0368; FRL-9324-7]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NSPS for Polymeric Coating of Supporting Substrates Facilities (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR which is abstracted below describes the nature of the collection and the estimated burden and cost.

DATES: Additional comments may be submitted on or before July 27, 2011.

ADDRESSES: Submit your comments, referencing docket ID number EPA-HQ-OECA-2010-0368, to: (1) EPA online using <http://www.regulations.gov> (our preferred method), or by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 28221T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Learia A. Williams, Office of Compliance and Enforcement, Mail Code 2227A, U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number: (202) 564-4113; fax number: (202) 564-0050; e-mail address: williams.learia@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for

review and approval according to the procedures prescribed in 5 CFR 1320.12. On June 2, 2010 (75 FR 30812), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2010-0368 which is available for public viewing online at <http://www.regulations.gov>, in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1752.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to either submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: NSPS for Polymeric Coating of Supporting Substrates Facilities (Renewal).

ICR Numbers: EPA ICR Number 1284.09 OMB Control Number 2060-0181.

ICR Status: This ICR is scheduled to expire on July 31, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in

the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: NSPS for Polymeric Coating of Supporting Substrates Facilities are subject to the General Provisions at 40 CFR part 60, subpart A, and any changes, or additions to these Provisions specified at 40 CFR part 60, subpart VVV.

Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 82 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of polymeric coating of supporting substrates facilities.

Estimated Number of Respondents: 56.

Frequency of Response: Initially, quarterly, and semiannually.

Estimated Total Annual Hour Burden: 13,108.

Estimated Total Annual Cost: \$1,866,424, which includes \$1,229,924 in labor costs, \$48,500 in capital/startup costs, and \$588,000 in operation and maintenance (O&M) costs.

Changes in the Estimates: The small increase in burden and cost to the Respondents and the Agency from the

most recently approved ICR are due to an increase in the number of expected respondents and use of recently available labor rates. There is no change in the calculation methodology for labor hours and Agency costs in this ICR compared to the previous ICR due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the respondents is very low. There have been no program changes.

Dated: June 21, 2011

John Moses,

Director, Collection Strategies Division.

Title: NESHP for Marine Tank Vessel Loading Operations (Renewal).

ICR Numbers: EPA ICR Number 1679.07, OMB Control Number 2060-0289.

ICR Status: This ICR is schedule to expire on July 31, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is

pending at OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in both 40 CFR part 9 and 48 CFR chapter 15, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain-EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emissions Standards for Hazardous Air Pollutants (NESHP) for Marine Tank Vessel Loading Operations were proposed on May 13, 1994, promulgated on September 19, 1995, and a proposed amendment on October 21, 2010 was promulgated on April 21, 2011.

These regulations apply maximum achievable control technology (MACT) standards to existing facilities and new facilities that load marine tank vessels with petroleum or gasoline and have aggregate actual Hazardous Air Pollutants (HAP) emissions of 10 tons or more of HAP, or 25 tons or more of all HAP combined. In addition, these regulations apply reasonably available control technology (RACT) standards to facilities with an annual throughput of 10 million or more barrels of gasoline or 200 million or more barrels of crude oil. This ICR also covers owners or operators of existing marine tank vessel loading operations (MTVLO) that emit less than 10 tons per year of each individual HAP, and less than 25 tons/year of all HAP combined, located at major sources of HAP that loads more than 1 million barrels/yr of gasoline, as well as owners or operators of existing off-shore terminals that load gasoline.

Owners or operators of marine tank vessel loading facilities subject to the rule must maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintenance reports, and records. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 63, subpart Y and 40 CFR part 63, subpart A, as authorized in section 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.
