SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-67231; File No. SR-CBOE-2012-057]

Self-Regulatory Organizations; Chicago Board Options Exchange, Incorporated; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Increase the Class Quoting Limit for Options on Facebook

June 21, 2012.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that, on June 15, 2012, the Chicago Board Options Exchange, Incorporated (the "Exchange" or "CBOE") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

CBOE proposes to amend the Class Quoting Limit ("CQL") for options on Facebook. The text of the proposed rule change is available on the Exchange's Web site (<http://www.cboe.com/AboutCBOE/CBOELegalRegulatoryHome.aspx>), at the Exchange's Office of the Secretary and at the Commission's Public Reference Room.

OMX Group, Inc., dated April 30, 2012; and Jennifer Green Setzenfand, Chairman of the Board and James Toes, President and CEO, Security Traders Association, dated June 8, 2012.

⁵ See Securities Exchange Act Release No. 67034 (May 21, 2012), 77 FR 31418 (May 25, 2012).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

A CQL is the maximum number of Trading Permit Holders ("TPHs") that may quote electronically in a given product.³ CBOE Rule 8.3A, Interpretation .01 states that the CQL for products trading on the Exchange's Hybrid Trading System ("Hybrid") is 50.⁴ However, the President of the Exchange may increase the CQL for an existing or new product if he determines that it would be appropriate.⁵ Such an increase can be accomplished by submitting to the Commission a rule filing pursuant to Section 19b(3)(A) of the Act and announcing the increase to TPHs via Information Circular.⁶ The Exchange has previously increased the CQLs for other products to 60 via rule filing.⁷

Since the Exchange recently began electronically trading options on Facebook, trading volume and TPH interest in quoting on that product has increased rapidly. As such, CBOE's President has determined that it would be appropriate to increase the CQL for Facebook from 50 to 60. The Exchange has prepared an Information Circular to inform TPHs of this change, and hereby submits this proposed rule filing to effect such change. The Exchange has the system capacity to manage the proposed increase.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Act and the rules and regulations

³ See CBOE Rule 8.3A.

⁴ See CBOE Rule 8.3A, Interpretation .01(a).

⁵ See CBOE Rule 8.3A, Interpretation .01(b).

⁶ See CBOE Rule 8.3A, Interpretation .01(c).

⁷ See Securities Exchange Act Release No. 55664 (April 24, 2007), 72 FR 23867 (May 1, 2007) (SR-CBOE-2007-36), which increased the CQLs for Apple Inc. and Research In Motion to 60.

thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.⁸ Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)⁹ requirements that the rules of an exchange be designed to promote just and equitable principles of trade, to prevent fraudulent and manipulative acts, to remove impediments to and to perfect the mechanism for a free and open market and a national market system, and, in general, to protect investors and the public interest. Increasing the CQL for Facebook allows more Market-Makers to quote in that product, which provides greater volume and more trading activity for all market participants, thereby perfecting the mechanism for a free and open market.

B. Self-Regulatory Organization's Statement on Burden on Competition

CBOE does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁰ and Rule 19b-4(f)(6) thereunder.¹¹

A proposed rule change filed under Rule 19b-4(f)(6)¹² normally does not become operative prior to 30 days after the date of the filing. However, pursuant to Rule 19b-4(f)(6)(iii),¹³ the Commission may designate a shorter

time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing. The Exchange notes that waiving the 30-day operative delay will enable the additional Market-Makers to start quoting on Facebook immediately, thereby providing greater volume and more trading activity in that product. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest, as it will allow CBOE to respond without delay to what it has identified to be current market demand for increased quoting capacity in options overlying Facebook stock and thereby will help accommodate current market interest. Further, the Exchange has represented that it has the systems capacity to accommodate the additional quotation activity. Accordingly, the Commission designates the proposed rule change to be operative upon filing with the Commission.¹⁴

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:
